perhaps the most obvious vehicles of continuity but there have been many others law taxation gardens music magic education shipping and countless other elements have all played their part in maintaining this unique culture Today Greek arts have blossomed again Greece has taken its place in the European Union Greeks control a substantial proportion of the world's merchant marine and Greek communities in the United States Australia and South Africa have carried the Hellenic tradition throughout the world This is the first reference work to embrace all aspects of that tradition in every period of its existence

Empire of Honour J. E. Lendon, 2001 J. E. Lendon offers a new interpretation of how the Roman empire worked in the first four centuries AD A despotism rooted in force and fear enjoyed widespread support among the ruling classes of the provinces on the basis of an aristocratic culture of honour shared by rulers and ruled The competitive Roman and Greek aristocrats of the empire conceived of their relative standing in terms of public esteem or honour and conceived of their cities toward which they felt a warm patriotism as entities locked in a parallel struggle for primacy in honour over rivals Emperors and provincial governors exploited these rivalries to gain the indispensable co-operation of local magnates by granting honours to individuals and their cities Since rulers strove for honour as well their subjects manipulated them with honours in their turn Honour whose workings are also traced in the Roman army served as a way of talking and thinking about Roman government it was both a species of power and a way connived in by rulers and ruled of concealing the terrible realities of imperial rule Book Cover

From the Later Roman Empire to Late Antiquity and Beyond Averil Cameron, 2023-05-23 Averil Cameron is one of the leading historians of late antiquity and Byzantium This collection Cameron's third in the Variorum series discusses the changing approach among historians of the later Roman empire from the 1960s to the present and the articles reproduced have been chosen to reflect both these wider changes in treatments of the subject as well as Cameron's own development as a historian

over many decades It provides a revealing and important survey of some profound historiographical changes Her volume contains fundamental papers and reviews that tell a story in which she has played a leading part They move from her early days as an ancient historian to her important contribution in the establishment of the field of late antiquity and point to her later work as a Byzantinist a trajectory rivalled by few other scholars The book will be important for scholars and students of the later Roman empire and late antiquity and for anyone interested in the inheritance of Edward Gibbon the perennial questions about the end of the Roman empire and its supposed decline or the emergence of Islam in the early seventh century and its relation to the late antique world CS 1113

Roman Passions Ray Laurence, 2010-09-30 In what may be the most in depth study yet published of a film star s body of work Susan Hayward charts the career of Simone Signoret one of the great French actresses of the 20th Century Signoret who won an Oscar in 1960 for her performance in *Room at the Top* was a key figure in French cinema for 40 years But it is not so much her longevity that impresses as it is the quality of work she produced as her career progressed She started out as a stunningly beautiful woman winning major international awards five times for her roles and yet was only moderately in demand during those years From the 1960s onwards when her looks began to decline significantly Signoret was in greater demand and produced most of her output She insisted on playing roles consonant with her real age and often chose to play roles that portrayed her as even more ugly than she had become Simone Signoret The Star as Cultural Sign is a remarkable achievement a labor of love from one of the world s leading scholars of French cinema

Seneca's Tragedies and the Aesthetics of Pantomime Alessandra Zanobi, 2014-01-30 Pantomime was arguably the most popular dramatic genre during the Roman Empire but has been relatively neglected by literary critics *Seneca's Tragedies and the Aesthetics of Pantomime* adds to our understanding of Seneca s tragic art by demonstrating that elements which have long puzzled scholars can be attributed to the influence of pantomime The work argues that certain formal features which depart from the conventions of fifth century Attic drama can be explained by the influence of and interaction with this more popular genre The work includes a detailed and systematic analysis of the specific pantomime inspired features of Seneca s tragedies the loose dramatic structure the presence of running commentaries minute descriptions of characters undergoing emotional strains or performing specific actions of monologues of self analysis and of narrative set pieces Relevant to the culture of Roman imperial culture more generally *Seneca's Tragedies and the Aesthetics of Pantomime* includes an outline of the general features of pantomime as a genre The work shows that the influence of sub literary genres such as pantomime and mime the sister art of pantomime can be traced in several Roman writers whose literary production was antecedent or contemporary with Seneca s Furthermore the work sheds light on the interaction between sub literary genres of a performative nature such as mime and pantomime and more literary ones an aspect of Latin culture which previous scholarship has tended to overlook *Seneca's Tragedies and the Aesthetics of Pantomime* provides an original contribution to the understanding of the impact of pantomime on Roman literary culture and

Biblical Commentaries from the Canterbury School of Theodore and Hadrian Bernhard Bischoff, Michael Lapidge, 1994 This volume includes the first edition of a previously unknown text which throws wholly new light on the intellectual history of early medieval Europe The biblical commentaries never before printed or studied represent the teaching of two extraordinarily gifted Greek scholars who came to England from the Byzantine East Theodore archbishop of Canterbury 668 90 and his colleague Hadrian d 710 established a school in Canterbury to which they brought a wealth of experience and learning These scholars applied their knowledge to the exposition of the Bible to a small group of Anglo Saxon scholars who recorded their teaching The commentaries throw new light on the range of subjects which were taught in Canterbury at the time medicine philosophy rhetoric Roman civil law as well as the biblical text itself illustrating what was undoubtedly the high point of biblical scholarship between late antiquity and the Renaissance Because both Hadrian and Theodore were from Greek speaking parts of the Roman empire their commentaries reveal new links between the Byzantine East and the Latin West in the seventh century The present commentaries found by Professor Bischoff in Milan in 1936 constitute one of the most important medieval texts discovered this century The edition is introduced by substantial chapters on the intellectual background of the texts their manuscript sources the lives and milieux of the two Greek scholars The Latin texts themselves are accompanied by facing English translations and extensive notes

Desiring Rome Richard Jackson King, 2006 During his last two decades ca 2 BCE 17 CE Ovid composed but never completed his *Fasti* an elegiac representation of Rome's rites and festivals only six of twelve month books remain Earlier scholars have claimed that this is due either to Ovid's exile from Rome which put him out of touch with the Roman literary world or else his frustration over the Roman calendar's discontinuity Drawing upon recent scholarship in gender studies and Lacanian film theory Richard J King analyzes this exilic incompletion as inviting the citizen male reader into what he calls an angular or skewed viewpoint which interrogates the Roman hierarchical and male dominated social order insofar as it is

mirrored in the Roman calendar of rites and festivals Ovid already well known and even infamous as the composer of erotic poems and the *Metamorphoses* does this by emulating the civic gesture of calendar presentation whereby upwardly mobile adult male citizens caused calendars to be carved in stone and set up in conspicuous public places to reflect the city's pride and to build their own prestige as public figures In this innovative study King discusses the *Fasti* as Ovid's socially strategic use of this gesture Interrupted by exile and filled with varying explanations of Roman festivals Ovid's poetic version manifests a form whose brokenness comments on the fractured identity of the exiled poet and citizen subjects generally in an imperial order ambivalent toward its greatest poet Desiring Rome expands upon recent recognition of the *Fasti*'s centrality to early imperial politics by situating the poem's failure within broader negotiations of identity between early imperial citizen subjects and the cultural ideology of Roman manhood

and Natural Law Tony Burns, 2011-10-27 *Aristotle and Natural Law* lays out a new theoretical approach which distinguishes between the notions of interpretation appropriation negotiation and reconstruction of the meaning of texts and their component concepts These categories are then deployed in an examination of the role which the concept of natural law is used by Aristotle in a number of key texts The book argues that Aristotle appropriated the concept of natural law first formulated by the defenders of naturalism in the nature versus convention debate in classical Athens Thereby he contributed to the emergence and historical evolution of the meaning of one of the most important concept in the lexicon of Western political thought *Aristotle and Natural Law* argues that Aristotle's ethics is best seen as a certain type of natural law theory which does not allow for the possibility that individuals might appeal to natural law in order to criticize existing laws and institutions Rather its function is to provide them with a philosophical justification from the standpoint of Aristotle's metaphysics
