Understanding Early Civilizations Bruce G. Trigger,2003-05-05 This book offers the first detailed comparative study of the seven best documented early civilizations ancient Egypt and Mesopotamia Shang China the Aztecs and adjacent peoples in the Valley of Mexico the Classic Maya the Inka and the Yoruba Unlike previous studies equal attention is paid to similarities and differences in their sociopolitical organization economic systems religion and culture Many of this study s findings are surprising and provocative Agricultural systems technologies and economic behaviour turn out to have been far more diverse than was expected These findings and many others challenge not only current understandings of early civilizations but also the theoretical foundations of modern archaeology and anthropology The key to understanding early civilizations lies not in their historical connections but in what they can tell us about similarities and differences in human behaviour

Fourth World Gordon Brotherston,1995-11-24 The Book of the Fourth World offers detailed analyses of texts that range far back into the centuries of civilised life from what is now Latin and Anglo America At the time of its discovery the American continent was identified as the Fourth World of our planet In the course of just a few centuries its original inhabitants though settled there for millennia and countable in many millions have come to be perceived as a marginal if not entirely dispensable factor in the continent s destiny Today the term has been taken up again by its native peoples to describe their own world both its threatened present condition and its political history which stretches back thousands of years before Columbus In order to explore the literature of this world Brotherston uses primary sources that have traditionally been ignored because they have not conformed to Western definitions of oral and written literature such as the scrolls of the Algonkin the knotted strings Quipus of the Inca Navajo dry paintings and the encyclopedic pages of Meso America s screenfold books **What**

Nakamura,2025-10-31 Legacies of Incarceration provides a holistic view of the incarceration experience of Hawai i s Japanese by exploring the factors that shaped the circumstances of confinement on each island before during and after World War II This book examines residents experiences on Hawai i Island Maui Moloka i L na i Kaua i and O ahu expanding beyond an O ahu centric urban focus to highlight the community impact of incarceration It addresses the specific conditions and challenges inmates encountered on each island before they were released transferred to O ahu and sent either to Honouliuli

or incarceration centers on the American continent. Notably, the prewar influence of the United States military and the plantations shaped the evolution of the distinctive and inconsistent incarceration policies across the islands, resulting in a diversity of inmate experiences. The author's archival research in both English and Japanese reveals these varied perspectives and includes sources such as inmate oral histories, diaries, newspaper interviews, songs, and poetry found in Hawai'i, California, Washington D.C., Maryland, and Hiroshima, Japan. With the conclusion of the war, authorities lifted military regulations and released the remaining prisoners. However, the impact of war and incarceration continued to reverberate throughout Hawai'i. The chronology ends with the economic, political, and social ascension of the Nisei in the mid 1900s during the Democratic Revolution, detailing the divergent fates of celebrated Nisei veterans and the devastated former inmates. It also invites further research and critique of the outsized impact residents of Japanese ethnicity in Hawai'i continue to wield. As its title suggests, this book ultimately documents the enduring legacies of war that still deeply resonate in various communities within the Islands and beyond, illuminating the impacts of wartime racism.
