published each year down to two hundred notable titles the editors have provided the busy librarian with an excellent reader's advisory tool and patrons with fodder for book discussion groups and a guide for selection. The essay reviews in the Annual also provide a more academic reference review of a work than is typically found in newspapers and other periodical sources. This year's works are drawn from such categories as anthropology autobiography biography current affairs diaries economics environment essays history language literary criticism medicine memoirs nature philosophy poetry psychology religion science short fiction sociology technology travel and women's issues. The articles are arranged alphabetically by book title. A complete list of included titles can be found at the beginning of volume 1. Each 2 000 word article begins with a block of top matter that indicates the title author publisher and price of the work. When possible the year of the author's birth is also provided. The top matter also includes the number of pages of the book the type of work and when appropriate the time period and locale represented in the text. Next comes a capsule description of the work. When pertinent a list of principal characters or personages with brief descriptions introduces the review. These original essay reviews analyze intent and relative success of the author and the work under discussion. To assist the reader further the articles are supplemented by a list of additional reviews for further study. Every essay includes a brief biography of the author or authors and thumbnail photographs of the book covers and authors are included as available. At the end of volume 2 are four cumulative indexes listing works covered from the years 1977 to 2003: an index of Biographical Works by Subject a Category Index a Title Index and an Author Index. The index of Biographical Works by Subject is arranged by subject rather than by author or title.
