Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America Robin Inglis, 2008-04-02 The Northwest Coast of America ranging from northern California through Oregon Washington and British Columbia all the way up to Alaska was the last temperate coastline to be placed on the world map First visited by Russians in 1741 and thought to contain a navigable passage between the Pacific and the Atlantic it was systematically revealed during an intense period of exploratory and commercial activity from the 1770s to the 1790s Subsequently the imperial ambitions of Russia Spain and Britain and an assumption of manifest destiny by the United States led to further exploration and ensured that the region would become disputed territory before national boundaries were determined in the mid 19th century The Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America tells of the heroic endeavors and remarkable achievements the endless speculation about a northwest passage and the fighting and manipulation for commercial advantage that surrounded this terrain This is done through an introductory essay a detailed chronology an extensive bibliography modern maps and selected historical maps and drawings and over 400 cross referenced dictionary entries Entries cover the native people encountered the scientists and artists who left an invaluable documentary and visual record of people places flora and fauna the numerous voyages taken by men such as Vitus Bering James Cook Juan Francisco de la Bodega y Quadra and George Vancouver overland expeditions like those of Alexander Mackenzie Simon Fraser Meriwether Lewis and William Clark and David Thompson and maritime fur traders including George Dixon Grigori Shelikhov Robert Gray and William Sturgis No other dictionary exists that is dedicated solely to the coverage of this region

Naturalists at Sea Glyn Williams, 2013-10-22

DIVDIVTales of the intrepid early naturalists who set sail on dangerous voyages of discovery in the vast unknown Pacific div
 div **Alejandro Malaspina** John Kendrick,1989-04-01 Malaspina arrived in Spain with a scientific background and an ardent interest in the philosophy of the Enlightenment A skilled navigator the Pacific voyage on which he sailed in 1789 was the last and most important of his career a five year scientific and political examination of the Spanish colonies in the Americas and the Philippines He appraised the British colony at Sydney Cove and Tonga allowing him to compare life at a place almost untouched by European contact with the situation in the colonies Malaspina eventually returned to Spain where he was received by King Charles IV He was commissioned to produce a work covering all aspects of his studies that would establish Spain s reputation as a modern enlightened state Malaspina advised the King that this could be achieved only if he dismissed all of his ministers and replaced them with a slate of Malaspina s choosing who would back his visionary ideas This seemingly naive proposal resulted in a unanimous vote by the council that his plan was false seditious and injurious to the sovereignty of Their Majesties and he was sentenced to ten years imprisonment in the fortress of San Ant n At the urging of Napoleon he was released after eight years and exiled to Italy where he died in 1810 just as the revolts in the Americas were starting as he had predicted Using Malaspina s writings including the journal of his great voyage and his personal letters John Kendrick makes the life of this extraordinary man available for the first time in English **Explorers of the Maritime Pacific Northwest** William L. Lang Ph.D.,James V. Walker,2016-05-09 Covering the adventures of coastal and ocean explorers who made key discoveries and landmark observations from northern California up the coastline to Alaska during the mid 1700s to the early 1800s this anthology of primary source journal entries book excerpts maps and drawings enables readers to discover the Northwest Coast for themselves More than 200 years ago explorers traveled from Central America Russia and even Europe to explore the coastline of the American Pacific Northwest with goals of developing new trade routes claiming territory for their home countries expanding their fur trade or exploring in the name of scientific discovery This book will take readers to the decks of the great ships and along for the adventures of legendary explorers such as James Cook Alejandro Malaspina and George Vancouver This book collects primary source materials such as journal entries book excerpts maps and drawings that document how explorers first experienced the unknown Pacific Northwest coast as seen through the eyes of non native people Readers will learn how explorers such as Vitus Bering and Robert Gray used the full extent of their powers of observation to record the landscape animals and plants they witnessed as well as their interactions with indigenous peoples during their search for the mythic Northwest Passage The book also explains how the maritime explorers of this period mapped the remote regions of the Northwest Coast working without the benefit of modern technology and relying instead on their knowledge of a range of sciences mathematics and seamanship in addition to their ability to endure harsh and dangerous conditions to produce exceptionally detailed maps **At the Far Reaches of Empire** Freeman M. Tovell,2009-01-01 Capit n de Nav o Juan Francisco de la Bodega y Quadra was the most important Spanish naval

officer on the Northwest Coast in the eighteenth century. Serving from 1774 to 1794, he participated in the search for the Northwest Passage and with George Vancouver endeavoured to forge a diplomatic resolution to the Nootka Sound controversy between Spain and Britain. Freeman Tovell's thorough and nuanced study presents this officer of Spain's Enlightened Navy as a key figure in the history of the region. Intelligent, observant, and literate, Bodega received high praise from the viceroys of New Spain under whom he served. His enlightened policy toward the Nuuchahmuls and his close association with Chief Maquinna are a matter of record. Bodega was not without his imperfections when his overarching ambition to make a name for himself exceeded his financial reach; he incurred ruinous debts. As a Peruvian creole, he also struggled against the glass ceiling imposed by having been born outside Spain. Despite constant efforts for promotions, he never gained the full recognition from naval and political superiors that his achievements deserved. Bodega's accomplishments place him in the company of Bering, Cook, Vancouver, La Perouse, and Malaspina, those who advanced a better understanding of the geography, ethnography, and natural history of the area. The most complete study of Bodega and his epoch yet written, *At the Far Reaches of Empire*, is an absorbing narrative of eighteenth-century empire building.

Historical Dictionary of the Discovery and Exploration of the Northwest Passage Alan Day, 2006-01-03. This compendium of explorers, navigators, and expeditions tackles this broad topic with a convenient but extensive cross-referenced dictionary. A chronology traces the long succession of treks to find the passage; the introduction helps explain what motivated them, and the bibliography provides a means for those wishing to discover more information on this exciting subject. *The Voyage of Alejandro Malaspina to the Pacific, 1789-1794* Andrew David, 2000. Studies in American Indian Languages Leanne Hinton, Pamela Munro, 1998. This collection of 31 articles dedicated to Margaret Langdon represents the multitude of approaches to Native American languages taken by linguists today. Half of the essays treat Hokan languages, but Uto-Aztecan, Penutian, Muskogean, Iroquoian, Mayan, and other groups are also represented with pieces on phonology, syntax, the lexicon, and discourse. *The Early Exploration of Inland Washington Waters* Richard W. Blumenthal, 2015-01-28. For those armchair historians interested in the initial nautical exploration of inland Washington waters, this text is a significant addition to Northwest maritime history. Beginning in 1786 and continuing through 1792, *The Early Exploration of Inland Washington Waters* includes transcriptions of all of the logs and journals of the area's earliest explorers. This text follows the initial journey of John Meares, four intervening expeditions by the Spanish, and culminates with George Vancouver's voyage in 1792. This fascinating read includes the first European descriptions of Puget Sound Country and the people who lived here. It also records the events and history surrounding the naming of many prominent locations in the area by Vancouver, including Puget Sound, Whidbey, and Vashon Islands, Hood Canal, Admiralty Inlet, Mounts Rainier and Baker, etc. Readers will also be fascinated by the numerous Spanish names, including the Haro Strait, Port Angeles, Padilla Bay, Sucia, Matia, and Patos Islands, as well as many more which did not stand the test of time. We owe our history to these early explorers; this text brings them to
