МАЛОЕ ПРЕДПРИНИМАТЕЛЬСТВО В РФ

Под малым предприятием в основном понимается предприятие с числом занятых не более 100-200 человек, в уставном капитале которых доля участия государства и (или) других юридических лиц, не являющихся субъектами малого предпринимательства, не более 50%.

В соответствии с гражданским законодательством Российской Федерации субъектами малого предпринимательства являются юридические лица как коммерческие организации и индивидуальные предприниматели, имеющие право создавать малые предприятия в различных организационно-правовых формах.

Малый бизнес в России пока отстает от бизнеса промышленно-развитых стран, но в нашей стране имеются большие резервы для его дальнейшего роста. Трудно переоценить значимость развития малого бизнеса для нашей страны, где оно способно коренным образом и без существенных капитальных вложений расширить производство многих потребительских товаров и услуг (в первую очередь – для малообеспеченного большинства населения) с использованием местных источников сырья, решить проблему занятости, ускорить научно-технический прогресс и составить позитивную альтернативу криминальному бизнесу. Объективности ради необходимо отметить, что экономический риск в сфере малого предпринимательства как правило выше, и «жизненный цикл» малых предприятий обычно короче, чем крупных компаний.

В ряде промышленно развитых стран накоплен положительный опыт государственной поддержки малого бизнеса. Данная поддержка предоставляется в виде: организационно-инфраструктурной формы (упрощенный порядок регистрации, обучение и переподготовка кадров, стимулирование связей между крупным и малым бизнесом на основе механизмов франчайзинга, субподряда и лизинга и т.д.); финансовой формы (введение льготного режима налогообложения и кредитования, обеспечение госзаказом, стимулирование банков и страховых компаний к кредитованию и страхованию малых предприятий и т. д.); имущественной формы (научно-технологическая поддержка, льготирование условий предоставления в аренду помещений и оборудования, находящихся в государственной собственности, а также формирование государственных лизинговых компаний и т. д.). Осуществляемая в настоящее время в России система государственной поддержки развития малого предпринимательства недостаточно эффективна, ее необходимо развивать и совершенствовать.
