*The Midas Deep* John Brosnan, 2012-12-21 In the darkest depths of the Pacific lies a new underwater frontier where only the brave or the desperate dare to tread. Experts from the West to harvest rich minerals and to spy the Russians to further their plans for global domination. A team of sadistic mercenaries hired to protect mammoth business interests. And a British journalist, Christopher Maine, in search of a story and the sinister truth. Down on the ocean bed, a giant submersible forages for hidden treasures. But then the forces of man and nature terrifyingly unleash disaster after disaster until the survival of the world itself is at stake.

[Maine's Museums: Art, Oddities & Artifacts](#) Janet Mendelsohn, 2011-06-06 Distinctly Maine: Active Shakers ice harvesting a museum on wheels and more. The first book devoted solely to the diverse and often unexpected museums in the Pine Tree State. Maine's Museums: Art, Oddities, Artifacts showcases a broad range of art, history, maritime, children's, and unusual museums. With world-class collections of fine art by past and contemporary masters, as well as the true stories of people and industries that helped shape the state and the nation, Maine's museums invite visitors to indulge their curiosities and passions to learn about lighthouses, whales, antique cars, seashore trolleys, sardine canning, and folk art. They open our eyes to how Native Americans, shipbuilders, fishermen, lumbermen, Civil War soldiers, artists, and immigrants all had a hand in developing the state. They inspire children to discover the world, and they reopen more than one Victorian-era cabinet of curiosities. Whether you want to see great works of art or truly unique collections from umbrella covers to strange creatures, you'll find it in Maine, and you'll find it in Maine's Museums.

**Maine's Place in the Environmental Imagination** Michael D. Burke, 2020-12-15 The essays in Maine's Place in the Environmental Imagination address from a variety of perspectives how Maine's unique identity among the states of the United States has been formed and what that identity is. A place that is still imagined by others primarily through its

environmental associations its nature and landscape rather than through its social arrangements and human history The collection attempts a foundational study not of a regional literature but of a state literature In doing so it makes the case that Maine was constructed imaginatively and environmentally through its literature and that this image is the one that endures even now The essays suggest how this identity was formed by discussing writings ranging from the recently recovered work of Joseph Nicolar a member of the Penobscot Nation in the late 19th century to the contemporary Maine author Carolyn Chute from Thoreau s canonical essay *Ktaadn* to the modernist E B White whose works have an under appreciated environmental project Contributors include scholars Nathaniel Lewis Annette Kolodny Linda Kornasky Daniel Malachuk Kent Ryden and Lynn Wake     Bureau of Fisheries Document ,1927     **Bulletin of the United States Bureau of Fisheries** ,1927     *Bulletin of the Bureau of Fisheries* ,1926     **Bulletin of the United States Bureau of Fisheries** United States.
