Covered bridges were used to cross most of New Hampshire's large rivers including the Connecticut, Merrimack, Mascoma, Contoocook, Pemigewasset, and Ashuelot. *New Hampshire Covered Bridges* is a photographic study of the state's enclosed wooden spans that date from as far back as 1827. The book contains rare photographs of historic bridges that no longer exist as well as pictures of many that still stand today. The images are accompanied by detailed information about the design and construction of covered bridges and the men who built them. Each bridge has its own life story. Some have defied floods and hurricanes and still stand; others have fallen victim to nature or arson or the demands of modern transportation.
