uncovered tantalizing evidence of the people who had lived worked and died there in the seventeenth century Part I Interpretive Studies addresses four critical questions each with complex and sometimes unsatisfactory answers Who was Martin What was a hundred When did it begin and end Where was it located We then see how scientific detective work resulted in a reconstruction of what daily life must have been like in the strange and dangerous new land of colonial Virginia The authors use first person accounts documents of all sorts and the treasure trove of artifacts carefully unearthed from the soil of Martin s Hundred Part II Artifact Catalog illustrates and describes the principal artifacts in 110 figures The objects divided by category and by site range from ceramics which were the most readily and reliably datable to glass of which there was little to metalwork in all its varied aspects from arms and armor to rail splitters wedges and finally to tobacco pipes The Archaeology of Martin s Hundred is a fascinating account of the ways archaeological fieldwork laboratory examination and analysis based on lifelong study of documentary and artifact research came together to increase our knowledge of early colonial history Copublished with the Colonial Williamsburg Foundation Marks and monograms on pottery and porcelain, with short historical notices of each manufactory, and an introductory essay on the vasa fictilia of England.
