Inside/Outside Islamic Art and Architecture Saygin Salgirli, 2021-07-29 When we walk into a gallery we have a fairly good idea where the building begins and ends and inside while observing a painting we are equally confident in distinguishing between the painting proper and its frame and borders Yet things are often more complicated A building defines an exterior space just as much as an interior and what we perceive to be ornamental and marginal to a given painting may in fact be central to what it represents In this volume a simple question is presented instead of dichotomous separations between inside and outside or exterior and interior what other relationships can we think of The first book of its kind to grapple with this question *Inside Outside Islamic Art and Architecture* focuses on a wide spectrum of mediums and topics including painted manuscripts objects architectural decoration architecture and urban planning and photography Bringing together scholars with diverse methodologies who work on a geographical span stretching from India to Spain and Nigeria and across a temporal spectrum from the thirteenth to the twenty first century this original book also poses engaging questions about the boundaries of the field      The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the *Oxford Guide to Literature in English Translation* meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil's *Aeneid* which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the *Thousand and One Nights* or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators      The A to Z of Iran John H. Lorentz, 2010-04-14 Iran is a country with a deep and complex history Over several

thousand years Iran has been the source of numerous creative contributions to the spiritual and literary world and the site of many remarkable manifestations of material culture The special place that Iran has come to hold in contemporary historical events most recently as a center stage actor in the unfolding and interconnected drama of worldwide nuclear arms proliferation and terrorism is all the more reason to explore the characters and personality of Iran and Iranians The A to Z of Iran is designed to give the reader a quick and understandable overview of specific events movements people political and social groups places and trends Through its extensive chronology introduction bibliography appendixes and more than double the number of cross referenced dictionary entries as in the previous edition the work allows for considerable exploration of a number of historical and contemporary topics and issues In particular the modern period defined as 1800 present is covered extensively

**The Middle Ages** Frank N. Magill, 2012-11-12 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

**Iran and The West** Cyrus Ghani, 2013-09-05 First Published in 1987 this volume offers a bibliography of biographies autobiographies and books on contemporary politics by prominent 20th century figures on the topic of Iran

*In a Persian Mirror* M. R. Ghanoonparvar, 2010-07-05 The extreme anti Western actions and attitudes of Iranians in the 1980s astonished and dismayed the West which has characterized the Iranian positions as irrational and inexplicable In this groundbreaking study of images of the West in Iranian literature however M R Ghanoonparvar reveals that these attitudes did not develop suddenly or inexplicably but rather evolved over more than two centuries of Persian Western contact Notable among the authors whose works Ghanoonparvar discusses are Sadeq Hedayat M A Jamalzadeh Hushang Golshiri Gholamhoseyn Sa'edi Simin Daneshvar Moniru Ravanipur Sadeq Chubak and Jalal Al-e Ahmad This survey significantly illuminates the sources of Iranian attitudes toward the West and offers many surprising discoveries for Western readers not least of which is the fact that Iranians have often found Westerners to be as enigmatic and incomprehensible as we have believed them to be

**The Courts of the Deccan Sultanates** Emma J. Flatt, 2019-07-18 Illuminates the centrality of courtliness in the political and cultural life of the Deccan in the fifteenth and sixteenth centuries

Iran under the Mongols Denise Aigle, 2024-06-27 What were the effects of Mongol rule in Iran This book focuses on Shiraz and the province of Fars to provide a detailed political social and economic history of Ilkhanid rule from the first Mongol invasions in 1220 until the end of the Injuid Dynasty in 1357 Using a vast collection of sources Denise Aigle combines local and global approaches to integrate the history of the province into the whole administrative system Central is the thesis that Mongol rule caused a break in traditional

administrative patterns A dual administrative system was set up consisting of both Mongol and local Persian personnel directed from the court Charting the fortunes of each successive ruler her research shows that the failings of individual rulers as well as intriguing by Persian notables were the principal reasons for Shiraz and Fars s economic decline under the Mongols in comparison with the more successful neighbouring province of Kirman Iran Under the Mongols is a vital contribution to our understanding of the effects of Mongol rule in Iran The Memoirs of Shah Tahmasp I Shah Tahmasp I,2024-05-30 A remarkable first person narrative by a sixteenth century Iranian ruler the Memoirs of Shah Tahmasp I Safavid Ruler of Iran 1514 1576 originally written in Persian represent a vitally important primary source for the history of the Middle East in the period In particular the Memoirs shed light on the Safavid conflict with the Uzbeks and Ottomans which played a decisive role in shaping the modern frontiers of the region The Memoirs also represent an invaluable source for the internal political and religious life of the Safavid court and the ways in which Shah Tahmasp one of the most important rulers in Iranian history wished to be remembered and viewed This book represents the first English translation of this important text and is furnished with an extensive introduction and notes that situate the work in its literary and historical context

identity is determined in a country s metropolitan centres Given Russia s long tenure as a geographically and socially diverse empire however there is a certain distillation of peripheral experiences and ideas that contributes just as much to theories of national culture as do urban centred perspectives Writing at Russia s Border argues that Russian literature needs to be

reexamined in light of the fact that many of its most important nineteenth century texts are peripheral not in significance but in provenance Katya Hokanson makes the case that the fluid and ever changing cultural and linguistic boundaries of Russia's border regions profoundly influenced the nation's literature posing challenges to stereotypical or territorially based conceptions of Russia's imperial military and cultural identity A highly canonical text such as Pushkin's Eugene Onegin 1831 which is set in European Russia is no less dependent on the perspectives of those living at the edges of the Russian Empire than is Tolstoy's The Cossacks 1863 which is explicitly set on Russia's border and has become central to the Russian canon Hokanson cites the influence of these and other peripheral texts as proof that Russia's national identity was dependent upon the experiences of people living in the border areas of an expanding empire Produced at a cultural moment of contrast and exchange the literature of the periphery represented a negotiation of different views of Russian identity an ingredient that was ultimately essential even to literature produced in the major cities Writing at Russia's Border upends popular ideas of national cultural production and is a fascinating study of the social implications of nineteenth century Russian literature
