Romantic naturalists and early environmentalists Dewey W Hall asserts that William Wordsworth and Ralph Waldo Emerson were transatlantic literary figures who were both influenced by the English naturalist Gilbert White In Part 1 Hall examines evidence that as Romantic naturalists interested in meteorology Wordsworth and Emerson engaged in proto environmental activity that drew attention to the potential consequences of the locomotive's incursion into Windermere and Concord In Part 2 Hall suggests that Wordsworth and Emerson shaped the early environmental movement through their work as poets turned naturalists arguing that Wordsworth influenced Octavia Hill's contribution to the founding of the United Kingdom's National Trust in 1895 while Emerson inspired John Muir to spearhead the United States National Parks movement in 1890 Hall's book traces the connection from White as a naturalist turned poet to Muir as the quintessential early environmental activist who camped in Yosemite with President Theodore Roosevelt Throughout Hall raises concerns about the growth of industrialization to make a persuasive case for literature's importance to the rise of environmentalism      **Politically**

Hoogland, 2013-04-09 The prairie dog is a colonial keystone species of the grassland ecosystem of western North America Myriad animals regularly visit colony sites to feed on the grass there to use the burrows for shelter or nesting or to prey on the prairie dogs Unfortunately prairie dogs are disappearing and the current number is only about 2% of the number encountered by Lewis and Clark in the early 1800s Part I of Conservation of the Black Tailed Prairie Dog summarizes ecology and social behavior for pivotal issues such as when prairie dogs breed how far they disperse how they affect other organisms and how much they compete with livestock Part II documents how loss of habitat poisoning plague and recreational shooting have caused the precipitous decline of prairie dog populations over the last 200 years Part III proposes practical solutions that can ensure the long term survival of the prairie dog and its grassland ecosystem and also are fair to private landowners We cannot expect farmers and ranchers to bear all the costs of conservation while the rest of us enjoy all the benefits With 700 references 37 tables 75 figures and photographs and a glossary Conservation of the Black Tailed Prairie Dog is a unique and vital contribution for wildlife managers politicians environmentalists and curious naturalists A Conservative

Environmentalist Thomas G. Smith, 2024-06-07 A wealthy textile titan from Carlisle Pennsylvania Frank Masland Jr was an ardent political conservative and an equally fervent conservationist who was well known and highly respected in the mid twentieth century environmental preservation community This eye opening biography charts Masland's life work telling the story of how he and fellow Republicans worked with Democrats to expand the national park system preserve wild country and protect the environment Though a conservative conservationist appears to be a contradiction in terms today this was not necessarily the case when Masland and his compatriots held sway Conservatives Masland insisted had a duty to be good stewards of the earth for present and future generations and they worked closely with members of both parties in Congress and nonpolitical conservation groups to produce landmark achievements When conservatives turned against

environmentalism during the Reagan presidency Masland refused to join what historians have termed the Republican reversal During his long life of nearly a hundred years Masland used his voice influence experiences with nature and considerable wealth to champion environmental causes at the national state and local levels Engaging informative and at times eyebrow raising this portrait of a passionately anti statist nature loving Republican environmentalist documents the history of the twentieth century conservation movement and reminds us of a time when conservative Republicans could work with liberal Democrats to protect the environment
