Main Trends in History Geoffrey Barraclough, 1991 *Main Trends in History* Geoffrey Barraclough, 1978 **Main Trends in Cultural History** Willem Melching, Wyger Velema, 1994 Main Trends in History Main Trends of Research in the Social and Human Sciences Geoffrey Barraclough, 1979 Global History in China Xin Fan, 2024-06-30 This book explores global history as an emerging field of scholarly studies in China today Readers are invited to rethink the origin of global history in China and to examine its current state Chinese scholarship is rooted in a warm appreciation of globalization in the age of Opening up and Reform and presented as a trendy transnational intellectual movement at the opening of the twenty first century On the one hand global history claims an identity of the new eager to criticize the Eurocentric bias embedded in the narratives of the old ones from world history on the other hand as an emerging field it is yet to face competitions from national histories and area studies which are nurtured by latest state initiatives with outspoken political agendas As a whole global history captures Chinese scholars tenacious interest in studying globalization through the lens of history This book will interest historians China scholars and those trying to grasp the Chinese perspective on the world

Making History Peter Lambert, Phillipp Schofield, 2004-08-02 Making History offers a fresh perspective on the study of the past It is an exhaustive exploration of the practice of history historical traditions and the theories that surround them Discussing the development and growth of history as a discipline and of the profession of the historian the book encompasses a huge diversity of influences organized around the following themes the professionalization of the discipline the most significant movements in historical scholarship in the last century including the Annales School the increasing interdisciplinary trends in scholarship theory in historical practice including Marxism post modernism and gender history historical practice outside the academy The volume offers a coherent set of chapters to support undergraduates postgraduates and others interested in the historical processes that have shaped the discipline of history **A Global History of Modern Historiography** Georg G Iggers, Q. Edward Wang, Supriya Mukherjee, 2013-09-13 So far histories of historiography have concentrated almost exclusively on the West This is the first book to offer a history of modern historiography from a global perspective Tracing the transformation of historical writings over the past two and half centuries the book portrays the transformation of historical writings under the effect of professionalization which served as a model not only for Western but also for much of non Western historical studies At the same time it critically examines the reactions in post modern and post colonial thought to established conceptions of scientific historiography A main theme of the book is how historians in the non Western world not only adopted or adapted Western ideas but also explored different approaches rooted in their own cultures **Marxism and Historiography** Paolo Favilli, 2021-10-22 Eminent Italian historian Giovanni Levi once notably remarked that no one is a Marxist anymore pointing to a paradox in Italian cultural history While what is called Marxism was supposedly hegemonic over Italian culture and especially history writing for

decades in the postwar period it then seems to have suddenly disappeared This study questions such a vision of a monolithic and hegemonic Marxism It starts from the most effective anecdote to all ideologising narratives that is research into the texts themselves It sees the Marxist historiography of the post 1945 period as a history in the making in which references to Marxian theory were a fundamental factor driving historiographical innovation This allows the book to bring to light a highly original experience in the development of historiography based on the long Italian tradition of reflection on historical knowledge

Methodology and Method in History (RLE Accounting) Lee D. Parker, Finley O. Graves, 2013-12-04 This bibliography

provides the reader with a comprehensive reference tool that will enhance understanding of methodological issues and enable the user to employ research methods appropriate to their subject of study. It also provides accounting historians a comprehensive data base for the development of papers addressing methodological issues in an accounting history context. Access to this type of resource is particularly crucial to the development of accounting history research since the number of papers dealing with methodological issues published in accounting history literature is very small. Hence the references in this bibliography are drawn from the literature of general history, economic and business history, legal and social history and philosophy. The scope and range of its contents are broad; references are taken from texts as well as papers published in over 450 journals.
