The Tragedy of Hector

Expanded Edition

James M. Redfield

Nature And Culture In The Iliad

Mark Payne

Nature And Culture In The Iliad:

Nature and Culture in the Iliad James M. Redfield, 1994 By focusing on the story of Hector James M Redfield presents an imaginative perspective not only on the Iliad but also on the whole of Homeric culture In an expansive discussion informed by a reinterpretation of Aristotle s Poetics and a reflection on the human meaning of narrative art the analysis of Hector leads to an inquiry into the fundamental features of Homeric culture and of culture generally in its relation to nature Through Hector as the true tragic hero of the poem the events and themes of the Iliad are understood and the function of tragedy within culture is examined Redfield s work represents a significant application of anthropological perspectives to Homeric poetry Originally published in 1975 University of Chicago Press this revised edition includes a new preface and concluding chapter by the author

Nature and Culture in the Iliad James M. Redfield, 1978 By focusing on the story of Hector James M Redfield presents an imaginative perspective not only on the Iliad but also on the whole of Homeric culture In an expansive discussion informed by a reinterpretation of Aristotle s Poetics and a reflection on the human meaning of narrative art the analysis of Hector leads to an inquiry into the fundamental features of Homeric culture and of culture generally in its relation to nature Through Hector as the true tragic hero of the poem the events and themes of the Iliad are understood and the function of tragedy within culture is examined Redfield s work represents a significant application of anthropological perspectives to Homeric poetry Originally published in 1975 University of Chicago Press this revised edition includes a new preface and concluding chapter by the author

Nature and Culture in the Iliad James M. Redfield, 2004 **Nature and culture in the Iliad: the tragedy** James M Redfield, 1975 *Tragic Views of the Human Condition* Lourens Minnema, 2013-06-06 Can tragic views of the human condition as known to Westerners through Greek and Shakespearean tragedy be identified outside European culture in the Indian culture of Hindu epic drama In what respects can the Mahabharata epic s and the Bhagavadgita s views of the human condition be called tragic in the Greek and Shakespearean senses of the word Tragic views of the human condition are primarily embedded in stories Only afterwards are these views expounded in theories of tragedy and in philosophical anthropologies Minnema identifies these embedded views of human nature by discussing the ways in which tragic stories raise a variety of anthropological issues issues such as coping with evil suffering war death values power sacrifice ritual communication gender honour injustice knowledge fate freedom Each chapter represents one cluster of tragic issues that are explored in terms of their particular Greek English Indian settings before being compared cross culturally In the end the underlying question is are Indian views of the human condition very different from Western views *Nature and Culture in Western Discourses* Stephen Horgan, 2014-04-08 How unique is man How much are we bound by a common nature To what extent is culture an expression of instinct Such questions have haunted the development of social theory In this fascinating book Stephen Horgan argues that our thinking on these matters has been bedevilled by the enlightenment distinction between nature and culture He criticizes this on the grounds that terms

such as nature culture human and animal are ambiguous He uses the themes of wildness and primitivism and cases of feral children to illustrate his argument

The Odyssey of Political Theory Patrick J. Deneen, 2003-04-14 This path breaking and eloquent analysis of The Odyssey and the way it has been interpreted by political philosophers throughout the centuries has dramatic implications for the current state of political thought This important book offers readers original insights into The Odyssey and it provides a new understanding of the classic works of Plato Rousseau Vico Horkheimer and Adorno Through his analysis Patrick J Deneen requires readers to rethink the issues that are truly at the heart of our contemporary Culture Wars and he encourages us to reassess our assumptions about the Western canon s virtues or viciousness Deneen s penetrating exploration of Odysseus s and our own enduring battles between the dual temptations of homecoming and exploration patriotism and cosmopolitanism and relativism and universality provides an original perspective on contentious debates at the center of modern political theory and philosophy

The Traditional Phrase in Homer Richard Sacks, 1987 This study attempts to bridge the now classic gap between fixed form and functioning context which continues to limit our understanding of the Homeric phrase The first part of the study uses the presence of Homeric phrases in other Greek poetry especially the notoriously Homeric Theognis 237 254 to help identify potentially significant phrases The second part considers the epithets of Hector in an attempt to re examine Parry s notion of traditional fixed epithets and their importance for understanding the Iliad and the Odyssey The author offers original interpretations of the workings of the traditional phrase in Homer and also of Theognis 237 254 and of the Iliad s much debated characterization of Hector Along the way Sacks suggests how his method may help with other problems including contested emendations in Homer the relationship of the Iliad and the Odyssey and the relationship between epic and other genres The central concern of the book however is the traditional artistry of Homer

The Early Amazons Josine Blok, 2015-08-27 The Early Amazons offers a new understanding of the ancient Amazon myth situating mythical representations in the realm of cultural history The first section examines how the Amazons have presented a challenge to views on history myth and gender in classical mythology from the late eighteenth century up to the impact of structuralism Topics included are nineteenth century historiography and the interest in linguistics The second section sheds new light on the culture of archaic Greece offering a coherent assessment of literary and visual representations Taking mythical narrative as a form of oral storytelling it shows the emergence of the Amazon motif and its meaning in the world of epic Iconographical analysis reveals how the visual arts have made a contribution of their own to the imaginary presence of the Amazons

The Animal Part Mark Payne, 2010-10-15 How can literary imagination help us engage with the lives of other animals The question represents one of the liveliest areas of inquiry in the humanities and Mark Payne seeks to answer it by exploring the relationship between human beings and other animals in writings from antiquity to the present Ranging from ancient Greek poets to modernists like Ezra Pound and William Carlos Williams Payne considers how writers have used verse to communicate the experience of animal suffering created analogies between human

and animal societies and imagined the kind of knowledge that would be possible if human beings could see themselves as animals see them The Animal Part also makes substantial contributions to the emerging discourse of the posthumanities Payne offers detailed accounts of the tenuousness of the idea of the human in ancient literature and philosophy and then goes on to argue that close reading must remain a central practice of literary study if posthumanism is to articulate its own prehistory For it is only through fine grained literary interpretation that we can recover the poetic thinking about animals that has always existed alongside philosophical constructions of the human In sum The Animal Part marks a breakthrough in animal studies and offers a significant contribution to comparative poetics

Encompassing Nature Robert Mitchell Torrance,1998 This first anthology of its kind presents the wonder passion and inspiration of diverse writings about the natural world Starting from earliest times ENCOMPASSING NATURE integrates a wide range of texts mythical religious poetic philosophical and scientific chosen for variety literary quality and historical importance This landmark work broadens the frame of reference for nature writing

Saving the City Malcolm Schofield,2003-09-02 Saving the City provides a detailed analysis of the attempts of ancient writers and thinkers from Homer to Cicero to construct and recommend political ideals of statesmanship and ruling of the political community and of how it should be founded in justice Malcolm Schofield debates to what extent the Greeks and Romans deal with the same issues as modern political thinkers

The Trojan Horse and Other Stories Julia Kindt,2024-01-11 How does the non human help define the human This powerful exploration of ten mythical creatures reveals who we really are

Holding a Mirror up to Nature James Gilligan,David A.J. Richards,2021-12-02 Shakespeare reveals the causes and consequences of violence more profoundly than any social or behavioural scientist has ever done

Homer and the Tradition of Political Philosophy Peter J. Ahrensdorf,2022-08-25 In this book Peter Ahrensdorf explores an overlooked but crucial role that Homer played in the thought of Plato Machiavelli and Nietzsche concerning notably the relationship between politics religion and philosophy and in their debates about human nature morality the proper education for human excellence and the best way of life By studying Homer in conjunction with these three political philosophers Ahrensdorf demonstrates that Homer was himself a philosophical thinker and educator He presents the full force of Plato s critique of Homer and the paramount significance of Plato s achievement in winning honor for philosophy Ahrensdorf also makes possible an appreciation of the powerful concerns expressed by Machiavelli and Nietzsche regarding that achievement By uncovering and bringing to life the rich philosophic conversation among these four foundational thinkers Ahrensdorf shows that there are many ways of living a philosophic life His book broadens and deepens our understanding of what a philosopher is

Culture: A Drama of Nature and Person Piotr Jaroszyński,2023-12-11 This monograph represents a rare classical philosophical approach to culture It is grounded in philosophical realism and emphasizes personalism as a true achievement of philosophical anthropology Employing the apparatus of the history of philosophy science and religion the author demonstrates the immense scope of the drama unfolding within human culture In

a classical approach evaluation is inevitable with regard to various theories of culture human culture as such and all its main actors Jaroszy ski s work shows that realistic study of what it means to be a human person leads to the most comprehensive understanding of culture as it is and should be

Thinking the Greeks Bruce M. King, Lillian Doherty, 2018-07-27 This volume from an international and interdisciplinary cohort of scholars offers independent minded essays about central Greek texts and about the relation of social theory and comparative method to the study of archaic and classical Greek literature It is in honour of James M Redfield whose innovative and theoretically informed work has been a touchstone for the contributors it includes an Introduction that discusses Redfield s work as well as a complete Bibliography of Redfield s scholarship The volume is divided into three parts on Homer Plato in conversation with epic tragedy and comedy and finally reception and transmission An exploration of the dialectical relationship between literary genre and social form animates many of the essays Drawing on work in anthropology linguistics sociology art history and philosophy this volume offers ground breaking perspectives on the study of Greek literature It will be an invaluable resource to students and researchers alike

The Hero's Quest and the Cycles of Nature Rachel S. McCoppin, 2016-10-25 This examination of the heroic journey in world mythology casts the protagonist as a personification of nature a botanical hero one might say who begins the quest in a metaphorical seed like state then sprouts into a period of verdant strength But the hero must face a mythic underworld where he or she contends with mortality and sacrifice embracing death as a part of life For centuries humans have sought superiority over nature yet the botanical hero finds nothing is lost by recognizing that one is merely a part of nature Instead a cyclical promise of continuous life is realized in which no element fully disappears and the hero s message is not to dwell on death

The Future of the Past Georgios K. Giannakis, Theodore Papanghelis, Antonios Rengakos, 2024-10-07 This collective volume contains 27 original studies that address in a critical way the position of classical studies in the twenty first century and its challenges as captured in the oxymoron of the theme title the future of the past The relevance of classical antiquity is reflected in all aspects of modern life the sciences the linguistic forms literary expressions cultural tradition religion and ethics philosophical thinking modes of argument political theory history the arts and an entire host of other areas in a word much of what modern man is As the conversation between past and present is best demonstrated at the intersection of different disciplines and cultural trends interdisciplinary and intercultural topics are discussed in the essays The contributions are organized in thematic groups according to the topics and sub topics covered and explore new ways of viewing the values of the classical past and their relevance to the present and future of societies The work is of special relevance to scholars interested in classical studies ancient history critical thinking the reception of classical ideas in the modern world and the relation of the past with the present and the future of humanity

Homer and the Sacred City Stephen Scully, 1990 The importance of the polis in Homeric literature is most evident in the Iliad a poem concerned in large measure with the holy city of Troy Stephen Scully here deepens our understanding of both the poetic and the social

significance of the city in Homer through a close analysis of the poem's formulaic language. Drawing on scholarship in literary studies, archaeology, and comparative religion, Scully demonstrates that it is the urban setting of the *Iliad* as well as the collision of the individual fates of its characters which generates its most profound tragic themes.
