Magic Of Experience 1915:

The Location of Experience Adela Pinch, 2024-10-15 We tend to feel that works of fiction give us special access to lived experience But how do novels cultivate that feeling Where exactly does experience reside The Location of Experience argues that paradoxically novels create experience for us not by bringing reality up close but by engineering environments in which we feel constrained from acting By excavating the history of the rise of experience as an important category of Victorian intellectual life this book reveals how experience was surprisingly tied to emotions of remorse and regret for some of the era's great women novelists the Brontës George Eliot Margaret Oliphant and Elizabeth Gaskell It shows how these writers passed ideas about experience and experiences themselves among each other Drawing on intellectual history psychology and moral philosophy The Location of Experience shows that through manipulating the psychological dimensions of fiction's formal features Victorian women novelists produced a philosophical account of experience that rivaled and complemented that of the male philosophers of the period

Rivers,2013-01-11 One of the most fascinating men of his generation W H R Rivers was a British doctor and psychiatrist as well as a leading ethnologist Immortalized as the hero of Pat Barker s award winning Regeneration trilogy Rivers was the clinician who in the First World War cared for the poet Siegfried Sassoon and other infantry officers injured on the western front His researches into the borders of psychiatry medicine and religion made him a prominent member of the British intelligentsia of the time a friend of H G Wells George Bernard Shaw and Bertrand Russell Part of his appeal lay in an extraordinary intellect mixed with a very real interest in his fellow man Medicine Magic and Religion is a prime example of this A social institution it is one of Rivers finest works In it Rivers introduced the then revolutionary idea that indigenous practices are indeed rational when viewed in terms of religious beliefs *Making Marriage Modern* Christina Simmons,2009-04-10 The nineteenth century middle class ideal of the married woman was of a chaste and diligent wife focused on being a loving mother with few needs or rights of her own The modern woman by contrast was partner to a new model of marriage one in which she and her husband formed a relationship based on greater sexual and psychological equality In *Making Marriage Modern* Christina Simmons narrates the development of this new companionate marriage ideal which took hold in the early twentieth century and prevailed in American society by the 1940s The first challenges to public reticence to discuss sexual relations between husbands and wives came from social hygiene reformers who advocated for a scientific but conservative sex education to combat prostitution and venereal disease A more radical group of feminists anarchists and bohemians opposed the Victorian model of marriage and even the institution of marriage Birth control advocates such as Emma Goldman and Margaret Sanger openly championed women s rights to acquire and use effective contraception The companionate marriage emerged from these efforts This marital ideal was characterized by greater emotional and sexuality intimacy for both men and women use of birth control to create smaller families and destigmatization of divorce in cases of failed unions Simmons examines what she calls the flapper marriage in which free spirited young wives enjoyed the early years of marriage postponing children and domesticity She looks at the feminist marriage in which women imagined greater equality between the sexes in domestic and paid work and sex And she explores the African American partnership marriage which often included wives employment and drew more heavily on the involvement of the community and extended family Finally she traces how these modern ideals of marriage were promoted in sexual advice literature and marriage manuals of the period Though male dominance persisted in companionate marriages Christina Simmons shows how they called for greater independence and satisfaction for women and a new female heterosexuality By raising women s expectations of marriage the companionate ideal also contained within it the seeds of second wave feminists demands for transforming the institution into one of true equality between the sexes **Book**
