## **Moral Conflict And Christian Religion:**

Moral Conflict and Christian Religion Anthony J. Blasi, 1988 This work takes up the problem of moral conflict wherein a person must choose between two or more evils The problem lies behind such issues as the defensive war therapeutic abortion and contraception It becomes a religious question because as the author argues religion elicits the same kind of openness to values as is needed for addressing moral dilemmas After culling insights out of the history of Christian ethics Blasi presents phenomenologies of both moral decision making and religion and uses the results to address the variety of moral dilemmas     *Introduction to Christian Ethics* Ellen Ott Marshall, 2018-10-30 All Christians read the Bible differently pray differently value their traditions differently and give different weight to individual and corporate judgment These differences are the basis of conflict The question Christian ethics must answer then is What does the good life look like in the context of conflict In this new introductory text Ellen Ott Marshall uses the inevitable reality of difference to center and organize her exploration of the system of Christian morality What can we learn from Jesus creative use of conflict in situations that were especially attuned to questions of power What does the image of God look like when we are trying to recognize the divine image within those with whom we are in conflict How can we better explore and understand the complicated work of reconciliation and justice This innovative approach to Christian ethics will benefit a new generation of students who wish to engage the perennial questions of what constitutes a faithful Christian life and a just society     **An Introduction to the Psychology of Religion** Robert H. Thouless, 1972-01-06 The third edition of this successful book which applies the science of psychology to problems of religion Dr Thouless explores such questions as why do people believe Why are their beliefs often held with irrational strength How are changes in belief systems related to mental health What are reasonable attitudes towards alternative belief systems This edition includes samples of the experimental and statistical studies of religious problems including the author's own study of the strength of religious beliefs This edition also pays more attention to the problems of non Christian religious systems with special consideration given to the problems of mutual toleration Finally Dr Thouless considers whether it is reasonable for modern man to adhere to any religious belief system This is an excellent textbook for students of the social sciences particularly psychology and theology and will also interest the general reader who has an intellectual curiosity about religion     **Enjoying Religion** Frans Jespers, Paul van der Velde, Karin van Nieuwkerk, 2018-08-15 Enjoying religion seems to be a contradiction because religion is generally perceived as a serious or even suppressive phenomenon This volume is the first to study the increase of enjoying religion systematically by presenting eleven new case studies occurring on four continents The volume concludes that in our late modern secular societies the enjoyment of religion or of its loose elements is growing In particular when scholars concentrate on lived religion of ordinary people the cheerful experiences appear to prevail Many people use pleasant elements of religion to add meaning to their lives to find spiritual fulfillment or a way to salvation and to experience belonging to a larger unity At the

same time diverse cultural dynamics of late modern society such as popular culture commercialization re enchantment and feminization influence this trend of enjoying religion In spite of secularization playing with religion appears to be attractive

*Towards an Ethics of Community* James Olthuis, Canadian Corporation for Studies in Religion, 2000-02-25 How do we deal with difference personally interpersonally nationally Can we weave a cohesive social fabric in a religiously plural society without suppressing differences This collection of significant essays suggests that to truly honour differences in matters of faith and religion we must publicly exercise and celebrate them The secular sacred public private divisions long considered sacred in the West need to be dismantled if Canada or any nation state is to develop a genuine mosaic that embraces fundamental differences instead of a melting pot that marginalizes An ethics of difference starts with a recognition of difference not as deviance or deficit that threatens but as otherness to connect with cherish and celebrate The book begins with the suggestion that our inability to come to terms with social plurality is not fundamentally the fault of religious differences and that a public private split inadequately deals with matters of basic difference It then explores how encouraging people to live out their respective faiths may open new possibilities for respectful honourable and just negotiations of contemporary dilemmas arising out of the multicultural fabric of Canadian life *Towards an Ethics of Community* introduces readers to some of the most challenging and divisive dilemmas we face in this increasingly pluralistic postmodern world issues such as family and domestic violence Aboriginal rights homosexuality and public policy and female genital mutilation This is a book truly global in scope and significance

**International Handbook of the Religious, Moral and Spiritual Dimensions in Education** Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This *International Handbook* presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

**The Warfare between Science & Religion** Jeff Hardin, Ronald L Numbers, Ronald A. Binzley, 2018-10-15 A very welcome volume of essays questioning the presumption of irreconcilable conflict between science and religion *British Journal for the History of Science* The conflict thesis the idea that an inevitable irreconcilable conflict exists between science and religion has long

been part of the popular imagination The Warfare between Science and Religion assembles a group of distinguished historians who explore the origin of the thesis its reception the responses it drew from various faith traditions and its continued prominence in public discourse Several essays examine the personal circumstances and theological idiosyncrasies of important intellectuals including John William Draper and Andrew Dickson White who through their polemical writings championed the conflict thesis relentlessly Others consider what the thesis meant to different religious communities including evangelicals liberal Protestants Roman Catholics Eastern Orthodox Christians Jews and Muslims Finally essays both historical and sociological explore the place of the conflict thesis in popular culture and intellectual discourse today Based on original research and written in an accessible style the essays in The Warfare between Science and Religion take an interdisciplinary approach to question the historical relationship between science and religion and bring much needed perspective to an often bitter controversy Contributors include Thomas H Aechtner Ronald A Binzley John Hedley Brooke Elaine Howard Ecklund Noah Efron John H Evans Maurice A Finocchiaro Frederick Gregory Bradley J Gundlach Monte Harrell Hampton Jeff Hardin Peter Harrison Bernard Lightman David N Livingstone David Mislin Efthymios Nicolaidis Mark A Noll Ronald L Numbers Lawrence M Principe Jon H Roberts Christopher P Scheitle M Alper Yal inkaya *Institutes of the Christian Religion* Emanuel Vogel Gerhart,1891

**The Disunity of American Culture** John C. Caiazza,2017-07-28 The Disunity of American Culture describes culture now when different forces are influencing it than in the past altering it to near incomprehensibility Identity issues have an effect on culture and politics more influential is the question of what support the state is obligated to provide the individual John C Caiazza seeks to explain how this situation came to be He begins with an explanation of the origins of Protestantism in America Caiazza describes how the American religion has declined and the recent responses the decline has provoked Caiazza follows with an analysis of science as it presently exists in American culture The work of three scientists prominent in their respective fields Steven Weinberg in physics E O Wilson in biology and Stanley Milgram in psychology are examined with respect to how their work has influenced culture The author examines the failure of America s school of philosophy pragmatism to explain the relationship between religion science and general culture even though its founders Charles S Peirce and William James made serious efforts to do so He concludes by making the case that there is a

contradiction between scientific reason and the claim of state power Caiazza argues that cultural disharmony will guarantee that the secular state never achieves the dominance over culture and political life it desires

**The Strength of Faith - Christian Omnibus** Johann Wolfgang von Goethe, Martin Luther, Henryk Sienkiewicz, Dante Alighieri, Henry Van Dyke, David Hume, James Allen, Ralph Waldo Emerson, Andrew Murray, John Bunyan, Grace Livingston Hill, Thomas Paine, Voltaire, Lew Wallace, John Milton, Charles M. Emilie Cady, Gregory of Nyssa, Pope Gregory I, Athanasius of Alexandria, Basil the Great, John of Damascus, Brother Lawrence, Arthur Pink, St. Thomas Aquinas, St. Augustine, 2023-11-22

The Christian Omnibus weaves an intricate tapestry of faith and theology through the profound thoughts and literary prowess of distinguished authors across the ages. Ranging from works that delve into the fervent personal spirituality of St. Teresa of Ávila to the grand theological explorations reminiscent of Thomas Aquinas, this collection celebrates the rich diversity inherent in Christian thought and writing. Whether through the pious simplicity of Brother Lawrence's reflections, the philosophical inquiries of Friedrich Nietzsche, or the narrative power found in Fyodor Dostoevsky's tales, the anthology captures a multitude of perspectives that contribute to its overarching theme of spiritual strength and faith. The contributions hail from a spectrum of renowned thinkers and writers, each lending unique insight into the historical and cultural milieu that shaped their works. From the Reformation's indomitable spirit exemplified by Martin Luther to the existential musings of Dostoevsky set against the backdrop of Imperial Russia, each voice represents a facet of the ongoing discourse on faith through time. The anthology's assembly of such diverse voices through history not only highlights the evolution of Christian thought but also presents a convergence of literary, philosophical, and theological ideals that define various movements in Western literature and belief. The Strength of Faith Christian Omnibus is an essential read for those looking to deepen their understanding of the interplay between faith and literature. This collection is a treasure trove for anyone interested in exploring the rich dialogues that unfold between vastly different thinkers, showcasing the vast array of insights garnered from centuries of religious and philosophical contemplation. It invites readers to not only appreciate the artistic merit of these works but also to engage with the profound questions they raise, serving as both an educational journey and a catalyst for introspection on the resilient nature of faith in the human experience.
