Natural Life Extension Leon Chaitow,1992 *Life Extension and Tomorrow's Elderly* United States. Congress. House. Select Committee on Aging. Subcommittee on Human Services,1978 *Regulating the End of Life* Sue Westwood,2021-09-09 *Regulating the End of Life* Death Rights is a collection of cutting edge chapters on assisted dying and euthanasia written by leading authors in the field Providing an overview of current regulation on assisted dying and euthanasia both in the UK and internationally this book also addresses the associated debates on ethical moral and rights issues It considers whether just as there is a right to life there should also be a right to death especially in the context of unbearable human suffering The unintended consequences of prohibitions on assisted dying and euthanasia are explored and the argument put forward that knowing one can choose when and how one dies can be life extending rather than life limiting Key critiques from feminist and disability studies are addressed The overarching theme of the collection is that death is an embodied right which we should be entitled to exercise with appropriate safeguards as and when we choose Making a novel contribution to the debate on assisted dying this interdisciplinary book will appeal to those with relevant interests in law socio legal studies applied ethics medical ethics politics philosophy and sociology **A World Growing Old** Daniel Callahan,1996-08-01 For much of the developed world health care for a surging elderly population looms as one of the most daunting problems of the coming decade In this book contributors from diverse disciplinary backgrounds and countries discuss resource allocation for the elderly and debate plans for the years ahead Essays focus on five general issues the meaning of old age the goals of medicine and health care for the elderly the balance between the needs of the young and old the pressures of other social priorities and the role of families especially the burden on women in long term care In consideration of the difficult moral and practical issues involved the editors conclude the volume with a special report containing policy recommendations from representatives of eight countries the United States Belgium the Czech Republic Germany Hungary the Netherlands Sweden and the United Kingdom This important volume will be of interest to policymakers and a broad spectrum of health care professionals as well as to anyone interested in the fate of the elderly or in coming health care challenges **Look Younger, Live Longer** Francisco Contreras,2016-06-07 Are you a baby boomer facing the hard facts of aging in your own life Or are you young and determined to stay that way for as long as possible Genesis 6 3 suggests that God set the human life span at one hundred twenty years Breakthrough scientific research has unlocked many of the secrets of aging proving the biblical age limitation to be correct Dr Francisco Contreras offers proven research that will improve your health and perhaps reverse any illness or disease once and for all According to Dr Contreras you have the power right now to greatly increase your life span and to feel better and look younger **Our Changing Journey to the End** Christina Staudt,J. Harold Ellens,2013-11-12 This novel cross disciplinary collection explains how dying death and grieving have changed in America for better or worse since the turn of the millennium What does dying with dignity mean in

a diverse society with rapidly advancing technology an aging population and finite resources In this fascinating collection scholars from across the nation illuminate the remarkable changes that have taken place in recent years are now underway and loom on the horizon as they lead readers on an exploration of the ways Americans think about and handle dying and death Volume 1 New Paths of Engagement addresses changes in the circumstances and expressions of death dying and grief in 21st century America Volume 2 New Venues in the Search for Dignity and Grace delves into the challenges inherent in creating a medical and social system that allows for an optimal end of life experience for all and proposes ways in which society can be reshaped to move toward that ideal

The Quest for Human Longevity Lewis D. Solomon, 2006 Over the past decade impressive results have been achieved in targeting the mechanisms and pathways of aging Solomon considers these scientific studies by exploring the principal biomedical and anti aging techniques In this book he considers cutting edge research on mental enhancements and assesses the scientific doubts of skeptics

Hope of Living Long and Well Francisco Contreras, 2000 It s possible According to noted oncologist and surgeon Francisco Contreras M D research reveals you can slow your aging process and live longer healthier and happier than ever Discover the latest medical research on Aging Diet and Weight Lifestyle Medical Intervention Spirituality Nutrition If you are ready to live long and well and to add significant years to your life then the practical instructions in this book are for you Join with Dr Contreras and learn the options you have

The Ethical Imagination Margaret Somerville, 2009 Developing a boundary crossing ethics by paying attention to our stories myths and moral intuition

Beyond Human Eve Herold, 2016-08-16 Never before in the history of medicine has mankind faced such hope and peril as those of us poised to embrace the radical medical technologies of today Eve Herold s *Beyond Human* examines the medical technologies taking shape at the nexus of computing microelectronics engineering nanotechnology cellular and gene therapies and robotics These technologies will dramatically transform our lives and allow us to live for hundreds of years Yet with these blessings come complicated practical and ethical issues some of which we can predict but many we cannot *Beyond Human* taps the minds of doctors scientists and engineers engaged in developing a host of new technologies while telling the stories of some of the patients courageously testing the radical new treatments about to come into the market *Beyond Human* asks the difficult questions of the scientists and bioethicists who seek to ensure that as our bodies and brains become ever more artificial we hold onto our humanity In this new world will everyone have access to technological miracles or will we end up living in a world of radical disparities How will society accommodate life spans that extend into hundreds of years Will we and our descendants be able to bring about the dream of a future liberated by technology or will we end up merely serving the machines and devices that keep us healthy smart young and alive

Setting Limits Daniel Callahan, 1995-03-01 A provocative call to rethink America s values in health care

Financial Security and Personal Wealth Lewis D. Solomon, 2017-07-05 America s elderly population is soaring presenting numerous challenges for policymakers in the United States Other developed nations with aging populations face similar problems There

will be fewer workers relative to retirees in coming decades and the elderly are also expected to live longer The impact of these demographic changes in the United States is likely to be challenging especially for America s system of social security Solomon offers new perspectives on how to meet the future costs of social security without bankrupting the next generation or gravely damaging the U S economy He also shows more broadly how to provide for the financial security of America s senior populations Over the past two decades primary responsibility for providing a financially adequate retirement has shifted from the federal government and employers to individuals For most Americans social security alone will not provide enough income Most companies have shed their pension plans for 401 k plans to which companies and employees contribute and in which participants must make their own investment decisions Consequently achieving financial security in retirement has increasingly become one s personal responsibility Solomon deals extensively with the politics of social security past and present He examines the presidential leadership of Franklin D Roosevelt and Ronald Reagan both of whom revived the nation s spirit in times of crisis both of whom introduced economic policies that remain controversial to the present day He also considers in detail contemporary efforts to rethink social security focusing on fundamental reform of the social security system and the expansion and simplification of employer sponsored retirement plans and individual retirement arrangements Richly textured informed and informative Financial Security and Personal Wealth encompasses history demography political economy public finance social policy *The Reform Advocate* ,1921 **Handbook of Medical Sociology, Sixth Edition** Chloe E. Bird,Peter Conrad,Allen M. Fremont,Stefan Timmermans,2010-11-29 The latest version of an important academic resource published about once a decade since 1963 *Health Care for an Aging Population* Chris Hackler,1994-07-28 This volume examines one of the most important policy issues to be faced as policymakers address both current and future health care needs the allocation of health care resources for an aging population The first part looks at the role of the aged in society what justice requires of the young toward the old and of the old toward the young the source of rising health care costs and the need to control medical spending The second part focuses on dramatic and controversial proposals by Daniel Callahan and others to control medical spending in the next century by rationing life prolonging treatment according to age Concluding chapters provide concrete proposals for a system that solves our immediate problems of cost and access while preparing for the extraordinary needs of an aging population This book explores proposed changes in the U S health care system to meet unprecedented demand expected early in the next century when the baby boom generation reaches retirement age and eligibility for Medicare A focal point is the possibility of withholding publicly funded life prolonging medical care from the very old **RANN 2: Improving government responsiveness to public needs** ,1977 **Aging** Harry R. Moody,2010 The sixth edition of this student friendly textbook provides both a thorough explanation of the issues as well as current research and controversies exploring health care socioeconomic trends and the life course This thoroughly revised new edition contains nine new readings over 35 new photographs and an instructor sresource CD **ARE WE**

READY TO LIVE 150 YEARS DAVID SANDUA,2024-12-04 In the near future the possibility of living up to 150 years transitions from utopia to scientific and social ambition Advances in biotechnology nanotechnology regenerative medicine and genetic editing have revolutionized the understanding of human aging igniting ethical economic and cultural debates This book delves into the multifaceted realm of prolonged longevity from its biological foundations to its societal implications covering topics such as the impact of extended life on family structures environmental sustainability and workforce dynamics Through an interdisciplinary lens it invites readers to reflect on the balance between quantity and quality of life posing a provocative question are we truly prepared for a society where living 150 years becomes the norm **A Multidisciplinary Approach to Embodiment** Nancy K Dess,2020-10-22 This is a collection of pithy and accessible essays on the nature and implications of human embodiment which explore the concept of human being in the most unprecedented manner through seemingly disparate academic disciplines With contributions from key researchers from around the world this book engages with embodiment through the lens of new materialism It eschews the view that human beings are debased by materiality and creates a vision of humans as fully embodied creatures situated in a richly populated living planet The essays in this volume will illustrate and foster new materialist thought in areas including psychology astrophysics geology biology sociology philosophy and the performing arts The book s engaging and enlightening content is made accessible to readers with relatively little background in the various academic disciplines This is an important and fascinating text which invites readers to explore and expand their understanding and experience of embodiment It will be particularly useful for postgraduate students and scholars of theoretical and philosophical psychology philosophy of the mind and social and cultural anthropology *The Fountain of Youth* Stephen G. Post,Robert H. Binstock,2004-04-08 If effective anti aging interventions were achieved they would likely bring about profound alterations in the experiences of individual and collective life What if modern scientists could find the modern equivalent to the Fountain of Youth that Ponce de Leon sought This book addresses this question by exploring the ramifications of possible anti aging interventions on both individual and collective life Through a series of essays it examines the biomedical goal of prolongevity from cultural scientific religious and ethical perspectives offering a sweeping view into the future of aging
