My Life in Advertising Claude C. Hopkins, 1917 This book is not written as a personal history but as a business story I have tried to avoid trivialities and to confine myself to matters of instructive interest The chief object behind every episode is to offer helpful suggestions to those who will follow me And to save them some of the midnight groping which I did One night in Los Angeles I told this story to Ben Hampton writer publisher and advertising man He listened for hours without interruption because he saw in this career so much of value to beginners He never rested until he had my promise to set down the story for publication He was right Any man who by a lifetime of excessive application learns more about anything than others owes a statement to successors The results of research should be recorded Every pioneer should blaze his trail That is all I have tried to do When this autobiography was announced as a serial many letters of protest came to me Some of them came from the heads of big businesses which I had served Behind them appeared the fear that I would claim excessive credit to the hurt of others pride I rewrote some of the chapters to eliminate every possible cause for such apprehensions

Claude C. Hopkins' Scientific Advertising With My Life in Advertising Robert C. Worstell, Claude C. Hopkins, 2020-05-25 *Scientific Advertising* is still regarded as one of the all time great classics in advertising This book was originally written in 1923 and is considered by many to be the greatest book on advertising ever written Test marketing copy research coupon sampling market research and many more of the standard marketing techniques businesses are currently using can all be traced back to the original version of this book Jay Abraham highly regarded as one of the greatest marketing consultants of the 20th century says that he has read the original *Scientific Advertising* by Claude Hopkins over 50 times and has learned something new every time he has read from it As you read and apply this realize that the growth of your business can no longer be a hit and miss operation where you could be digging just feet or inches away from striking the mother lode in your industry but still be painfully unaware it's there You can turn your business marketing into step by step Scientific growth of where you will know exactly what works for your business promotion and what doesn't work Claude C Hopkins 1866-1932 was one of the great advertising pioneers He believed advertising existed only to sell something and should be measured and justified by the results it produced To track the results of his advertising he used key coded coupons and then tested headlines offers and propositions against one another He used the analysis of these measurements to continually improve his ad results driving responses and the cost effectiveness of his clients advertising spend His classic book *Scientific Advertising* was published in 1923 following his retirement from Lord Thomas where he finished his career as president and chairman This book was followed in 1927 by his

autobiographical work My Life in Advertising From the First Great Copywriter The time has come when advertising has in some hands reached the status of a science It is based on fixed principles and is reasonably exact The causes and effects have been analyzed until they are well understood The correct method of procedure have been proved and established We know what is most effective and we act on basic law Advertising once a gamble has thus become under able direction one of the safest business ventures Certainly no other enterprise with comparable possibilities need involve so little risk Therefore this book deals not with theories and opinions but with well proved principles and facts The book is confined to establish fundamentals Under these conditions where they long exist advertising and merchandising become exact sciences Every course is charted The compass of accurate knowledge directs the shortest safest cheapest course to any destination We hope that this book will throw some new lights on the subject Claude C Hopkins This classic is still in daily use by top entrepreneurs and corporations Timeless trustworthy classic Learn what you need to know to get a leap on your fellow advertising and marketing creators By studying what everyone else should know and may This collection containing Scientific Advertising My Life in Advertising along with A Common Sense Approach to Marketing Get Your Copy Now My Life In Advertising - Masters of Marketing Secrets Robert C. Worstell, Claude C. Hopkins, 2014-04-13 This book is not written as a personal history but as a business story I have tried to avoid trivialities and to confine myself to matters of instructive interest The chief object behind every episode is to offer helpful suggestions to those who will follow me And to save them some of the midnight groping which I did My only claim for credit is that I have probably worked twice as long as anybody else in this field I have lived for many years in a vortex of advertising Naturally I learned more from experience than those who had a lesser chance Now I want that experience so far as possible to help others avoid the same difficult climb Every pioneer should blaze his trail That is all I have tried to do I set down these findings solely for the purpose of aiding others to start far up the heights I scaled Then with the efforts I here describe I hope you can now attain some peaks in advertising beyond any of us to date Claude C Hopkins SUMMARY Edition Shortcut (author), 1901 **My Life in Advertising** Claude C Hopkins, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1917 edition Excerpt Chapter Seventeen SCIENTIFIC ADVERTISING THROUGH a book I wrote my name has become connected with Scientific Advertising That is advertising based on fixed principles and done according to fundamental laws I learned those principles through thirty six years of traced advertising Through conducting campaigns on some hundreds of different lines Through comparing on some lines by keyed returns thousands of pieces of copy Always since I sent out my first thousand letters to the time when 5 000 000 yearly was being spent on my copy I have had to face records on cost and result So I have naturally proved out many fundamentals which should always be applied I have little respect for most theories of advertising because they have not been proved They are based on limited experiences on exceptional conditions Some lines seem to succeed on

methods of advertising which every traced return proves impossible The reasons for success have little to do with the advertising The line may have succeeded in spite of the advertising Many unadvertised lines become highly successful because of some wanted quality which people soon discover Or because dealers are in some way induced to feature it Or because of a name which in itself tells an appealing story Cream of Wheat is an example The name alone tells the story So with Spearmint Gum All successful gums have succeeded through fortunate names There is almost no story to tell There are no great distinctions The very men who succeeded with one name failed again and again with others Any conclusions drawn from such experiences are bound to lead others astray The cases where they apply are rare Safe principles are evolved only by those who know with reasonable exactness what *My Life in Advertising (Classic Reprint)* Claude C.
