Powers,2019-08-20 An exploration of the Bauhaus school and its legacy in the context of the modernist period including its wider influence on art design and education Bauhaus Goes West is the story of cultural and artistic exchange between Germany and the West over a period of seventy years It presents a view of the influential Bauhaus school in relation to the wider modernist period distinguishing between the received idea of the Bauhaus and the documented reality Initially the Bauhaus was seen as an educational experiment only later was it recognized as a style and a movement Working from meticulous research Alan Powers reexamines speculations about the reception and understanding of individuals connected with the Bauhaus school and what they ultimately achieved Looking in greater detail at the theory and practice of art design and architecture between the arts and crafts movement and modernism this book challenges the assumption that the 1920s represented a void of reactionary conservatism Bauhaus Goes West offers an opportunity to recover some of the overlooked aspects of avant garde that ran parallel with the work of the Bauhaus such as the film making of Francis Bruguiere and Len Lye and the development of art instruction for children under Marion Richardson and the London County Council De Stijl Continued Jonneke Jobse,2005 From 1958 to 1964 the journal Structure was a major platform for artists reconsidering the design tenets and underlying principles of the Bauhaus Constructivism and De Stijl This book explores the artists body of ideas in meticulous detail *Besteckentwürfe in Deutschland 1900 - 1945* Jörg Müller-Daehn,Falk Möller,2023

Munch,2021-04-16 The history of modern design and architecture has seen many attempts to embrace and merge different art forms and to bring art into the framing of everyday life and the organisation of

modern society in a process understood as total design or total architecture These attempts were historically based on the romanticist idea of merging all art forms into a uniting and transgressing work of art mostly associated with but certainly not limited to Richard Wagner's theoretical writings and musical dramas This utopian dream of the Gesamtkunstwerk or Total Work of Art was intended both to bring unity to the people and to bring art into the everyday life of their homes as well as into factories cities and even modern media As a result the experiments ranged from music poetry and drama to architecture design visual communication and city planning These ideas of merging art forms into more immersive and transgressive installations or design interventions to change everyday life are widespread today but their complex and often problematic roots are mostly ignored Design and architecture have delivered some of the broadest and most influential experiments with the Gesamtkunstwerk from garden cities for workers and corporate identity design to the German AEG corporation

Strangers Arrive Leonard Bell, 2017-11-17 None of us had the faintest idea where we were going but during 1938-39 the town Christchurch was made strangely interesting for anyone like myself with the scattered arrival of the refugees All at once there were people among us who were actually from Vienna or Chemnitz or Berlin who knew the work of Schoenberg and Gropius Anthony Alpers 1985 From the 1930s through the 1950s a substantial number of forced migrants refugees from Nazism displaced people after World War II and escapees from Communist countries arrived in New Zealand from Europe Among them were an extraordinary group of artists and writers photographers and architects whose European modernism radically reshaped the arts in this country In words and pictures Strangers Arrive tells their story Ranging across the arts from photographer Irene Koppel to art dealer and printmaker Kees Hos architect Imric Porsolt to writer Antigone Kefala Leonard Bell takes us inside New Zealand's bookstores and coffeehouses studios and galleries to introduce us to a compelling body of artistic work He asks key questions How were migrants received by New Zealanders

How did displacement and settlement in New Zealand transform their work How did the arrival of European modernists intersect with the burgeoning nationalist movement in the arts in New Zealand Strangers Arrive introduces us to a talented group of aliens who were critical catalysts for change in New Zealand culture

Adhocism, expanded and updated edition Charles Jencks, Nathan Silver, 2013-05-24 The triumphant return of a book that gave us permission to throw out the rulebook in activities ranging from play to architecture to revolution When this book first appeared in 1972 it was part of the spirit that would define a new architecture and design era a new way of thinking ready to move beyond the purist doctrines and formal models of modernism Charles Jencks and Nathan Silver's book was a manifesto for a generation that took pleasure in doing things ad hoc using materials at hand to solve real world problems The implications were subversive Turned off citizens of the 1970s immediately adopted the book as a DIY guide The word adhocism entered the vocabulary the concept of adhocism became part of the designer's toolkit and Adhocism became a cult classic Now Adhocism is available again with new texts by Jencks and Silver reflecting on the past forty years of adhocism and new illustrations demonstrating adhocism's continuing relevance Adhocism has always been around Think Robinson Crusoe making a raft and then a shelter from the wreck of his ship As a design principle adhocism starts with everyday improvisations a bottle as a candleholder a dictionary as a doorstop a tractor seat on wheels as a dining room chair But it is also an undeveloped force within the way we approach almost every activity from play to architecture to city planning to political revolution Engagingly written filled with pictures and examples from areas as diverse as auto mechanics and biology Adhocism urges us to pay less attention to the rulebook and more to the real principle of how we actually do things It declares that problems are not necessarily solved in a genius's eureka moment but by trial and error adjustment and readjustment

My Modern Movement Robert Best, 2024-10-01 For those of advanced tastes the Modern Movement was a welcome corrective to the debased aesthetics of the commercial world Massed housing of the 1920s and 30s was as untutored as the products of light industry and both operated far from the enlightened thinking coming out of Central Europe that sought to harness architecture and design to social progress Robert Best the only British industrialist to have trained at art school shared the goal of better mass education but was troubled by the methods of Modernism's propagandists for reasons that they found hard to understand If the few knew better than the many and the many were incapable of raising their own standards was it not reasonable for the few to impose those standards from above And if they did not do so were they not betraying their enlightenment and their obligation to help elevate the less capable Best did not think so and in this extraordinary memoir written in the early 1950s but never published he explores his own growing concerns about the sense of noblesse oblige that directed such bodies as the Council of Industrial Design set up in 1944 to raise the quality of British manufacturing and its saleability This overdue book needs to be read widely to understand what lay behind the idealism of the design world in the second quarter of the 20th century With an introduction by Stephen Games
