Healing Insanity: a Study of Igbo Medicine in Contemporary Nigeria Patrick E. Iroegbu, 2010-06-08

Healing Insanity A Study of Igbo Medicine in Contemporary Nigeria is an original and in depth study on endogenous medical system in an African society It is craftily written and provides solid insight through case studies and theory into how insanity affects patients and the society Particularly it explores various collective representations and strategies regarding insanity and healing as it examines the healing institutions healers and ritual cults The central question is given the patterns of healing how do the Igbo shape the incidence and symptoms of insanity define its aetiology and provide healers with culture specific resources and skills to address this illness The focus became increasingly centred on bodily semantics and endogenous knowledge systems and practices

Dr Patrick Iroegbu's work is a very valuable and rare study and has appeared at a desirable time It is for an African society a comprehensive study of the many ways Igbo people in their practical routinelike attitudes and body centred experiences as well as in their more reflective aetiologic knowledge and healing institutions relate to the phenomenon of insanity or *ara* in the cultural parlance
