transformation and movement where diaphanous flowing shapes contrast with opaque forms and sharp edges an approach to formal invention that is complemented by a mania for new and often exotic materials Timed to coincide with the first comprehensive show of the designer's work taking place at the Palais Galliera in Paris in summer 2025 the scope and breadth of this exhibition promises to be a treat to both longtime fans and the uninitiated Owens will reimagine the grand nineteenth century palace housing the museum with temporary installations that will serve as vitrines to his many creations In effect dividing the book between the conception of showcases and the precious objects that they display within the curatorial essays bookending this visual narrative will attempt to describe the multidisciplinary even architectural approach Owens has to his creations
