Yes, every inch of the globe has been seen, mapped, photographed, and measured, but is it known? Robert Leonard Reid doesn't think so. To draw a circle and calculate its diameter is not to know the circle. In this collection, Reid distinguishes himself from many science-based nature writers using the natural world as a springboard for speculations and musings on the numinous and the sacred: injustice, homelessness, the treatment of Native Peoples in the United States, and what pushes mountaineers to climb. Ranging in their settings from eastern New Mexico to northern Alaska, Reid's essays illustrate his belief that the American West is worth celebrating and caring for. Taking its title from an affecting speech given by renowned author Barry Lopez, *Because It Is So Beautiful* is a response to desperate questions surrounding America's wildlands. Lopez's words resonated with the young mountaineer, musician, mathematician Robert Leonard Reid, who was struggling to understand his relationship to the world, to find his vision as a writer. What he learned on that long ago evening is knit throughout the nineteen pieces in the collection, which include essays from Reid's previous books *Arctic Circle*, *Mountains of the Great Blue Dream*, and *America New Mexico*, three essays that appear here in print for the first time, as well as revised and expanded versions of essays that appeared in *Touchstone*, *The Progressive*, and elsewhere. *The Undiscovered Country* Paul Andrew Hutton, 2025-08-05 New York Times Bestseller. From the author of *The Apache Wars*, the true story of the American West, revealing how American ambition clashed with the realities of violence and exploitation. The epic of the American West became a tale of progress, redemption, and glorious conquest that came to shape the identity of a new nation. Over time, a darker story emerged: one of ghastly violence and environmental spoliation that stained this identity. *The Undiscovered Country* strips away the layers of myth to reveal the true story of this first epoch of American history. From the forests of Pennsylvania and Kentucky to the snow-crested California Sierras and from the harsh deserts of the Southwest to the buffalo range of the Great Plains, Paul Andrew Hutton masterfully chronicles a story that defined America and its people. From Braddock's 1755 defeat to the 1890 Wounded Knee massacre, he unfolds a grand narrative steeped in romantic impulses and tragic consequences. Hutton uses seven main protagonists: Daniel Boone, Red Eagle, Davy Crockett, Mangas Coloradas, Kit Carson, Sitting Bull, and William Buffalo Bill Cody.

as the biographical threads by which to weave a tapestry across seven generations revealing a story of heroic conquest and dark tragedy of sacrifice and greed and of man made wonders and environmental ruin The American frontier movement has proven eternally fascinating around the world the subject of countless books paintings poems television shows and films The Undiscovered Country reveals the truth behind America s great creation myth *Talking to the Ground* Douglas

Preston,2019-06-04 From the author of the 1 New York Times bestseller *The Lost City of the Monkey God* comes an entrancing eloquent and entertaining account of the author s adventurous journey on horseback through the Southwest in the heart of Navajo desert country In 1992 author Douglas Preston and his wife and daughter rode horseback across 400 miles of desert in Utah Arizona and New Mexico They were retracing the route of a Navajo deity the Slayer of Alien Gods on his quest to restore beauty and balance to the Earth More than a travelogue Preston s account of their one tough journey luminously remembered Kirkus Reviews is a tale of two cultures meeting in a sacred land and is like traveling across
