Natural Law In The Spiritual World:

Natural Law in the Spiritual World Henry Drummond, 2014-03 This Is A New Release Of The Original 1922 Edition

Natural Law in the Spiritual World Henry Drummond, 2019-10-11 *Natural Law in the Spiritual World* is a 1883 work by Scottish writer and evangelist Henry Drummond. Within it, Drummond explores the connections between the world of religion and spirituality and the physical world. He maintains that the ostensible dichotomy between the spiritual and the physical is in fact illusory and that faith is actually aligned with science. Published only a few decades subsequent to Darwin's landmark *On the Origin of Species*, Drummond's attempt to reconcile evolution and God constitutes one of the most significant books related to Christian faith and scientific progress. Contents include: Religion, Analysis of Introduction, Biogenesis, Degeneration, Growth, Death, Mortification, Eternal Life, Environment, Conformity to Type, Semi parasitism, Parasitism, Classification, etc. Rev. Prof. Henry Drummond (1851-1897) was a Scottish biologist, evangelist, lecturer, and writer. He had a considerable religious influence on his own generation, and his sermon *The Greatest Thing in the World* is still popular within Christian circles. Other notable works by this author include *Natural Law in the Spiritual World* (1883), *Tropical Africa* (1888), and *The Greatest Thing in the World: an Address* (1890). Many vintage books such as this are becoming increasingly scarce and expensive. It is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition, complete with an essay on religion by James Young Simpson.

An argument which has attracted serious readers as Drummond shares thoughts on scientific logics in the physical world into the spiritual state of being. Prof. Henry Drummond was a Scottish evangelist, biologist, writer, and lecturer. His writings were too nicely adapted to the needs of his own day to justify the expectation that they would long survive it, but few men exercised more religious influence in their own generation, especially on young men.

Natural Law in the Spiritual World Henry Drummond, 2017-03-18 An indirect response to Darwin's landmark work *On the Origin of Species*, Drummond shows that faith and science actually go more hand in hand than most of us as theologians are willing to accept. By going over the facts of science, Drummond is able to show how the two relate so that we can reconcile our Christian beliefs in the world that is obsessed with the Scientific Method.

The Natural Law in the Spiritual World Henry Drummond, 2019-06-03 In *Natural Law in the Spiritual World*, Henry Drummond deals with those questions by exploring the relation of religion and spirituality with the physical world. He argues that the disconnect between the spiritual and the physical was entirely illusory and that faith was by no means in conflict with science. Contents: Biogenesis, Degeneration, Growth, Death, Mortification, Eternal Life, Environment, Conformity to Type, Semi Parasitism, Parasitism, Classification.

Natural Law in the Spiritual World, 1889

Natural Law in the Spiritual World Henry Drummond, 2017-05-05 No class of works is received with more suspicion I had almost said derision than those which deal with Science and Religion Science is tired of reconciliations between two things which never should have been contrasted Religion is offended by the patronage of an ally which it professes not to need and the critics have rightly discovered that in most cases where Science is either pitted against Religion or fused with it there is some fatal misconception to begin with as to the scope and province of either But although no initial protest probably will save this work from the unhappy reputation of its class the thoughtful mind will perceive that the fact of its subject matter being Law a property peculiar neither to Science nor to Religion at once places it on a somewhat different footing
