Love Hope Recovery:

Love, Hope & Recovery Joann E. Breeden, 1993-11-01 A former alcoholic describes her treatment and recovery offers encouragement to addicts to seek help and discusses rebuilding relationships and finding inner peace *Reconnected* Janine Stirling, 2019-04 Fragmented memories flashbacks emotional reactivity and somatic complaints are common features in the lives of trauma survivors These symptoms often leave one feeling disconnected and alone Sexual assault trauma leaves scars that frequently go unseen by the general public The effects however are lasting for the survivor and frequently impact a person's ability to engage fully in life and to navigate intimate relationships with ease Recovery from such experiences is challenging I sought treatment for two decades before stumbling upon a treatment approach that worked pelvic floor physiotherapy In my experience it was through this unconventional treatment approach that I was able to completely resolve all the post traumatic stress disorder symptoms I had lived with for decades This book is unique in that it details the ingredients that went into enabling my recovery In my experience it was a combination of the physiotherapist's person centred skills together with the muscle release approach we adopted that enabled success *Reconnected* offers hope to survivors It is written as a mix of a personal story combined with the many therapeutic approaches I tried prior to discovering the physiotherapy approach that worked The neuroscience explaining how and why trauma can be treated through the body already exists This research has been incorporated in the book to explain the success of the approach described This makes it appealing to academics healthcare professionals and people with experiences similar to my own To my knowledge very few people recover completely from the effects of complex trauma It is exciting to find a treatment approach that not only works but is a first of its kind in treating trauma of this nature in this way **Loving Through**
