Hearts of Ashes - Philosophical and love poems Sorin Cerin, Sorin Cerin s poetry contributes through each new verse through each new poem or collection to the construction of such an autarchic Autarky spiritual system Therefore the poet s terminology has a precise intrinsic logic when he says that any Cathedral of the Absurd is built with matter taken from death when he writes about the Subconscious Stranger or the Frozen Words floating around us like thorns of ice the meaning of these phrases must be sought within the mythographic system created by the poet and not interpreted by extrapolation Let us try therefore to decrypt the symbolic and narrative structure of this myth in order to understand its meaning The universe that the poet evokes in his verses is one of the endings of cosmic cycle being therefore one of eschatological origin There are in it cemeteries of words ruined cathedrals cluttered dawns which crumble or broken windows of Heaven in which it rains with sharp shards of moments We will not find anywhere in the perimeter of this universe which seems inspired by the ruins suspended in ether of the Giovanni Battista Piranesi no space of compensation or refuge the ruin and the dispersion being ubiquitous Stefan Borbely
