The Nature and Destiny of Man Reinhold Niebuhr, 1945 *Nature and Destiny of Man* Reinhold Niebuhr, 1980-11 Library of Liberal Arts title *The Nature and Destiny of Man* Reinhold Niebuhr, 1949 *God's Patience and our Work* Ben Fulford, 2024-02-28 In *God's Patience and our Work* Ben Fulford argues that Hans Frei's theology and ethics offers unheralded but valuable resources for thinking about the social and political engagement of Christian communities in pluralistic societies in light of hope in Jesus Christ He shows how Frei's project of recovering the conditions for and shape of a generous orthodoxy runs through his work offering broad flexible vision of Christian identity ethical responsibility and humanistic witness focused in the person and presence of Jesus Christ In dialogue with liberation theologies Fulford draws from Frei an account of divine patience and providence to frame hopeful pragmatic Christian participation in work for dignity justice and penultimate reconciliation rooted in new and deeper contextual reading of his work

The Nature and Destiny of Man Reinhold Niebuhr, 1944 *A Journey Through Christian Theology* William P. Anderson, A non threatening entrance into texts from the Apostolic Fathers to Mary Daly

Niebuhr's International Relations Gregory J. Moore, 2020 In dealing with the intricacies of human nature society politics ethics theology racism and international relations Reinhold Niebuhr the teacher preacher philosopher social critic and ethicist may have been the most important American thinker of the twentieth century This book distills Niebuhr's disparate and heretofore difficult to access work on international relations into one volume Drawing from the well springs of Niebuhr's Christian social thought the volume explores the depths of Niebuhr's views on human nature collective life U S foreign policy Just War Theory Cold War era containment globalization and the U N It then applies his approach to contemporary foreign policy issues such as the 2003 Iraq War the Responsibility to Protect and the rise of China

Reinhold Niebuhr Reinhold Niebuhr, Reinhold Niebuhr the most significant North American theologian since the eighteenth century has decisively influenced the shape of Christian thought and action in the United States for much of the twentieth century Niebuhr addressed social and political issues from the perspective of Christian Realism This was his blend of liberalism shrewd social analysis and elements within the Augustinian tradition His legacy continues to be influenced through his writings and the work of many of his distinguished students Larry Rasmussen's introductory essay and notes on the selected texts set Niebuhr in his historical context chart the development of his thought and indicate the significance of his theology in the development of Christian theology as a whole

Scripture and Ethics Jeffrey S. Siker, 1997 Siker brings together the history of biblical interpretation and the study of uses of the Bible in Christian ethics to examine how the Bible has actually been used in Christian theological ethics and in the process profiling eight influential twentieth century theologians

The Theological

Vision of Reinhold Niebuhr's "The Irony of American History" Scott R. Erwin, 2013-06-13 Reinhold Niebuhr remains at the center of a national conversation about America's role in the world and commentators with divergent political and religious positions look to his 1952 work *The Irony of American History* in support of their views. In this study Scott R. Erwin argues that an appreciation of Niebuhr's theological vision is necessary for understanding the full measure of Irony and his perspective on life more broadly. Such a study is important because many individuals reading Irony today fail to acknowledge the central role that his Christian beliefs played in his writings. Niebuhr described his theological vision as being in the battle and above it and it was this perspective that led Niebuhr in Irony to assert that America must both take morally hazardous action in combating the aggression of the Soviet Union and engage in critical self-evaluation to prevent the country from assuming the most odious traits of its Cold War foe. Niebuhr developed his theological vision over the course of the 1930s and 1940s through engagement with Christian doctrine as most readily seen in his academic works such as *The Nature and Destiny of Man* and with current events as seen in his many journalistic writings during this period. By focusing primarily on Niebuhr's writings between 1931 and 1952, Erwin traces the development of his Christian interpretation of human nature and history, establishes how it informed his theological vision, and reveals how that theological vision underlies his writings on current affairs.

Truth and the Church in a Secular Age David Jasper, 2019-07-31 Together the collection of essays in this volume seek to explore the place of Christianity, the Church, and their claims to uphold the truth in an age of post-truth. Beginning with a consideration of truth within the biblical tradition, the chapters come from historical, theological, and philosophical starting points in their concerns, setting out the groundwork for discussions of Christian truth and science, prayer, ethics, and the liturgy. Chapters: Truth and the Biblical Tradition, Nicholas Taylor; The Origins of Truth in Philosophy and Theory, David Jasper; Truth and Christian Theology, Jenny Wright; Truth and the Anglican Tradition, Trevor Hart; Truth after Wittgenstein: From Skepticism to Postmodernism, Scott Robertson; Scientifically Proved: How Science Relates to the Truth, Mike Fuller; Truth and Experience: Prayer and the Practice of Ethics, John McKluekie; Liturgy as a Repository of Truth, John Davies; Today's Church and the Politics of Post-Truth, Alison Peden; Truth and the Idea of the Holy, Steven Ballard.

The Realist Tradition and Contemporary International Relations W. David Clinton, 2007-07 The tradition in international relations theory known as realism has often been associated with the Cold War. The contributors to this intriguing volume argue, however, that realism remains a profound and relevant perspective on contemporary international politics. They point out that classical realism is based on concepts that were elucidated long before the Cold War began and are not confined by its boundaries. Further, they believe that insights of the realist tradition can provide valuable guidance in our contemporary world. W. David Clinton and ten scholars of foreign policy reexamine the work of thinkers spanning twenty-five centuries who have contributed to the development of realism across the ages. In their essays, the authors consider two key questions: What makes these thinkers realists? And how is their work relevant to the modern post-Cold War world? These essays take a fresh

look at such canonical thinkers as Thucydides Augustine Machiavelli Hobbes Hume Burke Carr Niebuhr and Morgenthau Countering the widespread belief that realism has nothing left to offer this collection demonstrates that continuities remain in the political world and that the ideas rooted in realism are too important and too useful to ignore While there are obvious differences among the political philosophers whose works are considered here they share a common concern about human limitations and the possible dangerous consequences of ignoring those limitations Each in his own way these classic thinkers discuss the need for prudence to counter the ever present threat of tragedy resulting from our innocent hopeful or self righteous efforts for perfection These provocative essays demonstrate that though a realist understanding of the nature of international relations is at least as old as Thucydides it is also as contemporaneous as the most recent headline *The Nature and Destiny of Man* Reinhold Niebuhr, 2021-11-02 *The Nature and Destiny of Man* issues a vigorous challenge to Western civilization to understand its roots in the faith of the Bible particularly in the Hebraic tradition Niebuhr here lays out his influential understanding of the two poles of human existence finitude and freedom Individual human thriving requires that we fully understand and honor both of these aspects of our nature yet human history demonstrates our penchant for placing one over the other This book is arguably Reinhold Niebuhr's most important work It offers a sustained articulation of Niebuhr's theological ethics and is considered a landmark in twentieth century thought **The Pastoral Nature of Theology** R. John Elford, 2000-03-01 Classifying pastoral care as an applied theology suggests that it stems from a separate and pure theology In this new volume R John Elford contends that pastoral concerns and actions are not products of theology but in fact are the catalysts that prompt and necessitate it Elford offers a detailed critical analysis of the relationship between theology and pastoral care and compares how different faith traditions understand the pastoral He traces how shifting historical circumstances and perceptions of pastoral need spurred changes in theological understanding and he asserts the need for these traditions to be in conversation with modern culture In closing *The Pastoral Nature of Theology* considers the role of morality in pastoral care and how contemporary issues often bring about profound theological problems **The Shelf List of the Union Theological Seminary Library in New York City** Union Theological Seminary (New York, N.Y.). Library, 1960 **The Perfectibility of Human Nature in Eastern and Western Thought** Harold Coward, 2012-02-01 How perfectible is human nature as understood in Eastern and Western philosophy psychology and religion Harold Coward examines some of the very different answers to this question He poses that in Western thought including philosophy psychology Judaism Christianity and Islam human nature is often understood as finite flawed and not perfectible in religion requiring God's grace and the afterlife to reach the goal By contrast Eastern thought arising in India frequently sees human nature to be perfectible and presumes that we will be reborn until we realize the goal the various yoga psychologies philosophies and religions of Hinduism and Buddhism being the paths by which one may perfect oneself and realize release from rebirth Coward uses the striking differences in the assessment of how perfectible human nature is as the comparative
