Ireland Murray G. H. Pittock, 2006-11-02 The project of this book is to question and rewrite assumptions about the nature of the Augustan era through an exploration of Jacobite ideology Taking as its starting point the fundamental ambivalence of the Augustan concept the author studies canonical and non canonical literature and uncovers a new four nations literary history of the period defined in terms of struggle for control of the language of authority between Jacobite and Hanoverian writers This struggle is seen to have crystallized Irish and Scottish opposition to the British state The Jacobite cause generated powerful popular literature and the sources explored include ballads broadsides and writing in Scots Irish Welsh and Gaelic The author concludes that the literary history we inherit is built on the political outcome of the Revolution of 1688 Essays on David Hume, Medical Men and the Scottish Enlightenment Roger L. Emerson, 2016-05-13 The Scottish Enlightenment was a period of intellectual and scientific progress in a country previously considered to be marginal to the European intellectual scene Yet the enlightenment was not about politeness or civic humanism but something more basic the making of an improved society which could compete in every way in a rapidly changing world David Hume writing in 1752 commented that industry knowledge and humanity are linked together by an indissoluble chain Collectively this volume of essays embraces many of the topics which Hume included under industry knowledge and humanity from the European Enlightenment and the Scots relation to it to Scottish social history and its relation to religion science and medicine Overarching themes of what it meant to be enlightened in the eighteenth century are considered alongside more specific studies of notable figures of the period such as Archibald Campbell 3rd Duke of Argyll and David Hume and the training and number of Scottish medical students Together the volume provides an opportunity to step back and reconsider the Scottish Enlightenment in its broader

Beside the Bard George S. Christian, 2020-03-13

Beside the Bard argues that Scottish poetry in the age of Burns reclaims not a single past dominated and overwritten by the unitary national language of an elite ruling class but a past that conceptualizes the Scottish nation in terms of local self identification linguistic multiplicity cultural and religious difference and transnational political and cultural affiliations This fluid conception of the nation may accommodate a post Union British self identification but it also recognizes the instrumental and historically contingent nature of Britishness Whether male or female loyalist or radical literati or autodidacts poets such as Alexander Wilson Carolina Olyphant Robert Tannahill and John Lapraik among others adamantly refuse to imagine a single nation British or otherwise instead preferring an open polyvocal field on which they can stage new national and personal formations and fight new revolutions In this sense Scotland is a revolutionary category always subject to creative destruction and reformation Published by Bucknell University Press Distributed worldwide by Rutgers University Press

The Invention of Scotland (Routledge Revivals) Murray G. H. Pittock, 2014-07-17 A dynasty of high ability and great charm the Stuarts exerted a compelling fascination over their supporters and enemies alike First published in 1991 this title assesses the influence of the Stuart mystique on the modern political and cultural identity of Scotland Murray Pittock traces the Stuart myth from the days of Charles I to the modern Scottish National Party and discusses both pro and anti Union propaganda He provides a unique insight into the radicalism of Scottish Jacobitism contrasting this Jacobitism of the Left with the sentimental image constructed by the Victorians Dealing with a subject of great relevance to modern British society this reissue provides an extensive analysis of Scottish nationhood the Stuart cult and Jacobite ideology It will be of great interest to students of literature history and Scottish culture and politics

The Poetry of the Scots Duncan Glen, 1991 A unique bibliographical guide and a comprehensive introduction to Scottish poetry from the very earliest times to the present day It gives a chronological listing of the standard editions of all the major and many of the minor Scottish poets supplemented by Glen's informative and energetic commentaries

James Hogg Valentina Bold, 2007 This book sheds new light on James Hogg the Scottish poet 1770-1835 going beyond the Ettrick Shepherd stereotype By focussing on Hogg's poetry Scottish Pastorals The Queen's Wake Jacobite Relics Queen Hynde Pilgrims of the Sun it shows that his work and the critical response to it was significantly shaped by the concept of the autodidact a working class writer who was considered to be a poet of Nature's Making The image of the autodidact is pursued from its beginnings Ramsay's Gentle Shepherd Macpherson's Ossian Burns as ploughman poet through its

development in the nineteenth century to its last gasps in the twentieth Poets considered include Isobel Pagan Janet Little William Tennant Allan Cunningham Robert Tannahill Janet Hamilton Ellen Johnston Elizabeth Hartley Alexander Anderson David Gray David Wingate and James Young Geddes Despite facing difficulties autodidacts produced some of the most innovative and exciting poetry of the nineteenth century The author argues that the autodidactic tradition exemplified by Hogg nurtured the creative vigour manifested in twentieth century Scottish poetry While Scotland's autodidacts shared poetic concerns and techniques they were characterised above all by diversity of poetic voice The Restoration and 18th-century, 1985 **The Eighteenth Century**, 1979 **Society and the Lyric** Thomas Crawford, 1979 This work is meant as a contribution both to Burns Studies and to the definition of Scottish culture in eighteenth century Preface *The Facts on File Companion to British Poetry* Virginia Brackett, 2008 Presents a comprehensive A to Z reference with approximately 400 entries providing facts about British poets and their poetry from the seventeenth and eighteenth centuries **Poetry** Harriet Monroe, 1977 *Scottish Lifestyle 300 Years Ago* Helen M. Kelsall, Roger Keith Kelsall, 1993 *The Journal of Commonwealth Literature*, 1982 One number each year includes Annual bibliography of Commonwealth literature **Bibliography of Scotland**, 1976 Improvement and Romance Peter Womack, 1989-06-18 An attempt to trace the origins of the romantic image of the Highlands by examining the economic military and ideological circumstances of the region's subjugation by the British state It combines literary criticism and cultural history to produce a case study of the making of the myth
