Dubrov,2013-11-11 I am very pleased that my book The Geomagnetic Field and Life is being published in English in the United States Thanks to the initiative of Plenum Press a publishing house that is widely known in all countries I have a great new opportunity to make direct contact with friends throughout the world My book on the geomagnetic field can be regarded as an abstraction whose purpose is to provide a better picture and understanding of the world around us its main driving forces and factors to help us to know ourselves and to proceed further The essence of the abstraction is that in treating the problem I have deliberately ignored the diverse effects of various external factors on living organisms and have confined myself to an analysis of the effect of the GMF This approach allows me to go one step further to draw various conclusions and propose theories that might bring us closer to a proper understanding of the true nature of the phenomena Philosophers have long been aware that by such abstract thinking we can determine the nature of phenomena more reliably completely and comprehensively penetrate to the very core of the observed effects and perceive the depth of their interrelations The Volks Garten Don Elwood,2013-07-16 The Mayan God Kings had been blessing the crops of Maya with Reiki prayers when the white brothers from Europe arrived It was decided to keep the details of Reiki Prayers a secret from the white brothers until the Age of Pisces was over They etched secrets of the Reiki Prayer process onto coded glyphs on an animal skin called the Dresden Codex See the illustration from the Dresden Codex on the back cover of a Mayan God King praying for their crops They predicted that the secrets would again be deciphered by December 12 2012 Man is the only triune being in the animal kingdom He consists of a conscious self the only self that communicates in languages a subconscious self which communicates by emotions and a HIGH SELF or the Father above All three are involved in a Reiki MANNA prayer task The conscious self must first describe the prayer in terms the subconscious self relates to He then imagines he is standing in water MANNA is interpreted by the subconscious self as a prayer substance i e like WATER that can flow up thru a tube The conscious self notifies his subconscious self to accumulate manna through breathing cycles send it up the Aka cord i e in the back up to the HIGH SELF above and ask the HIGH SELF to accumulate MANNA MANNA LOA and request God to rain down the prayer results to the earth below The lower right symbolizes a man reincarnated during the Age of Aquarius standing in water with his back to us i e symbolizing the AKA cord up his back using both HANDS for praying to obtain heavenly responses i e stars in the water from the jug as it flows down to the earth below According to the book Knocking At The Gate

it is the Age when Man can ascend into Heaven WHILE STILL ALIVE as Jesus suggested Extra terrestrials will help evacuate people to other planets before God makes necessary changes to the earth and after the Earth changes have been made return them And if you are still here do as the Christian Bible says RUN dont walk to the mountains and grow a garden in your back yard

Advances in Electromagnetic Fields in Living Systems James C. Lin, 2006-05-28 In spite of the remarkable progress that has been made against cancer the battle is far from over It is estimated that there are 175 000 new female breast cancer cases annually and 40 000 deaths resulting from it in the U S In fact breast cancer incidence rates have shown little change in the 1990s while breast cancer death rates have been declining about 2 percent per year since 1990 Ries et al 1999 Modern mammography is relied upon most often for breast cancer screening Mammograms can detect most breast cancers but they miss some Its accuracy and sensitivity are age and breast density dependent For example the false negative rate is about 25% for women under age 50 with invasive breast cancer Kerlikowske et al 1996 1997 It reduces to 10% for women more than 50 years of age Although the amount of radiation exposure during mammography is minimal about the same as receiving a dental x ray the radiation from mammograms can cause additional breast cancer deaths Feig 1996 NIH 1997 It has been estimated that if 10 000 women have yearly mammograms for ten years the radiation from mammograms will cause one additional breast cancer death Because the absolute benefit of screening women aged 40 to 49 years is small and there is concern that the harm may be substantial there have been suggestions that these women should be informed about the potential benefits and risks of screening mammography Kerlikowske 1997
