Mental Purification And Healing The Sufi Mebage S:

Mental Purification and Healing Hazrat Inayat Khan, 2002 Sufi Hazrat Inayat Khan Baroda 1982 Delhi 1927 provides a beautiful guidebook for your inner path It contains neither prescriptions nor do's and don'ts You may be provided with an insight and understanding which may be as a welcome in the circle of Sufi friends or as a silent companion on your further way This the fourth volume of the Sufi Message by Hazrat Inayat Khan It includes three works the first Healing is a collection of teachings on spiritual healing In this work the Sufi mystic discusses the basic laws governing the mind's influence on the body which he considers greater than that of the physical body on the mental existence and he emphasises the need for a stronger awareness of the possibilities which spiritual healing can offer Mental Purification is a collection of lectures on the working and hygiene of the mind in relation to the spirit This part conveys in a beautiful way the synthesis that can be gained between inner life and life in the world The volume concludes with the Mind World which in the terms of the Sufi poets is called The palace of Mirrors an expression which Inayat Khan takes as symbolising on different levels the whole of life

The Sufi Message of Hazrat Inayat Khan: Healing, Mental Purification and the Mind World Hazrat Inayat Khan, 2020-09-28 Illness is disharmony either physical disharmony or mental disharmony the one acts upon the other What causes disharmony The lack of tone and rhythm How can it be interpreted in physical terminology Prana or life or energy is the tone Circulation regularity is the rhythm regularity in the beatings of the heart of the pulse and the circulation of the blood through the veins In physical terms the lack of circulation means congestion and the lack of Prana or life or energy means weakness These two conditions attract illness and are the cause of illness In mental terms the rhythm is the action of the mind whether the mind is active in harmonious thoughts or in disharmonious thoughts whether the mind is strong firm and steady or whether it is weak If one continues to think harmonious thoughts it is just like regular beating of the pulse and proper circulation of the blood If the harmony of thought is broken then the mind becomes congested Then a person loses memory depression comes as the result and what one sees is nothing but darkness Doubt suspicion distrust and all manner of distress and despair come when the mind is congested in this way The Prana of the mind is maintained when the mind can be steady in thoughts of harmony then the mind can balance its thoughts then it cannot be easily shaken then doubt and confusion cannot easily overpower it Whether it is nervous illness whether it is mental disorder whether it is physical illness at the root of all these different aspects of illness there is one cause and that cause is disharmony The body which has once become disharmonious turns into a receptacle of disharmonious influences of disharmonious atoms it partakes of them without knowing it and so it is with the mind The body which is already lacking in health is more susceptible to illness than the body which is perfectly healthy and so the mind which already has a disorder in it is more susceptible to every suggestion of disorder and in this way goes from bad to worse Scientists of all ages have found that each element attracts the same element and so it is natural that illness should attract illness thus in plain words disharmony attracts disharmony whereas

harmony attracts harmony We see in everyday life that a person who has nothing the matter with him and is only weak physically or whose life is not regular is always susceptible to illness Then we see that a person who ponders often upon inharmonious thoughts is very easily offended It does not take long for him to get offended A little thing here and there makes him feel irritated because irritation is already there It wants just a little touch to make it a deeper irritation **The Sufi Message** Inayat Khan (Hazrat),1994 *Sufi Message of Spiritual Liberty, Volume 4* Hazrat Inayat Khan,2005-05-01 This volume contains Health Mental Purification The Mind World These books explain the Sufi teachings concerning the influence of the mind on the body and the possibilities to restore rhythm and tone of a person through spiritual healing When Health the first book of this volume was published in 1931 it met with great interest for it is as rare to find a book on spiritual healing in which the advance of modern medical science is appreciated as to find acknowledgement of spiritual healing in a medical text book Hazrat Inayat Khan the Sufi mystic has set forth in the lectures and other papers included in Health which were originally intended only for his pupils the basic laws governing the divine healing power as well as several methods its application As with all mystical knowledge the printed word alone can never confer the power and knowledge of healing upon anyone a guide a teacher is essential but the reader will find in Inayat Khan's hitherto unpublished lectures on the workings and hygiene of the mind and kindred subjects This volume ends with The Mind world a book which was first published separately in 1935 and reprinted in 1955 its title speaks for itself While Volume 3 contains most of Hazrat Inayat Khan's books and lectures on human relationship Volume 4 may be considered as a continuation of Volume 2 which deals principally with the metaphysical aspect of creation tracing a line from its origin to the human mind **The Sufi Message** Inayat Khan,2002 The Sufi Message of Hazrat Inayat Khan: Health. Mental purification. The mind-world Inayat Khan,1960 *The Heart of Sufism* H.J. Witteveen,1999-03-02 The Indian Sufi master Hazrat Inayat Khan 1882-1927 was the very first teacher to bring Sufism to the Western world This is the first representative collection of the master's teachings making it the perfect book for anyone who has been intrigued by his writings but unsure about where to start in his sixteen volume collected works Newcomers will be inspired by just how delightful and useful Inayat Khan's teachings are for everyone regardless of religious background Long time students will find the book a valuable reference to the essence of his teachings on a variety of subjects Each chapter includes a wealth of material taken from Inayat Khan's work on a particular subject such as Mysticism Discipleship Music Children or Divine Intimacy followed by a selection of his short sayings and aphorisms on the same topic **The Sufi Message of Hazrat Inayat Khan** Hazrat 'Inayat Han,1961 *The Sufi Message of Hazrat Inayat Khan* Inayat Khan,2020-03-13 In Hazrat Inayat Khan's teachings the purification of the body leads to the purification of the breath the purification of the breath leads to the purification of the mind and the purification of the mind leads to the purification of the heart The teachings in this volume touch on all four stages with a primary focus on the purification of the mind Alongside Hazrat's teachings on the mind the volume contains extensive lectures on the subjects of health and healing

lectures which anticipate the findings of contemporary mind body medicine Taken together these chapters constitute a comprehensive overview of the fundamental principles of Sufi healing The Development of Spiritual Healing Inayat Khan,1961 Mental Purification Sufi Movement of South Africa,1972 *Sufi Message of Hazrat Inayat Khan Vol. 4* Hazrat Inayat Khan,2020-03-13 In Hazrat Inayat Khan s teachings the purification of the body leads to the purification of the breath the purification of the breath leads to the purification of the mind and the purification of the mind leads to the purification of the heart The teachings in this volume touch on all four stages with a primary focus on the purification of the mind Alongside Hazrat s teachings on the mind the volume contains extensive lectures on the subjects of health and healing lectures which anticipate the findings of contemporary mind body medicine Taken together these chapters constitute a comprehensive overview of the fundamental principles of Sufi healing **Spiritual Purification in Islam** Gavin Picken,2011-03-21 Purification of the soul is a principle that is central to understanding Islamic spirituality but despite this relatively little has been written explicitly in the Islamic tradition regarding this discrete method of spiritual purification This book examines the work of a scholar of this discipline al H rith al Muh sib who lived and worked during the classical Islamic period under the Abb sids Although al Muh sib was well known for his skills in many disciplines including the Qur n Prophetic narration and scholastic theology it is his mastery in the field of Islamic spirituality and moral psychology for which he is best remembered Assessing the extent to which the political social and economic factors played a part in his life and work Gavin Picken provides a comprehensive overview of his work and its great significance in the development of Islamic spirituality Reconstructing his life in chronological order and providing the most comprehensive appraisal of his works to date it explores a facet of al Muh sib s teaching which as yet has not been studied namely his understanding concept and methodology regarding the purification of the soul within the Islamic paradigm As such it will be of great interest not only to researchers and students of Sufism but also to scholars of comparative spirituality and mysticism *Purification of the Mind* ‘Abd al-Qādir al-Jīlānī,Louay Fatoohi,Shetha Dargazelli,2008 This book consists of 45 discourses that were given by Shaikh Abd Al Qadir Al Jilani in his school in Baghdad These discourses like the ones found in some of his other books would have been transcribed by some of his listener There are a number of surviving manuscripts of the book The language of Shaikh Abd Al Qadir s discourses is often permeated by symbolic references metaphorical images and poetic expressions This style which is characteristic of the Shaikh s discourses reflects a number of facts First the Shaikh often speaks about spiritual matters that are completely unfamiliar to the layperson and which the language is incapable of describing with accuracy These in the Shaikh s words are states stations visions and experiences that no eye has ever seen no ear has ever heard and has never occurred to any human being Second the Shaikh s words spring as much from his heart as from his mind describing feelings as well as thoughts He is forced to use common words to describe feelings that are known only to those who have had those spiritual experiences No language is equipped enough to describe these feelings in the same way that no

words can assist in describing color to one born blind because it requires visual experience Third the Shaikh often speaks about secret and intimate spiritual issues that he does not want to or cannot fully disclose thus wrapping his words in metaphors The words of Shaikh Al Jilani do not describe one spiritual state and are not targeted at one person They paint a fascinating picture of a myriad of spiritual states and stations and apply to people of very different beginnings paths and ends The destination is the same but the routes are different Also different wayfarers end their journeys at different points What is good for someone might not be good for another and what is required of two different people might be completely different even though both have the same goal This is why understanding the Shaikh's words and their applications is a science in its own right As Sufis say The ways to Allah are as many as the creatures The words of the Shaikh remain as relevant to the seeker of the truth and nearness to God as they were when he uttered them almost one thousand years ago For sure the world has changed a lot but man's nature has not and the diseases of his heart remain the same The Shaikh's words address these diseases and show man the way to salvation His words lived a thousand years and will live to the day when this transient world is no more and is replaced by the permanent one Like all beacons of truth the Shaikh has been the target of attacks of the ignorant the narrow minded and the misguided As happened to others who understood Islam to be about works of the heart not acts of the body this pious servant whose life was fully dedicated to serving his Lord has often been accused of distorting the message of Prophet Muhammad by those who wanted to hijack Islam and turn it into a spiritless legalistic system to serve their worldly ambitions But as history has been confirming everyday the voice of truth can never be silenced and the words of wisdom will remain ineradicable It is ignorance of this fact as well as mistaking falsehood for truth that must have made some misguided individuals to use terrorism against the Shaikh as they bombed his shrine in Baghdad on 28th May 2007 damaging parts of it These and similar criminals do not realize that what made great masters such as Shaikh Abd Al Qadir live forever is not buildings that commemorate them or books written about them but the teachings and examples they set that live in people's minds and love for God that they helped them develop in their hearts This is why almost one thousand years after his departure from this world people still feel immensely honored to serve the Shaikh and his sacred cause including making his words more accessible to people

The Sufi Message of Hazrat Inayat Khan: The Art of Being
 Hazrat Inayat Khan, 2020-09-28 Many think that it is some deformity of the body a curve in the spine or cavity in the brain that affects the mind Few realize that very often the mind produces an irregularity in the spine or in the brain thereby causing an illness The ordinary point of view regards an illness as a physical disorder which can be cured by means of material remedies Then there is another point of view that of people who think deeply and who say that by not taking notice of an illness or by suggesting to oneself that one is well one can be restored to health This point of view can be exaggerated when some people claim that illness is an illusion that it has no existence of its own The ordinary point of view can also be exaggerated when one thinks that medicine is the only means of cure and that thought has little to do with actual illness Both these persons the one who looks at it from the ordinary point of view and the other who sees from a deeper point of view will find arguments for and against their idea Some people go as far as to say that medicine must not be touched by those who have faith and some affirm that an illness is as real as health It is in the absence of illness that a person can easily call pain an illusion but when he is suffering then it is difficult for him to call it an illusion The question who is more subject to illness a spiritual person or a material person may be answered thus a spiritual person who discards spiritual laws No doubt a spiritually inclined person is supposed to have less chance of being ill because his spirit has become harmonious through spirituality He creates harmony and radiates it He keeps to the realm of nature in tune with the Infinite Nevertheless a spiritual person's life in the midst of the world is like the life of a fish on land The fish is a creature of the water Its sustenance its joy its happiness are in the water A spiritual soul is made for solitude His joy and happiness are in solitude A spiritual person set in the midst of the world by destiny feels out of place and the ever jarring influences of those around him and the continually striking impressions which disturb his finer senses make it more likely that he will become ill than those who push their way in the crowd of the world and are ready to be pushed away

The Sufi Message Volume 2 Hazrat Inayat Khan, 2009-01-01 The Mysticism of Music Sound and Word presents an essential part of the highly practical philosophy of Hazrat Inayat Khan Born a musician music and sound were for him the essence of life Even when later he had to give up his practice of what in Indian philosophy is called struck music the unstruck music remained with him and increasingly so Not only did he enjoy it in his meditations and all through life whether in silent nature or in the roaring streets of Manhattan In its fullness it came out in his discourses and

other presentations he made to the amazed and yet not fully understanding public of the West in the twenties His realization of sound and music transformed his words into living beings attuning the atmosphere bringing inspiration to the public This volume presents various aspects of his music It contains four parts In the Mysticism of Sound the basic philosophy is given in a wide context Both the abstract and some very practical aspects are covered Music presents the mystic aspects of music besides relating its philosophy to the practical side again It presents a beautiful early view of Indian music and it relates music and colour Moreover the psychic and healing powers are discussed The Power of the Word and Cosmic Language elaborates these influences both philosophically and practically The book really may be called mysticism in daily life **The**

Art of Sufi Healing Linda O'Riordan,1999 In The Art of Sufi Healing the author blends the ancient mystical tradition of Sufism with the latest mind body research to foster personal transformation and healthy living The concepts of Sufi healing are based on 1 400 years of successful experience in working with the physical and metaphysical aspects of the human being and include a strong emphasis on the electromagnetic fields of the body The reader is led through the empowering awareness of self love and self knowledge towards methods of enhancing the healing pathways and understanding the human energy system Specific meditations involving the breath light intentions and spiritual principles provide a treasury of practices perspectives and wisdom of the healing heart The power of the mind heart and expanded consciousness knows no limit in creating health and healing Both the layperson and the health care professional are offered exciting new concepts and techniques for healing Perhaps the remedy to the health care crisis does not lie in amending the system but in redirecting our thinking to reflect a whole new approach Instead of focusing on the disease model The Art of Sufi Healing proposes a positive new health paradigm by awakening the reader to their inherent potentials and possibilities **The Sufi**

Message of Hazrat Inayat Khan: The Alchemy of Happiness Hazrat Inayat Khan,2020-09-28 THE SOUL in Sanskrit in the terms of the Vedanta is called Atman which means happiness or bliss itself It is not that happiness belongs to the soul it is that the soul itself is happiness Today we often confuse happiness with pleasure but pleasure is only an illusion a shadow of happiness and in this delusion man may pass his whole life seeking after pleasure and never finding satisfaction There is a Hindu saying that man looks for pleasure and finds pain Every pleasure seems happiness in outward appearance it promises happiness for it is the shadow of happiness but just as the shadow of a person is not the person though representing his form so pleasure represents happiness but is not happiness in reality According to this idea one rarely finds souls in this world who know what happiness is they are constantly disappointed in one thing after another That is the nature of life in the world it is so deluding that if man were disappointed a thousand times he would still take the same path for he knows no other The more we study life the more we realize how rarely there is a soul who can honestly say I am happy Almost every soul whatever his position in life will say he is unhappy in some way or another and if you ask him why he will probably say that it is because he cannot attain to the position power property possessions or rank for which he has worked for years Perhaps he

is craving for money and does not realize that possessions give no satisfaction perhaps he says he has enemies or that those whom he loves do not love him There are a thousand excuses for unhappiness that the reasoning mind will make But is even one of these excuses ever entirely correct Do you think that if these people gained their desires they would be happy If they possessed all would that suffice No they would still find some excuse for unhappiness all these excuses are only like covers over a man's eyes for deep within is the yearning for the true happiness which none of these things can give He who is really happy is happy everywhere in a palace or in a cottage in riches or in poverty for he has discovered the fountain of happiness which is situated in his own heart As long as a person has not found that fountain nothing will give him real happiness
