Mai The Multilateral Agreement On Investment And The Threat To Canadian Sovereignty:

MAI Tony Clarke,1997 **Multinational Enterprises and the Law** Peter T. Muchlinski,2007-07-12 Multinational Enterprises and the Law presents the only comprehensive contemporary and interdisciplinary account of the various techniques used to regulate multinational enterprises MNEs at the national regional and multilateral levels In addition it considers the effects of corporate self regulation upon the development of the legal order in this area Split into four parts the book firstly deals with the conceptual basis for MNE regulation explaining the growth of MNEs their business and legal forms the relationship between them and the effects of a globalising economy and society upon the evolution of regulatory agendas in the field Part II covers the main areas of economic regulation including the limits of national and regional jurisdiction over MNE activities controls and liberalization of entry and establishment tax and company and competition law Part III introduces the social dimension of MNE regulation covering labour rights human rights and environmental issues and Part IV deals with the contribution of international law and organizations to MNE regulation and to the control of investment risks covering the main provisions found in international investment agreements and their recent interpretation by international tribunals *The Regulation of International Trade* Robert Howse,Antonia Eliason,2005-08-08 The Regulation of International Trade 2nd Edition introduces the rules and institutions that govern international trade The authors base their analysis on aspects of the subject from classic and contemporary literature on trade and political economy This new edition has been fully updated to take account of the most recent developments in International Trade New issues covered include trade and competition trade and labour rights the Multilateral Agreement on Investment the Basic Telecoms and Financial Services WTO Agreements an analysis of the first three years of WTO dispute rulings including those of Appellate Body Drawing on the success of the earlier edition this comprehensive and up to date text will be an invaluable guide to students of economics law politics and international relations *The Oxford Handbook of International Investment Law* Peter Muchlinski,Federico Ortino,Christoph Schreuer,2008 The Oxford Handbook series is a major new initiative in academic publishing Each volume offers an authoritative and state of the art survey of current thinking and research in a particular subject area Specially commissioned essays from leading international figures in the discipline give critical examinations of the progress and direction of debates Oxford Handbooks provide scholars and graduate students with compelling new perspectives upon a wide range of subjects in the humanities and social sciences The Oxford Handbook of International Investment Law aims to provide the first truly exhaustive account of the current state and future development of this important and topical field of international law The Handbook is divided into three main parts Part One deals with fundamental conceptual issues Part Two deals with the main substantive areas of law and Part Three deals with the major procedural issues arising out of the settlement of international investment disputes The book has a policy oriented introduction setting the more technical chapters that follow in their policy environment within which contemporary norms for

international foreign investment law are evolving The Handbook concludes with a chapter written by the editors to highlight the major conclusions of the collection to identify trends in the existing law and to look forward to the future development of this field *Development and Social Change* Philip McMichael, Heloise Weber, 2020-12-15 *Development and Social Change A Global Perspective* describes the dramatic acceleration of the global and political economy in four parts colonialism the development era the current era of globalization and global counter movements for equity and sustainability **Sustaining Global Growth and Development** Michele Fratianni, Paolo Savona, 2016-04-01 *Sustaining Global Growth and Development* focuses on the new challenges for sustaining growth in the twenty first century and the role of the G7 and IMF in meeting these challenges amidst the new processes of regionalism now emerging The volume has three central purposes to assess how and how well the G7 has addressed its core 2002 agenda of sustaining global growth reducing poverty in Africa and combating terrorism and its financing to examine how the IMF has approached these issues and related work of the G7 to explore how the G7 IMF and other international institutions are addressing global growth and development challenges in the context of the new processes of regionalism Pressures such as currency consolidation in Asia and economic union in Africa are studied This book builds on previous volumes in the series with a heavy focus on the World Bank the regional development banks and the many other international institutions that work in the field of development **Handbook of Policy Transfer, Diffusion and Circulation** Osmany Porto de Oliveira, 2021-03-26 This important Handbook brings together preeminent international scholars sharing their comparative and international perspectives on the topic Their original contributions cover the key issues and questions around policy transfer diffusion and circulation research Altogether chapters illuminate how rich and provocative the current debate on the interpretation of how public policies travels is and the vibrancy of the area s research within the broad planet of public policy analysis Reclaiming the Future Jane Kelsey, 2015-12-21 Jane Kelsey s exploration of the effects of globalisation on the New Zealand economy was eye opening when published in 1999 She offered a trenchantly expressed response to the neoliberal slogan of the time There is no alternative Kelsey s analysis remains a critical yardstick for current policies and an alternative perspective on the development of global relationships The recent global financial meltdown and subsequent recession give new relevance to her questions about globalisation s consequences for sovereignty and democracy Kelsey continues to offer a bold voice of challenge and critique pointing the way for open eyed engagement with the economic realities of the future *Critical Political Studies* Colin Leys, 2002 A collective picture of modern capitalism suggests that economic prospects political costs and implications for human development and freedom under this system are grim indeed However the possibility of an alternative viewpoint and an alternative system provide grounds for optimism The authors in *Critical Political Studies* challenge the neo liberal pro market ideology that has arisen in the age of the so called post communist new world order wrestling with the implications of globalization democratization and the politics of radical social change Written as a tribute

to the remarkable intellectual career of Colin Leys the debates in this book deal with some of the most pressing problems confronting the majority of citizens in both first world and third world contexts Their contributions provide the confidence to pursue new possibilities that permit a more optimistic if critical outlook Topics covered include contemporary debates about globalization and the nation state African development prospects for British socialism after Blair social movements and current issues in political and social theory Contributors include Laurie Adkin University of Alberta Abigail Bakan Bruce Berman Queen s University Manfred Bienefeld Carleton University Alex Callinicos University of York UK Bonnie Campbell University of Quebec at Montreal Michael Chege University of Florida Radhika Desai University of Victoria Lauren Dobell PhD candidate Oxford University Phil Goldman Queen s University Banu Helvacioğlu Bilkent University Turkey Robert Jessop University of Lancaster UK Colin Leys emeritus Queen s University Eleanor MacDonald Marguerite Mendell Concordia University Leo Panitch York University Anne Phillips London School of Economics and Political Science and John Saul Atkinson College York University

Concepts and Theories of Modern Democracy Anthony H. Birch, 2002-01-04 The first aim of this text book is to define and examine the principle concepts that are employed when people write or argue about modern democratic politics to discuss the implications of using the concepts in this way or that and to examine the normative theories associated with the concepts A second purpose is to summarise methods of analysis used by political scientists and to discuss the controversies that have arisen about these methods with particular reference to attempts to create a science of politics

A People's Dream Dan Russell, 2011-11-01 In this provocative and passionate book Dan Russell outlines the history of Aboriginal self government in Canada He compares it to that of the United States where for over 150 years tribes have practised self government domestic dependent nationhood Russell provides specific examples of how those institutions of government operate and eloquently explains from an Aboriginal perspective what his people hope to achieve through self governing authority After describing rights theory Russell locates Aboriginal self government as a cultural right and illustrates how the entitlements of Aboriginal women an Aboriginal ethic and collective rights which are protected by self governance may conflict with the Canadian Charter of Rights A People s Dream is a persuasive examination of how treaty making in Canada in particular the 1998 Nisga a Treaty has been used as a tool for achieving self government but why this approach should be avoided As well Russell examines recommendations by the Royal Commission on Aboriginal Peoples and provides an enlightening comparison of those recommendations with the terms of the 1992 Charlottetown Accord

Globalisation, Trade Liberalisation, and Higher Education in North America C.W. Barrow, S. Didou-Aupetit, J. Mallea, 2012-12-06 Since the mid 1970s economic and educational developments in Canada Mexico and the USA have been influenced by two parallel trends 1 the resurgence of global economic competition and 2 the active promotion of knowledge intensive service based economies Both trends have been reinforced by the liberalisation of international trade under the rubric of the General Agreement on Tariffs and Trade GATT and the World Trade Organisation WTO The North American

Free Trade Agreement NAFTA has accelerated these trends in all three countries by providing the framework for an integrated regional economy in North America designed to compete against comparable trading blocs centred in Japan and the European Union. The purpose of this study is to examine the developing relationship between trade liberalisation post industrialisation and higher education in Canada, Mexico and the USA. The larger trends and linkages that we identify are by no means confined to these three countries. We have chosen to focus on Canada, Mexico and the USA because the adoption of the North American Free Trade Agreement has accelerated the development of economic policies in these countries which identify higher education as a central component of each country's new competitiveness strategy. As a consequence, government policy makers and higher education decision makers are responding with targeted initiatives to promote the internationalisation of higher education generally and to promote trilateral co-operation among North American higher education institutions specifically.

Putting the State on Trial Margaret E. Beare, Nathalie Des Rosiers, Abigail C. Deshman, 2015-04-01. Canada is often lauded as a model democracy that values the constitutional rights of its citizens. So when over a thousand people, most of whom were peaceful protesters or hapless bystanders, were violently arrested and then detained without charge during the G20 Summit in Toronto in 2010, many Canadians felt shock and outrage. *Putting the State on Trial: The Policing of Protest during the G20 Summit* examines the political, social and economic conditions that allowed the policing of the summit to culminate in human and civil rights violations. Written by a multi-disciplinary group of scholars and legal practitioners, this book contextualizes events before, during and after the summit from a range of perspectives. Although the G20 protests serve as a point of departure in every chapter, the contributing authors engage with larger questions about the control of dissent, the impact of the securitization and internationalization of Canadian politics, the implications of legal uncertainty and the accountability vacuum.

Rethinking Church, State, and Modernity David Lyon, Marguerite Van Die, 2000-01-01. The contributors consider how Canada's religious experience is distinctive in the modern world, somewhere between the largely secularized Europe and the relatively religious United States.

After the Third World? Mark T. Berger, 2013-10-18. The emergence of the Third World is generally traced to the onset of the Cold War and decolonization in the 1940s and 1950s. In the 1960s and 1970s, the three worlds of development were central to the wider dynamics of the changing international order. By the 1980s, Third Worldism had peaked, entering a period of dramatic decline that paralleled the end of the Cold War. Into the 21st century, the idea of a Third World and even the pursuit of some form of Third Worldism has continued to be advocated and debated. For some, it has passed into history and may never have had as much substance as it was credited with; while others seek to retain or recuperate the Third World and give Third Worldism contemporary relevance. Beginning with a comprehensive introduction, this edited volume brings together a wide range of important contributions. Collectively, they offer a powerful overview from a variety of angles of the history and contemporary significance of Third Worldism in international affairs. The question remains: did the Third World exist? What was it? Does it still

have intellectual and political purchase or do we live in a global era that can be described as After the Third World This book was previously published as a special issue of Third world Quarterly **Alternatives to Economic Globalization** John Cavanagh and Jerry Mander, Mander Jerry, Cavanagh John, 2010-06 The definitive document of the anti corporate globalization movement the consensus report of an alliance of leading activists scholars economists researchers and writers Offers a constructive coherent positive alternative to globalization the very thing that the anti corporate globalization movement is always accused of not putting forward The International Forum on Globalization consists of the leaders of over 60 organizations in 25 countries including such prominent organizations as Friends of the Earth the Third World Network the Sierra Club the Institute for Policy Studies Public Citizen Rainforest Action Network and Food First Written by a premier group of 21 thinkers from around the world the second edition of Alternatives to Economic Globalization lays out democratic ecologically sound socially just alternatives to corporate globalization more fully specifically and thoughtfully than has ever been done before Focusing on constructive achievable goals the authors present ten governing principles for establishing truly sustainable societies and describe alternatives to the World Bank the IMF and the WTO that would better serve the needs of the planet They offer detailed proposals for protecting vital goods and services from corporate exploitation limiting corporate privileges and power rebuilding economies to make them more responsive to human needs and more This revised and expanded edition features a new opening chapter on the global balance of power a new section on the media and globalization and a new final chapter on what ordinary citizens can do to fight the injustices of globalization It also includes many new charts sidebars and other updated information From Naked Ape to Superspecies David Suzuki, Holly Dressel, 2009-07-01 For millennia we lived in harmony with the Earth taking only what we required to survive But in just the past few centuries we have used our powers to satisfy our obsession with consumption and new technology without regard for the consequences And in doing so we have exploited our surroundings on an unprecedented scale In this revised and updated edition of From Naked Ape to Superspecies David Suzuki and Holly Dressel lucidly describe how we have evolved beyond our needs trampling other species believing that we can make the Earth work the way we want it to And they introduce us to the people who are fighting back those who are resisting the inexorable advance of the global economy juggernaut the people whose voices are difficult to hear over the din of corporate public relations machines We learn about how human arrogance demonstrated by our disregard for the small and microscopic species that constitute the Earth s engine and our reckless use of technological inventions like powerful herbicides or genetically engineered crops is threatening the health of our children and the safety of our food supply *Frontiers of Governance* L. Pal, 2012-02-07 The first detailed analysis of the Organisation for Economic Co operation and Development s OECD influence on global public sector reform Based on extensive interviews and internal documents this book explores the evolution of the OECD s approach to governance issues over the last 50 years and what its future agenda should be *Alternatives to Economic Globalization*

International Forum on Globalization. Alternatives Task Force, 2002 Written by a premier group of thinkers from around the world this book is the defining document of the anti globalization movement and the culmination of a three year project by the International Forum on Globalization *Urban Movements in a Globalising World* Pierre Hamel, Henri Lustiger-Thaler, Margit Mayer, 2003-09-02 This collection deals with the transformation of urban movements in these new social economic and political environments
