between poetry and philosophy and signifies the movement between asymmetrical or heterogeneous forms of discourse that have both historically and speculatively borne the transfer of meaning from one semantic hermeneutic field to another The author focuses on the necessary risk and duplicity of criticism and develops nonagonistic models based on figuration and rhetorical dynamics In two other chapters the author steps back to reassess in terms of the diaphora the diverging notions of Postmodernity by the continental philosophers Lyotard and Vattimo The collection ends with an essay on the long overdue conversation between Vico and Heidegger
