Nature Of Buddhist Ethics

Donald McCown

Nature Of Buddhist Ethics:

The Nature of Buddhist Ethics Damien Keown, 2016-07-27 In this book the author considers data from both early and later schools of Buddhism in an attempt to provide an overall characterization of the structure of Buddhist ethics The importance of ethics in the Buddha's teachings is widely acknowledged but the pursuit of ethical ideals has up to now been widely held to be secondary to the attainment of knowledge Drawing on the Aristotelian tradition of ethics the author argues against this intellectualization of Buddhism and in favour of a new understanding of the tradition in terms of which ethics plays an absolutely central role In the course of this reassessment many basic concepts such as karma nirvana and the Eightfold Path are reviewed and presented in a fresh light The book will be of interest to readers with a background in either Buddhist studies or comparative religious ethics

The Nature of Buddhist Ethics Damien Keown, 1992 **Buddhist Ethics** Damien Keown, 2020-06-25 With over 520 million followers Buddhism is now the world's fourth largest religion Over the last seventy years or so there has been a growing interest in Buddhism and it continues to capture the imagination of many in the West who see it as either an alternative or a supplement to their own religious beliefs For complex cultural and historical reasons ethics has not received as much attention in traditional Buddhist thought as it has in the West In this Very Short Introduction Damien Keown explores how Buddhism approaches a range of moral issues of our age including our relationship with our environment our treatment of animals and our stance on abortion on sexuality and gender on violence and war This new edition also includes a discussion of the ethical challenges posed by cutting edge developments in science and biomedical technologies including neuroscience artificial intelligence transhumanism and gene editing ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Buddhist ethics* Damien Keown, 2001

Contemporary Buddhist Ethics Damien Keown, 2000 This text examines a range of contemporary moral issues from a Buddhist perspective and brings together the views of leading scholars on a range of controversial subjects **A Mirror Is for Reflection** Jake H. Davis, 2017-07-13 This volume offers a rich and accessible introduction to contemporary research on Buddhist ethical thought for interested students and scholars yet also offers chapters taking up more technical philosophical and textual topics A Mirror is For Reflection offers a snapshot of the present state of academic investigation into the nature of Buddhist Ethics including contributions from many of the leading figures in the academic study of Buddhist philosophy Over the past decade many scholars have come to think that the project of fitting Buddhist ethical thought into Western philosophical categories may be of limited utility and the focus of investigation has shifted in a number of new directions This volume includes contemporary perspectives on topics including the nature of Buddhist ethics as a whole karma and rebirth mindfulness narrative intention free will politics anger and equanimity

Destroying Mara Forever John Powers, Charles S. Prebish, 2010-02-16 A thought provoking collection of essays on Buddhist ethics by some of the leading thinkers in the field The reader is provided with engaging explorations of central issues in Buddhist ethics insightful analyses of the ways Buddhist ethical principles are being applied today in both Asian and Western countries and groundbreaking proposals about how Buddhist perspectives might inform debates on some of the core ethical issues of the modern world including consumerism globalization environmental problems war ethnic conflict and inter religious tensions The leading figure in identifying the field of Buddhist ethics and articulating some of its core issues is Professor Damien Keown of the University of London This book brings together a group of eminent scholars who have all been influenced by Keown's work and who are also friends and close colleagues The result is a wonderful volume for those who are struggling with practical issues of ethical concern This will be a valuable resource in the study of ethics for years to come

Environmental Ethics in Buddhism Pragati Sahni, 2007-09-12 With an innovative approach to the subject this work gives a logical and thorough examination of the metaphysical and ethical dimensions of early Buddhist literature

Zen Buddhism and Environmental Ethics Simon P. James, 2017-03-02 Zen Buddhism and Environmental Ethics explores the implications of Zen Buddhist teachings and practices for our moral relations with the natural world At once an accessible introduction to Zen and an important contribution to the debate concerning the environmental implications of the tradition this book will appeal both to readers unfamiliar with East Asian thought and to those well versed in the field In elucidating the philosophical implications of Zen the author draws upon both Eastern and Western philosophy situating the Zen understanding of nature within the Buddhist tradition as well as relating it to the ideas of key Western philosophers such as Aristotle Kant and Heidegger These philosophical reflections on Zen are used to shed light on some prominent debates in contemporary environmental ethics concerning such issues as the intrinsic value of nature

The Oxford Handbook of Buddhist Ethics Daniel Cozort, James Mark Shields, 2018-03-08 Many forms of Buddhism divergent in philosophy and style emerged as Buddhism filtered out of India into other parts of Asia Nonetheless all of them embodied an ethical core that is remarkably consistent Articulated by the historical Buddha in his first sermon this moral core is founded on the concept of karma that intentions and actions have future consequences for an individual and is summarized as Right Speech Right Action and Right Livelihood three of the elements of the Eightfold Path Although they were later elaborated and interpreted in a multitude of ways none of these core principles were ever abandoned The Oxford Handbook of Buddhist Ethics provides a comprehensive overview of the field of Buddhist ethics in the twenty first century The Handbook discusses the foundations of Buddhist ethics focusing on karma and the precepts looking at abstinence from harming others stealing and intoxication It considers ethics in the different Buddhist traditions and the similarities they share and compares Buddhist ethics to Western ethics and the psychology of moral judgments The volume also investigates Buddhism and society analysing economics environmental ethics and Just War ethics The final section focuses on contemporary issues surrounding Buddhist ethics

including gender sexuality animal rights and euthanasia This groundbreaking collection offers an indispensable reference work for students and scholars of Buddhist ethics and comparative moral philosophy **Buddhist Moral Philosophy** Christopher W. Gowans, 2014-07-17 The first book of its kind Buddhist Moral Philosophy An Introduction introduces the reader to contemporary philosophical interpretations and analyses of Buddhist ethics It begins with a survey of traditional Buddhist ethical thought and practice mainly in the Pali Canon and early Mahayana schools and an account of the emergence of Buddhist moral philosophy as a distinct discipline in the modern world It then examines recent debates about karma rebirth and nirvana well being normative ethics moral objectivity moral psychology and the issue of freedom responsibility and determinism The book also introduces the reader to philosophical discussions of topics in socially engaged Buddhism such as human rights war and peace and environmental ethics **Buddhist Ethics and Morality** Masaharu Anesaki, 1912

Development of Buddhist Ethics Girija Shankar Prasad Misra, 1984 Description Religion is a doing and doing what is moral In Buddhism particularly there is such a great emphasis on moral doing that is very often designated as an ethical religion silaparaka dharma The present work seeks to study Buddhist ethics as a development process not only in terms of inner dynamics of Buddhism inherent in its doctrinal and ethical formulations but also in terms of its response to various historical compulsions which motivated its followers to introduce in its general framework novelties of forms and expressions It is hoped that such an approach would lead to a greater appreciation of Buddhist ethics both as an emergent of a unique spiritual vision and a social force The book which is divided in six chapters cover the entire range of Buddhist development in India The work is novel both in its approach and treatment of the subject It studies conceptual formulations in their proper historical contexts Modern debates on various ethical problems have been taken into account to bring about greater clarity in discussions **Encyclopedia of Applied Ethics**, 2012-01-10 The Encyclopedia of Applied Ethics Second Edition Four Volume Set addresses both the physiological and the psychological aspects of human behavior Carefully crafted well written and thoroughly indexed the encyclopedia helps users whether they are students just beginning formal study of the broad field or specialists in a branch of psychology understand the field and how and why humans behave as we do The work is an all encompassing reference providing a comprehensive and definitive review of the field A broad and inclusive table of contents ensures detailed investigation of historical and theoretical material as well as in depth analysis of current issues Several disciplines may be involved in applied ethics one branch of applied ethics for example bioethics is commonly explicated in terms of ethical legal social and philosophical issues Editor in Chief Ruth Chadwick has put together a group of leading contributors ranging from philosophers to practitioners in the particular fields in question to academics from disciplines such as law and economics The 376 chapters are divided into 4 volumes each chapter falling into a subject category including Applied Ethics Bioethics Computers and Information Management Economics Business Environmental Ethics Ethics and Politics Legal Medical Ethics Philosophy Theories Social and Social Media Concise entries ten pages on average provide

foundational knowledge of the field Each article will features suggested readings pointing readers to additional sources for more information a list of related websites a 5 10 word glossary and a definition paragraph and cross references to related articles in the encyclopedia Newly expanded editorial board and a host of international contributors from the US Australia Belgium Canada France Germany Ireland Israel Japan Sweden and the United Kingdom The 376 chapters are divided into 4 volumes each chapter falling into a subject category including Applied Ethics Bioethics Computers and Information Management Economics Business Environmental Ethics Ethics and Politics Legal Medical Ethics Philosophy Theories Social and Social Media

Buddhism and Political Theory Matthew J. Moore, 2016-04-04 Despite the recent upsurge of interest in comparative political theory there has been virtually no serious examination of Buddhism by political philosophers in the past five decades In part this is because Buddhism is not typically seen as a school of political thought However as Matthew Moore argues Buddhism simultaneously parallels and challenges many core assumptions and arguments in contemporary Western political theory In brief Western thinkers not only have a great deal to learn about Buddhism they have a great deal to learn from it To both incite and facilitate the process of Western theorists engaging with this neglected tradition this book provides a detailed critical reading of the key primary Buddhist texts from the earliest recorded teachings of the Buddha through the present day It also discusses the relevant secondary literature on Buddhism and political theory nearly all of it from disciplines other than political theory as well as the literatures on particular issues addressed in the argument Moore argues that Buddhist political thought rests on three core premises that there is no self that politics is of very limited importance in human life and that normative beliefs and judgments represent practical advice about how to live a certain way rather than being obligatory commands about how all persons must act He compares Buddhist political theory to what he sees as Western analogues Nietzsche s similar but crucially different theory of the self Western theories of limited citizenship from Epicurus to John Howard Yoder and to the Western tradition of immanence theories in ethics This will be the first comprehensive treatment of Buddhism as political theory

Foucault, Buddhism and Disciplinary Rules Malcolm Joyce, 2016-12-01 This book suggests that previous critiques of the rules of Buddhist monks Vinaya may now be reconsidered in order to deal with some of the assumptions concerning the legal nature of these rules and to provide a focus on how Vinaya texts may have actually operated in practice Malcolm Joyce utilizes the work of Foucault and his notions of power and subjectivity in three ways First he examines The Buddha s role as a lawmaker to show how Buddhist texts were a form of lawmaking that had a diffused and lateral conception of authority While lawmakers in some religious groups may be seen as authoritative in the sense that leaders or founders were coercive or charismatic the Buddhist concept of authority allows for a degree of freedom for the individual to shape or form themselves Second he shows that the confession ritual acted as a disciplinary measure to develop a unique sense of collective governance based on self regulation self governance and self discipline Third he argues that while the Vinaya has been seen by some as a code or form of regulation that required

obedience the Vinaya had a double nature in that its rules could be transgressed and that offenders could be dealt with appropriately in particular situations. Voyce shows that the Vinaya was not an independent legal system but that it was dependent on the Dharma shastra for some of its jurisprudential needs and that it was not a form of customary law in the strict sense but a wider system of jurisprudence linked to Dharma shastra principles and precepts.

Dealing with Bioethical Issues in a Globalized World Joris Gielen, 2020-01-09 This book addresses the complexity of talking about normativity in bioethics within the context of contemporary multicultural and multi religious society. It offers original contributions by specialists in bioethics exploring new ways of understanding normativity in bioethics. In bioethical publications and debates the concept of normativity is often used without consideration of the difficulties surrounding it whereas there are many competing claims for normativity within bioethics. Examples of such competing normative bioethical discourses can be perceived in variations and differences in bioethical arguments within individual religions and the opposition between bioethical arguments from specific religions and arguments from bioethicists who do not claim religious allegiance. We also cannot merely assume that a Western understanding of normative bioethics will be unproblematic in bioethics in non Western cultures and religions. Through an analysis of normativity in Christian Hindu Buddhist Islamic and Jewish bioethics the book creates awareness of the complexity of normativity in bioethics. The book also covers normative bioethics outside an explicitly religiously committed context and specific attention is paid to bioethics as an interdisciplinary endeavor. It reveals how normativity relates to empirical and global bioethics which challenges it faces in bioethics in secular pluralistic society and how to overcome these. By doing that this book fills an important gap in bioethics literature.

The Ethical Space of Mindfulness in Clinical Practice Donald McCown, 2013-05-28 This book makes a vital contribution to the understanding of ethics as the cornerstone of mindfulness based practice and will be of interest to all those involved in delivering mindfulness based interventions including psychologists counselors spiritual directors occupational therapists physicians nurses and educators.

The Buddhist World John Powers, 2015-10-05 The Buddhist World joins a series of books on the world's great religions and cultures offering a lively and up to date survey of Buddhist studies for students and scholars alike. It explores regional varieties of Buddhism and core topics including Buddha nature ritual and pilgrimage. In addition to historical and geo political views of Buddhism the volume features thematic chapters on philosophical concepts such as ethics as well as social constructs and categories such as community and family. The book also addresses lived Buddhism in its many forms examining the ways in which modernity is reshaping traditional structures ancient doctrines and cosmological beliefs.

Buddhism, Virtue and Environment David E. Cooper, Simon P. James, 2017-07-05 Buddhism one increasingly hears is an eco friendly religion. It is often said that this is because it promotes an ecological view of things one stressing the essential unity of human beings and the natural world. Buddhism Virtue and Environment presents a different view. While agreeing that Buddhism is in many important respects in tune with environmental concerns Cooper and James argue that what makes it

green is its view of human life The true connection between the religion and environmental thought is to be found in Buddhist accounts of the virtues those traits such as compassion equanimity and humility that characterise the life of a spiritually enlightened individual Central chapters of this book examine these virtues and their implications for environmental attitudes and practice Buddhism Virtue and Environment will be of interest not only to students and teachers of Buddhism and environmental ethics but to those more generally engaged with moral philosophy Written in a clear and accessible style this book presents an original conception of Buddhist environmental thought The authors also contribute to the wider debate on the place of ethics in Buddhist teachings and practices and to debates within virtue ethics on the relations between human well being and environmental concern
