Negative Certainties Jean-Luc Marion, 2020-10-28 Now in paperback Jean Luc Marion's groundbreaking philosophy of human uncertainty In *Negative Certainties* renowned philosopher Jean Luc Marion challenges some of the most fundamental assumptions we have developed about knowledge that it is categorical predicative and positive Following Descartes Kant and Heidegger he looks toward our finitude and the limits of our reason He asks an astonishingly simple but profoundly provocative question in order to open up an entirely new way of thinking about knowledge Isn't our uncertainty our finitude and rational limitations one of the few things we can be certain about Marion shows how the assumption of knowledge as positive demands a reductive epistemology that disregards immeasurable or disorderly phenomena He shows that we have experiences every day that have no identifiable causes or predictable reasons and that these constitute a very real knowledge a knowledge of the limits of what can be known Establishing this negative certainty Marion applies it to four aporias or issues of certain uncertainty the definition of man the nature of God the unconditionality of the gift and the unpredictability of events Translated for the first time into English *Negative Certainties* is an invigorating work of epistemological inquiry that will take a central place in Marion's oeuvre *Principles of Muhammadan Law* Faiz Badrudin Tyabji, 1919 **Returning the Gift** Rebecca Colesworthy, 2018-11-10 From debates about reparations to the rise of the welfare state the decades following World War I saw a widespread turn across disciplines to questions about the nature and role of gifts What is a gift What do gifts mean and do Which individuals and institutions have the authority to give Marshalling wide ranging interdisciplinary research *Returning the Gift* argues that these questions centrally shaped literary modernism The book begins by revisiting the locus classicus of twentieth century gift theory the French sociologist Marcel Mauss's 1925 essay *The Gift: The Form and Reason for Exchange in Archaic Societies* His title notwithstanding the gift Mauss envisions is not primitive or pre capitalist but rather a distinctively modern phenomenon Subsequent chapters offer sustained nuanced readings of novels and nonfiction by Virginia Woolf Jean Rhys Gertrude Stein and H D from the 1920s to 1940s underscoring the ways their writing is illuminated by contemporaneous developments in the social sciences economics and politics while also making a case for their unique contributions to broader debates about gifts Not only do these writers insist that literature is a special kind of gift but they also pose challenges to the gift's feminization in the work of both their Victorian forebears and contemporary male theorists Each of these writers uses tropes and narratives of giving of hospitality sympathy reciprocity charity genius and kinship to imagine more egalitarian social possibilities under the conditions of the capitalist present The language of the gift is not as we might expect a mark of hostility to the market so much as a means of giving form to the society in market society of representing everyday experiences of exchange that the myth of the free market works even now to render unthinkable *Anthropologica*, 2000 **Talking God** Gary Gutting, 2016-11-22 Through interviews with twelve distinguished philosophers including atheists agnostics and believers *Talking God* works toward a

philosophical understanding and evaluation of religion Along the way Gary Gutting and his interviewees challenge many common assumptions about religious beliefs As tensions simmer and often explode between the secular and the religious forces in modern life the big questions about human belief press ever more urgently Where does belief or its lack originate How can we understand and appreciate religious traditions different from our own Featuring conversations with twelve skeptics atheists agnostics and believers including Alvin Plantinga Philip Kitcher Michael Ruse and John Caputo Talking God offers new perspectives on religion including the challenge to believers from evolution cutting edge physics and cosmology arguments both for and against atheism and meditations on the value of secular humanism and faith in the modern world Experts offer insights on Islam Buddhism and Hinduism as well as Judaism and Christianity Topical and illuminating Talking God gives readers a deeper understanding of faith today and how philosophers understand it From Talking God Some say Buddhism is not a religion because Buddhists don't believe in a supreme being This simply ignores the fact that many religions are not theistic in this sense Chess is a game despite the fact that it is not played with a ball after all Jay Garfield from chapter 10 Buddhism Religion Without Divinity Why think that the creator was all knowing and omnipotent Maybe the creator was a student god and only got a B minus on this project Louise Antony from chapter 2 A Case for Atheism There are a large number maybe a couple of dozen of pretty good theistic arguments None is conclusive but each or at any rate the whole bunch taken together is about as strong as philosophical arguments ordinarily get Alvin Plantinga from chapter 1 A Case for Theism If you cease to believe in a particular religious creed like Calvinism or Catholicism you have changed your mind and adopted a new position But if you lose faith everything is lost You have lost your faith in life lost hope in the future lost heart and you cannot go on John Caputo from chapter 3 Religion and Deconstruction

The Gift and its Paradoxes Dr Olli Pyyhtinen, 2014-02-14 Bringing social theory and philosophy to bear on popular movies novels myths and fairy tales The Gift and its Paradoxes explores the ambiguity of the gift it is at once both a relation and a thing alienable and inalienable present and poison Challenging the nature of giving as reciprocal the book engages critically with the work of Mauss and develops a new theory of the gift according to which the gift cannot be reduced to a model of exchange but must instead entail a loss or sacrifice Ultimately the gift is examined in the book as the impossible occurrence of gratuitous giving The Mahabharata of Krishna-Dwaipayana Vyasa Translated Into English Prose, 1891

Philosophy of Communication Briankle G. Chang, Garnet C. Butchart, 2012-08-10 Classical modern and contemporary philosophical writings that address the fundamental concepts of communication To philosophize is to communicate philosophically From its inception philosophy has communicated forcefully Socrates Plato and Aristotle talk a lot and talk ardently Because philosophy and communication have belonged together from the beginning and because philosophy comes into its own and solidifies its stance through communication it is logical that we subject communication to philosophical investigation This collection of key works of classical modern and contemporary philosophers brings communication back into philosophy's orbit It is the first anthology

to gather in a single volume foundational works that address the core questions concepts and problems of communication in philosophical terms The editors have chosen thirty two selections from the work of Plato Leibniz Hegel Husserl Heidegger Wittgenstein Benjamin Lacan Derrida Sloterdijk and others They have organized these texts thematically rather than historically in seven sections consciousness intersubjective understanding language writing and context difference and subjectivity gift and exchange and communicability and community Taken together these texts not only lay the foundation for establishing communication as a distinct philosophical topic but also provide an outline of what philosophy of communication might look like

Sacrifice and the Body John Dunnill, 2016-04-08 What is sacrifice For many people today the word has negative overtones suggesting loss or death or violence But in religions ancient and modern the word is linked primarily to joyous feasting which puts people in touch with the deepest realities How has that change of meaning come about What effect does it have on the way we think about Christianity How does it affect the way Christian believers think about themselves and God John Dunnill's study focuses on sacrifice as a physical event uniting worshippers to deity Bringing together insights from social anthropology biblical studies and Trinitarian theology Dunnill links to debates in sociology and cultural studies as well as the study of liturgy Through a positive view of sacrifice Dunnill contributes to contemporary Christian debates on atonement and salvation

My Encounters with the Spirit World J.B. Duncan, 2012-08-01 Do you know what its like to talk to spirits Have you ever seen a ghost or wondered what happens to our loved ones when they die Maybe youve sensed a presence in the house but not known how to deal with it Medium and Psychic Joyce B Duncan can not only talk with spirits she can see them too With over 40 years of spiritual and psychic encounters Joyce has met with many people touching their hearts and lives and connecting them with their loved ones on the other side One day her son asked her to stop these devil practices and send the spirits away Because she loved him she did closing the veil shed worked so hard to open In 1997 her son died in tragic circumstances only now she could neither see him or speak to him as once she could Devastated she begged Spirit to return her gifts but it seemed her prayers went unanswered as time dragged on Then two years ago a Spirit lady came to her and said she must record her spiritual experiences in a book for Spirit has a message that must be shared among the developing psychics and mediums everywhere one she herself knew all too well Never ever give up your gifts She began writing straight away for she was also promised that for every account recorded she would receive one of her gifts back My Encounters with the Spirit World is the realization of her lifes dream a journey of happiness and sadness a wealth of knowledge and often deeply personal Share the experience with her

The Gift in Sixteenth-century France Natalie Zemon Davis, 2000 Must a gift be given freely How can we tell a gift from a bribe Are gifts always a part of human relations or do they lose their power and importance once the market takes hold and puts a price on every exchange These questions are central to our sense of social relations past and present and they are at the heart of this book by one of our most interesting and renowned historians In a wide ranging look at gift giving in early modern France Natalie Zemon Davis reveals the ways that gift exchange is crucial to understanding alliance and conflict in family life economic relations politics and religion Moving from the king s bounty to the beggar s alms her book explores the modes and meanings of gift giving in every corner of sixteenth century French society In doing so it arrives at a new way of considering gifts what Davis calls the gift register as a permanent feature of social relations over time Gift giving with its own justifications and forms in different periods can create amity or lead to quarrels and trouble It mixes the voluntary and the obligatory with interested bribery at one extreme and inspired gratuitousness at the other Examining gifts both ethnographically through archives letters and other texts and culturally through literary ethical and religious sources Davis shows how coercive features in family life and politics rather than competition from the market disrupted the gift system This intriguing book suggests that examining the significance of gifts can not only help us to understand social relations in the past but teach us to deal graciously with each other in the present
