Making the World Global Isaac A. Kamola, 2019-06-07 Following World War II the American government and philanthropic foundations fundamentally remade American universities into sites for producing knowledge about the world as a collection of distinct nation states As neoliberal reforms took hold in the 1980s visions of the world made popular within area studies and international studies found themselves challenged by ideas and educational policies that originated in business schools and international financial institutions Academics within these institutions reimagined the world instead as a single global market and higher education as a commodity to be bought and sold By the 1990s American universities embraced this language of globalization and globalization eventually became the organizing logic of higher education In **Making the World Global** Isaac A. Kamola examines how the relationships among universities the American state philanthropic organizations and international financial institutions created the conditions that made it possible to imagine the world as global Examining the Center for International Studies Harvard Business School the World Bank the Social Science Research Council and NYU Kamola demonstrates that how we imagine the world is always symptomatic of the material relations within which knowledge is produced

Youth and sustainable peacebuilding Helen Berents, Catherine Bolten, Siobhan McEvoy-Levy, 2024-07-02 Sustainable peace involves more than simply including youth in official peacebuilding mechanisms or recognizing their local peacebuilding work it requires a transformation in thinking about the youth as actors in the world of security and peace Using case studies from around the globe the contributors to this volume analyse why states are afraid of their young people why youth participation in formal peace processes matters but is insufficient and ways that young people are working outside of official systems to create and nurture peace on their own terms The volume offers guidance for ways to bridge the disconnect that exists between institutional assumptions and expectations for youth as peacebuilders and the actual sustainable peace leadership of youth Throughout it emphasises a critical approach to peacebuilding with for and by youth

Modern China in Flux Christian Henriot, 2025-03-03 **Modern China in Flux** heralds a transformative epoch in historical research spotlighting the innovative methodology of network analysis As the digital age unfolds historians encounter both an unparalleled opportunity and a daunting challenge navigating the vast digital repositories of historical data Central to this volume's discourse is the

imperative for a methodological shift in examining modern China's historical research. By embracing the digital evolution, this volume highlights the promise of network analysis as a model for historians. Modern China, rich in tales of socio-political upheavals, economic transformations, and cultural shifts, emerges as a nuanced tapestry of intertwined narratives. Capturing its intricacies necessitates an approach that illuminates the multiple connections, alliances, and conflicts that shaped its course. Here, network analysis proves invaluable. By exploring textual databases and archival documents and leveraging the capabilities of full-text historical sources, historians can craft a dynamic, interconnected narrative of modern China. Previously obscured relationships come into sharp focus, revealing the delicate balance of power, influence, and change.

American Girls and Global Responsibility Jennifer Helgren, 2017-04-17 *American Girls and Global Responsibility* brings together insights from Cold War culture studies, girls studies, and the history of gender and militarization to shed new light on how age and gender work together to form categories of citizenship. Jennifer Helgren argues that a new internationalist girl citizenship took root in the country in the years following World War II in youth organizations such as Camp Fire Girls, Girl Scouts, YWCA, Y Teens, schools, and even magazines like *Seventeen*. She shows the particular ways that girls' identities and roles were configured and reveals the links between internationalist youth culture, mainstream U.S. educational goals, and the U.S. government in creating and marketing that internationalist girl, thus shaping the girls' sense of responsibilities as citizens.

The Role of American NGOs in China's Modernization Norton Wheeler, 2013 In the waning years of the Cold War, the United States and China began to cautiously engage in cultural, educational, and policy exchanges, which in turn strengthened new security and economic ties. These links have helped shape the most important bilateral relationship in the late twentieth and early twenty-first centuries. This book explores the dynamics of cultural exchange through an in-depth historical investigation of three organizations at the forefront of U.S.-China non-governmental relations: the Hopkins Nanjing Center for Chinese and American Studies, the National Committee on United States-China Relations, and The 1990 Institute. Norton Wheeler reveals the impact of American non-governmental organizations (NGOs) on education, environment, fiscal policy, and civil society in contemporary China. In turn, this book illuminates the important role that NGOs play in complementing formal diplomacy and presents a model of society-to-society relations that moves beyond old debates over cultural imperialism. Finally, the book highlights the increasingly significant role of Chinese Americans as bridges between the two societies. Based on extensive archival research and interviews with leading American and Chinese figures, this book will be of interest to students and scholars of Chinese politics and history, international relations, and transnational NGOs.

Pacific America Lon Kurashige, 2017-07-31 In recent times, the Asia-Pacific region has far surpassed Europe in terms of reciprocal trade with the United States, and since the 1980s, immigrants from Asia entering the United States have exceeded their counterparts from Europe, reversing a longstanding historical trend and making Asian Americans the country's fastest growing racial group. What does transpacific history look like if the arc of the story is extended to the present? The essays in

this volume offer answers to this question challenging current assumptions about transpacific relations Many of these assumptions are expressed through fear that the ascendance of China threatens a U S led world system and undermines domestic economies that immigrants subvert national unity and that globalization for all its transcending of international cultural and racial differences generates its own forms of prejudice and social divisions that reproduce global and national inequalities The contributors make clear that these fears associated with and induced by pacific integration are not new Rather they are the most recent manifestation of international racial and cultural conflicts that have driven transpacific relations in its premodern and especially modern iterations Pacific America differs from other books that are beginning to flesh out the transnational history of the Pacific Ocean in that it is more self consciously a people s history While diplomatic and economic relations are addressed the chapters are particularly concerned with histories from the bottom up including attention to social relations and processes individual and group agency racial and cultural perception and collective memory These perspectives are embodied in the four sections focusing on China and the early modern world circuits of migration and trade racism and imperialism and the significance of Pacific islands The last section on Pacific Islanders avoids a common failing in popular perception that focuses on both sides of the Pacific Ocean while overlooking the many islands in between The chapters in this section take on one of the key challenges for transpacific history in connecting the migration and imperial histories of the United States Japan China Korea Vietnam and other nations with the history of Oceania

[The Oxford Handbook of Asian American History](#) David K. Yoo,Eiichiro Azuma,2016-01-04 After emerging from the tumult of social movements of the 1960s and 1970s the field of Asian American studies has enjoyed rapid and extraordinary growth Nonetheless many aspects of Asian American history still remain open to debate The Oxford Handbook of Asian American History offers the first comprehensive commentary on the state of the field simultaneously assessing where Asian American studies came from and what the future holds In this volume thirty leading scholars offer original essays on a wide range of topics The chapters trace Asian American history from the beginning of the migration flows toward the Pacific Islands and the American continent to Japanese American incarceration and Asian American participation in World War II from the experience of exclusion violence and racism to the social and political activism of the late twentieth century The authors explore many of the key aspects of the Asian American experience including politics economy intellectual life the arts education religion labor gender family urban development and legal history The Oxford Handbook of Asian American History demonstrates how the roots of Asian American history are linked to visions of a nation marked by justice and equity and to a deep effort to participate in a global project aimed at liberation The contributors to this volume attest to the ongoing importance of these ideals showing how the

mass politics creative expressions and the imagination that emerged during the 1960s are still relevant today It is an unprecedentedly detailed portrait of Asian Americans and how they have helped change the face of the United States **For God and Globe** Michael G. Thompson,2016-02-19 For God and Globe recovers the history of an important yet largely forgotten intellectual movement in interwar America Michael G Thompson explores the way radical left and ecumenical Protestant internationalists articulated new understandings of the ethics of international relations between the 1920s and the 1940s Missionary leaders such as Sherwood Eddy and journalists such as Kirby Page as well as realist theologians including Reinhold Niebuhr developed new kinds of religious enterprises devoted to producing knowledge on international relations for public consumption For God and Globe centers on the excavation of two such efforts the leading left wing Protestant interwar periodical The World Tomorrow and the landmark Oxford 1937 ecumenical world conference Thompson charts the simultaneous peak and decline of the movement in John Foster Dulles s ambitious efforts to link Christian internationalism to the cause of international organization after World War II Concerned with far more than foreign policy Christian internationalists developed critiques of racism imperialism and nationalism in world affairs They rejected exceptionalist frameworks and eschewed the dominant Christian nation imaginary as a lens through which to view U S foreign relations In the intellectual history of religion and American foreign relations Protestantism most commonly appears as an ideological ancillary to expansionism and nationalism For God and Globe challenges this account by recovering a movement that held Christian universalism to be a check against nationalism rather than a boon to it **Education and the Cultural Cold War in the Middle East** Mahdi Ganjavi,2023-01-26 WINNER OF THE 2023 MIDDLE EAST LIBRARIANS ASSOCIATION BOOK AWARD The Franklin Book Programs FBP was a private not for profit U S organization founded in 1952 during the Cold War and was subsidized by the United States government agencies as well as private corporations The FBP was initially intended to promote U S liberal values combat Soviet influence and to create appropriate markets for U S books in Third World of which the Middle East was an important part but evolved into an international educational program publishing university textbooks schoolbooks and supplementary readings In Iran working closely with the Pahlavi regime its activities included the development of printing publishing book distribution and bookselling institutions This book uses archival sources from the FBP US intelligence agencies and in Iran to piece together this relationship Put in the context of wider cultural diplomacy projects operated by the US it reveals the extent to which the programme shaped Iran s educational system Together the history of the FBP its complex network of state and private sector the role of U S librarians publishers and academics and the joint projects the FBP organized in several countries with the help of national ministries of education financed by U S Department of State and U S foundations sheds new light on the long history of education in imperialist social orders in the context here of the ongoing struggle for influence in the Cold War U.S. Power and the Social State in Brazil Júlio Cattai,2021-12-29 The book analyzes the elite led efforts to transform the Brazilian legal order in the period between 1930
