Lover Thief:

Law and Love in Ovid Ioannis Ziogas, 2021-01-28 In classical scholarship the presence of legal language in love poetry is commonly interpreted as absurd and incongruous Ovid's legalisms have been described as frivolous humorous and ornamental Law and Love in Ovid challenges this wide spread but ill informed view Legal discourse in Latin love poetry is not incidental but fundamental Inspired by recent work in the interdisciplinary field of law and literature Ioannis Ziogas argues that the Roman elegiac poets point to love as the site of law's emergence The Latin elegiac poets may say make love not law but in order to make love they have to make law Drawing on Agamben Foucault and Butler Law and Love in Ovid explores the juridico discursive nature of Ovid's love poetry constructions of sovereignty imperialism authority biopolitics and the ways in which poetic diction has the force of law The book is methodologically ambitious combining legal theory with historically informed close readings of numerous primary sources Ziogas aims to restore Ovid to his rightful position in the history of legal humanism The Roman poet draws on a long tradition that goes back to Hesiod and Solon in which poetic justice is pitted against corrupt rulers Ovid's amatory jurisprudence is examined vis vis Paul's letter to the Romans The juridical nature of Ovid's poetry lies at the heart of his reception in the Middle Ages from Boccaccio's Decameron to Forcadell's Cupido iuris peritus The current trend to simultaneously study and marginalize legal discourse in Ovid is a modern construction that Law and Love in Ovid aims to demolish

Lowthorp,2020-05-21 The Indian Subcontinent has been at the centre of folklore inquiry since the 19th century yet while much attention was paid to India by early scholars folkloristic interest in the region waned over time until it virtually disappeared from the research agendas of scholars working in the discipline of folklore and folklife This fortunately changed in the 1980s when a newly energized group of younger scholars who were interested in a variety of new approaches that went beyond the textual interface returned to folklore as an untapped resource in South Asian Studies This comprehensive volume further reinvigorates the field by providing fresh studies and new models both for studying the lore and the life of everyday people in the region as well as their engagement with the world at large By bringing Muslims material culture diasporic horizons global interventions and politics to bear on South Asian folklore studies the authors hope to stimulate more dialogue across theoretical and geographical borders to infuse the study of the Indian Subcontinent's cultural traditions with a new sense of relevance that will be of interest not only to areal specialists but also to folklorists and anthropologists in general This book was originally published as a special issue of South Asian History and Culture
