Nature Love In The Late Middle Ages:

Nature and Love in the Late Middle Ages Aldo D. Scaglione, 1963 Chiefly an essay in the cultural context of the Decameron **Nature and Love in the Late Middle Ages** Aldo Scaglione, 1963 *Gender and Text in the Later Middle Ages* Jane Chance, 2019-11-07 The women who spoke or wrote in the margins of the Middle Ages women who were oppressed and diminished by social and religious institutions often were not literate Or if they could read they did not know how to write Transforming or subverting Western and patristic traditions associated with the clergy they also turned to Eastern and North African traditions and to popular oral theater and focused in their choice of genre on lyric romance and confessional autobiography These essays analyze their texts and reconstruct a medieval feminine aesthetic that begins a rewriting of cultural and literary history *Lyrics of the Middle Ages* James Wilhelm, 2019-06-03 Originally published in 1990 the main purpose of this anthology is to present the vernacular secular lyric of the Middle Ages although it also includes Latin literature of the Middle Ages and the influence of the hymn Animals and Hunters in the Late Middle Ages Hannele Klemettilä, 2015-03-02 This book explores views of the natural world in the late Middle Ages especially as expressed in *Livre de chasse* Book of the Hunt the most influential hunting book of the era It shows that killing and maiming suffering and the death of animals were not insignificant topics to late medieval men but constituted a complex set of issues and could provoke very contradictory thoughts and feelings that varied according social and cultural milieus and particular cases and circumstances *Chaucer, Boccaccio, and the Debate of Love* N. S. Thompson, 1999 Although the Decameron and the Canterbury Tales have often been linked this is the first ever major study of the two most popular medieval collections of framed narratives to examine the texts as a whole The present study goes well beyond shared general similarities and the inconclusive search for source or analogue material in order to look at the internal dynamics of each text and the surprising similarities that emerge there in terms of theories of literature authority and authorship and the particular reader response envisaged by their authors **Medievalia et Humanistica, No. 37** Paul Maurice Clogan, 2011-12-08 Volume 37 Literary Appropriations examines medieval literature in a different light This volume features six original articles focusing on the art of appropriation as well as fourteen reviews of recent scholarly publications The first article The Oldest Manuscript Witness of the First Life of Blessed Francis of Assisi by Jacques Dalarun reveals the oldest known source of the writings of Francis of Assisi until of late only found in an Italian church publication Lisa Bansen Harp s essay Irony Patterning and Numerical Composition in the *Vie de saint Alexis* Form and Effect Affect takes an ironic look at the oppositions used throughout the work to offer a rich analysis of patterns Reexamining genealogy as spiritual rather than biological is Nicole Leapley s essay Rewriting Paternity The Meaning of Renovating Westminster in *La Esoire de seint Aedward le rei* David Lummus s essay Boccaccio s Three Venuses On the Convergence of Celestial and Transgressive Love in the *Genealogie Deorum Gentilium* Libri provides a comparative look of how love celestial and transgressive can be seen in the Decameron Dante s Justinian

Cino's *Corpus The Hermeneutics of Poetry and Law* by Lorenzo Valterza compares and contrasts Dante's own view of law versus that of his friend Cino da Pistoia. Lastly editor Paul Clogon contributes his own article Dante's Appropriation of Lucan's Cato and Erichtho to demonstrate the importance of Lucan's characters in Dante's own work. Along with these articles fourteen reviews from the United States and all over the world are included truly making *Medievalia et Humanistica* an international publication. To reflect the submissions and audience for *Medievalia et Humanistica* the editorial and review boards include ten members from the United States and ten international members making this a truly international publication. Is Nature Ever Evil? Willem B. Drees, 2003-09-02. Can nature be evil or ugly or wrong? Can we apply moral value to nature? From a compellingly original premise under the auspices of major thinkers including Mary Midgley Philip Hefner Arnold Benz and Keith Ward *Is Nature Ever Evil* examines the value structure of our cosmos and of the science that seeks to describe it. Science says editor Willem B. Drees claims to leave moral questions to aesthetic and religious theory. But the supposed neutrality of the scientific view masks a host of moral assumptions. How does an ethically transparent science arrive at concepts of a hostile universe or a selfish gene? How do botanists zoologists cosmologists and geologists respond to the beauty of the universe they study? Reliant as it is upon catastrophe savagery power and extinction then there are various ways in which science seeks to alter and improve nature. What do prosthetics and gene technology cyborgs and dairy cows say about our appreciation of nature itself? Surely science in common with philosophy magic and religion can aid our understanding of evil in nature whether as natural catastrophe disease predatory cruelty or mere cosmic indifference. Focusing on the ethical evaluation of nature itself *Is Nature Ever Evil* re-ignites crucial questions of hope responsibility and possibility in nature.

The Mystical Language of Sensation in the Later Middle Ages Gordon Rudy, 2013-12-16. First Published in 2002. This book is about the way medieval authors wrote about union with God and how they used language that refers to the senses to articulate their ideas about how a person can be one with God. Rudy argues that such explicit concepts of the spiritual senses are not sharply distinct from the ideas implicit in broader usage of sensory language in theological writings. These ideas are significant in the history of Christian mysticism because language that refers to the senses bears directly on several ideas that are central to ideas about union with God.

Ethics and Enjoyment in Late Medieval Poetry Jessica Rosenfeld, 2010-12-02. Jessica Rosenfeld provides a history of the ethics of medieval vernacular love poetry by tracing its engagement with the late medieval reception of Aristotle. Beginning with a history of the idea of enjoyment from Plato to

Peter Abelard and the troubadours the book then presents a literary and philosophical history of the medieval ethics of love centered on the legacy of the Roman de la Rose The chapters reveal that courtly love was scarcely confined to what is often characterized as an ethic of sacrifice and deferral but also engaged with Aristotelian ideas about pleasure and earthly happiness Readings of Machaut Froissart Chaucer Dante Deguileville and Langland show that poets were often markedly aware of the overlapping ethical languages of philosophy and erotic poetry The study s conclusion places medieval poetry and philosophy in the context of psychoanalytic ethics and argues for a re evaluation of Lacan s ideas about courtly love

The Decline of Nature Gilbert F. LaFreniere,2012-07 **Women and Wealth in Late Medieval Europe** T.

Earenfight,2010-03-15 The twelve essays in Women and Wealth in Late Medieval Europe re examine the vexing issue of women money wealth and power from distinctive perspectives literature history architectural history using new archival sources The contributors examine how money and changing attitudes toward wealth affected power relations between women and men of all ranks especially the patriarchal social forces that constrained the range of women s economic choices Employing theories on gender culture and power this volume reveals wealth as both the motive force in gender relations and a precise indicator of other more subtle forms of power and influence mediated by gender **Routledge Revivals: Key**

miniature illustrations from thirteenth and fifteenth century manuscripts are retained as are the notes keyed to the Langlois edition on which the translation is based **Rural Space in the Middle Ages and Early Modern Age** Albrecht

Classen,2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic Representing Righteous Heathens in Late Medieval England F. Grady,2016-04-30

This book surveys the appearances of righteous heathens or virtuous pagans in travel literature chronicles romances and sermons as well as in the work of Langland Chaucer and Gower Grady also illustrates the way these figures have been used to explore a variety of historical cultural and formal literary issues *Water in Medieval Literature* Albrecht

Classen,2017-08-15 Ecocritical thinking has sensitized us more than ever before to the tremendous importance of water for human life as it is richly reflected in the world of literature The great relevance of water also in the Middle Ages might come as a surprise for many readers but the evidence assembled here confirms that also medieval poets were keenly aware of the importance of water to sustain all life to provide understanding of life s secrets to mirror love and to connect the individual with God In eleven chapters major medieval European authors and their works are discussed here taking us from the world of Old Norse to Irish and Latin literature to German French English and Italian romances and other narratives **William**
