Biblical affirmations of God's transcendence and attempt to show in their respective ways how these types of beyondness are related

The Rise and Decline of Ancient Civilizations Eka Avaliani, 2025-07-02 This book concerns the formation of ancient civilizations in the Near East and the central Mediterranean world. It examines five civilization models: Model of Egyptian Civilization, Model of Mesopotamian Civilization, Model of Anatolian Civilization, Model of Central Mediterranean Aegean Civilization, Model of Eastern Mediterranean Culture, Phoenicia, Syria, Palestine, and the dynamics of their development. Its theoretical part discusses the structure and analysis of civilizations, stages of development of civilization, the specifics of artistic thinking, and touches on topics such as the phenomenon of cultural transformation in space and time. The book is intended for readers who are interested in the development of ancient civilizations and the specifics of their artistic thinking. In the process of systematizing and classifying these cultures/civilizations, we specifically highlight three parameters: a geographical/regional, b ethnic, and c the individual spiritual phenomenon of the culture. In the course of our research, it became evident that each model encompassed a specific historical/geographical space and at various stages of development was tied to certain historical/chronological periods.

Postcolonial Resistance and Asian Theology Simon Shui-Man Kwan, 2013-11-07 Presenting a fundamental rethinking of Asian theology, this book focuses on theological indigenization in Asia in light of the postcolonial theory of resistance advanced by Homi K. Bhabha, among others. Two types of anti-colonialist resistance within Asian theologies are identified and interrogated. The first is nationalistic in kind, operating from a theological language that is binaristic and oppositional. The second is illustrated by that which was mounted by the three Chinese Christian thinkers whose indigenous theologies are analysed in this book as case studies. This second kind of postcolonialism, in its character, is characterized by collaboration rather than antagonistic binarism. In spite of much dissimilarity between these two kinds of resistance, the book argues that they are similarly anti-colonialist and both can be equally valid in resisting colonial forces. Given that the binarism and antagonism imbedded in the Asian theological movement are historically contingent and that the sole reliance on this resistance has made the movement self-ensnaring, the book suggests that the Asian theological movement widen its choice of colonial-resistant strategies. Drawing attention to the otherwise subtle politics of the Asian theological indigenization discourse, this book addresses the relationship between postcolonialism and Asia, contextual theology, and is of interest to students and scholars of Asian Religion and Philosophy.

God, Freud and Religion Dianna T. Kenny, 2015-03-05 Choice Essential Read Did God create man or did man create God? In this book, Dianna Kenny examines religious belief through a variety of perspectives: psychoanalytic, cognitive, neuropsychological, sociological, historical, and psychiatric, to provide a coherent account of why people might believe in God. She argues that psychoanalytic theory provides a fertile and creative approach to the study of religion that attempts to integrate religious belief with our innate human nature and developmental histories that have unfolded in the context of our socialization and cultural experiences. Freud

argued that religion is so compelling because it solves the problems of our existence It explains the origin of the universe offers solace and protection from evil and provides a blueprint about how we should live our lives with just rewards for the righteous and due punishments for sinners and transgressors Science on the other hand offers no such explanations about the universe or the meaning of our lives and no comfort for the unanswered longings of the human race Is religion a form of wish fulfilment a collective delusion to which we cling as we try to fathom our place and purpose in the drama of cosmology Can there be morality without faith Are science and religion radically incompatible What are the roots of fundamentalism and terror theology These are some of the questions addressed in *God Freud and Religion* a book that will be of interest to psychoanalysts psychologists and psychotherapists students of psychology psychoanalysis philosophy and theology and all those with an interest in religion and human behaviour Dianna Kenny is Professor of Psychology at the University of Sydney Australia She is the author of over 200 publications including six books

Freud and the Imaginative World Harry Trosman, 2013-05-13 The current resurgence of interest in the scientific origins of psychoanalysis has overshadowed the artistic and literary models to which Freud had recourse time and again in the development and presentation of his theories It is this neglected aesthetic wellspring of psychoanalysis to which Harry Trosman calls attention in *Freud and the Imaginative World* Trosman enriches our understanding of psychoanalysis by demonstrating how Freud's cultural and humanistic commitments guided his pursuit of a science of mind Toward this end he undertakes a number of challenging tasks to situate Freud in the formative culture of his time to adumbrate the human concerns that informed his work in the natural sciences and to delineate the multiple modes of influence that fostered his creativity The second part of the book moves from the cultural sources of Freud's creativity to the psychoanalytic contribution to our understanding of art and literature Here Trosman focuses on the consumer of art and literature tracing psychoanalytic perspectives on aesthetic responsiveness from Freud to the present Trosman's critical review of the da Vinci and Hamlet literature illustrates the limitations as well as the explanatory potential of the two principal genres of applied psychoanalytic work and leads naturally to the reflective estimation of psychoanalysis and creativity that concludes the work Throughout Trosman is a well informed and engaging guide both to the imaginative Freud and to the abundant literature on psychoanalysis and the arts He documents Freud's continuing indebtedness to the literary models that nourished his theorizing and gave shape to his narrative clinical expositions even as he takes pains to show how psychoanalysis has in many ways outgrown Freud's own reductive explanations of aesthetic phenomena A skillfully crafted overview *Freud and the Imaginative World* is an exemplary introduction to a crucial aspect of the Freudian legacy

British imperial expansion and at a time of social tension caused by industrialization It describes and evaluates his role in the Church s efforts to face major challenges relating to its relationships to the different world religions its response to the First World War and its attitude to the scientific disciplines that called into question some of its longstanding perceptions and suppositions An eminent figure born into the United Presbyterian Church and rooted in the Church in Scotland Cairns operated ecumenically and internationally His apologetics challenged the prevailing assumptions of the day that science provided the only intellectually legitimate means of exploring the world and that scientific determinism ruled out the Christian conception of the world as governed by providence A major feature of his theology was the presentation of Christianity as a reasonable faith and throughout his life he maintained a particular concern for young people having endured his own crisis of faith when a student in Edinburgh He enjoyed a decades long involvement with the World Student Christian Federation based on a mutually enriching relationship with one of its leading figures the renowned American evangelist John Raleigh Mott
