Greco Persian Wars the Crusades and the Arab Israeli Wars *Sherlock Holmes and the Sword of Osman* Tim Symonds, 2015-10-14 It's 1906. Far from England, the Ottoman Empire, ruled by the despotic Sultan Abd ul Hamid II, is on the verge of imploding. Rival Great Powers, especially Kaiser Wilhelm's Germany, sit watching like crows on a fence, ready to rush in to carve up the vast territories menacing England's vital overland routes to her Indian possessions. At his medical practice in London's Marylebone, Watson receives a mystifying telegram. It's from Holmes: "Dear Watson, if you can throw physic to the dogs for an hour or two, I would appreciate meeting at the stone cross at Charing Cross railway station tomorrow noon. I have an assignation with a bird lover at the Stork Ostrich House in the Regents Park, which has excited my curiosity." Yrs S H. Watson finds the invitation puzzling. Why should such a mundane meeting at a Bird House excite the curiosity of Europe's most famous investigating detective or anyone else? For old times' sake, Watson joins his old comrade in arms. Within days, Holmes and Watson find themselves aboard HMS Dreadnought, en route to Stamboul, a city of fabled opulence, high espionage and low intrigue. Their mission, at all costs, stop a plot which could bring about the immediate collapse of the Ottoman Empire.

The United States, International Law and the Struggle against Terrorism Thomas McDonnell, 2023-05-09 This book discusses the critical legal issues raised by the US responses to the terrorist threat, analyzing the actions taken by the Bush administration during the so-called war on terrorism and their compliance with international law. Thomas McDonnell highlights specific topics of legal interest, including torture, extra-judicial detentions, and the invasions of Afghanistan and Iraq, and examines them against the backdrop of terrorist movements which have plagued Britain and Russia. The book extrapolates from the actions of the USA, going on to look at the difficulties all modern democracies face in trying to combat international terrorism. This book demonstrates why current counter-terrorism practices and policies should be rejected and new policies adopted that are compatible with international law. Written for students of law, academics, and policy makers, the volume demonstrates the dangers that breaking international law carries in the war on terrorism. **The Singularity of**

Western Innovation Leonard Dudley, 2017-08-14 This book highlights the contribution of language standardization to the economic rise of the West between 1600 and 1860. Previous studies have been unable to explain why, during this period, almost all industrial innovation was confined to small areas around the main cultural centers of three Western states: Britain, France, and the United States. This book argues that Western Europe and its offshoots were the only Eurasian societies able to apply typography cheaply to their writing systems. The emergence in the West of large networks of people able to communicate in standardized languages made possible the breakthroughs of the Industrial Revolution. Military byproducts of three macro-innovations—the steam engine, machine tools, and interchangeable parts—then constituted the West's toolbox for empire. The book will appeal to readers seeking to explain how the West attained its unprecedented advance over Asia in the nineteenth century and why this lead has since proved temporary. *The Leonardos and the Forgotten Arab Polymath, Zoroastro* Susan Audrey Grundy, 2024-10-16 This book recovers the lives of four men masked behind one legend.

Reinterpreting recently rediscovered documents shows a Tuscan artist Leonardo da Vinci was banished from Florence around 1477 when at the same moment another Leonardo arrived from the East an Ottoman agent from Genoese Caffa in the Black Sea This Leonardo was a military engineer who began writing technical notes backward in a flourishing Italian script In Florence around 1500 he met the alchemist and polymath Zoroastro who collaborated in producing the scientific Notebooks However by the mid sixteenth century all memory of Zoroastro had been erased and the two Leonardos had been conflated into one identity Crucially an archived document rediscovered around 2021 proved that the Tuscan painter Leonardo da Vinci died in 1499 This information leads to the recovery of the artist who really painted the Mona Lisa Giovanni Antonio Boltraffio

Piety, Politics, and Power David D. Grafton,2009-03-16 From the time of Martin Luther s writing of On War Against the Turk in 1529 to American Lutheran military chaplains serving in the U S led invasion of Iraq in 2003 Lutheranism has had a symbiotic relationship with Islam in the Middle East framed across cultural and religious borders There have been those who have crossed these borders to engage in mission and dialogue In Piety Politics and Power

David Grafton examines the origins of the American Lutheran missionary movement in the Middle East with a focus on its encounter with Muslims and the varied Lutheran theological responses toward Islam. The narrative is placed within historical contexts to provide an overarching background of Middle Eastern history and Christian Muslim Relations. The survey covers Lutheran missionary communities in Persia, Iraq, Egypt, Lebanon, and Jerusalem and the West Bank, including the work of the Lutherans working for the American Board of Commissioners for Foreign Missions, the Anglican Church Missionary Society, the Lutheran Orient Mission, the Lutheran Church Missouri Synod, and the Evangelical Lutheran Church in America. Whether enthusiastic Pietists seeking the conversion of Muslims and Jews, cautious theologians in dialogue with Islam, Judaism, or Oriental Orthodoxy, or social activists working on behalf of refugees in Egypt and the West Bank, Grafton argues that these Christian missionaries were all enmeshed in the politics of the communities in which they lived and either contributed to or suffered from the realities of Middle Eastern and international politics. Given the current reality of Pax Americana in the Middle East, the author asks the driving question about the role of American Lutheran missions and Lutheran Middle Eastern Muslim dialogue in the age of American power in the Middle East.

Jerusalem 1913 Amy Dockser Marcus, 2008-03-25. A Pulitzer Prize-winning reporter examines the true history of the discord between Israel and Palestine with surprising results. Though the origins of the Arab-Israeli conflict have traditionally been traced to the British Mandate, 1920-1948, that ended with the creation of the Israeli state, a new generation of scholars has taken the investigation further back to the Ottoman period. The first popular account of this key era, *Jerusalem 1913* shows us a cosmopolitan city whose religious tolerance crumbled before the onset of Zionism and its corresponding nationalism on both sides, a conflict that could have been resolved were it not for the onset of World War I. With extraordinary skill, Amy Dockser Marcus rewrites the story of one of the world's most indelible divides.

Personal States Catherine Alexander, 2002 Catherine Alexander charts how Turkish people both within and outside the

state bureaucracy attempt to personalise the impersonality of the state Based on a detailed study of the nationalized Turkish Sugar Corporation she considers how people from the highest levels of the state bureaucracy to farming villages understand the state and how in turn they imagine themselves to be perceived The narratives and metaphors used in these constructions draw on resources close to hand such as the material organization of state factory compounds state personnel encountered in the course of everyday life and the image of the family structure By also exploring notions of state and personhood within the highest echelons of the administration itself Alexander shows how ideas of the state recede once one is actually within For officials the state becomes other institutions and Ministries with which they have little contact The continual process of striving to make connections with other groups and people occurs both at all hierarchical levels of the Sugar Corporation and between farmers and factory engineers This elegant nuanced ethnography of modernity will cause scholars of state institutions across a broad range of disciplines radically to rethink what the state actually is and the relations that create it thus taking understandings of the state to an entirely new level *The Statesman's Yearbook 2002* B. Turner, 2016-12-29

For the last 138 years The Statesman s Yearbook has been relied upon to provide accurate and comprehensive information on the current political economic and social status of every country in the world The appointment of the new editor only the seventh in 138 years brought enhancements to the 1998 99 edition and these have been continued since then Internet usage figures are included Specially commissioned essays from major political and academic figures supplement country entries in areas of major upheaval and change A fold out colour section provides a political world map and flags for the 191 countries of the world The task of monitoring the pattern or flow of world change is never ending However the annual publication of The Statesman s Yearbook gives all the information needed in one easily digestible single volume It will save hours of research and cross referencing between different sources A prestigious and popular book The Statesman s Yearbook is updated every 12 months In a world of continual change The Statesman s Yearbook is a necessary annual purchase **The Rise of Political Islam in Turkey** Kayhan Delibas, 2014-12-19 Turkey officially a secular state voted in an Islamist party in 2002 2007 and 2011 How far does this reflect the trend which has seen the rise of political Islam across the Middle East Does this indicate a growing tendency in the direction of Islamisation amongst the Turkish population If not what are the underlying reasons behind the electoral triumphs of the Islamist Justice and Development Party the AKP Kayhan Delibas seeks to answer these questions through an in depth examination of the appeal of this political party exploring its ideology the routes and motives which produce party activists and local party organisations Concluding that the AKP s success has been built on its criticism of growing inequalities widespread corruption unemployment poverty and lack of basic services Delibas draws a nuanced portrait of modern Turkish society and the relationship between religion and politics Delibas offers an explanation based on research carried out amongst grassroots activists for the rise of Islamic fundamentalism in Turkey Islamic movements are often described as anti modernist thought to be supported by fundamentalist groups living in a bygone age

isolated from the rest of the modern world In recent years particularly since the events of 9 11 such movements have also been seen as a threat to the Western way of life But Delibas argues that these movements and particularly those in Turkey did not arise out of religious fervour or hatred of Western civilisation as is often claimed Rather they were founded and have thrived as a response to socio economic and political conditions that have been aggravated by neoliberal economic policies rapid urbanisation and the globalization of culture By exploring the structural conditions in which an Islamic movement emerged and become popular in a seemingly secular state The Rise of Political Islam in Turkey offers vital analysis for all those researching modern Turkey and the growth of Islamist politics throughout the Middle East and North Africa
