The Navajo rugs and textiles that people admire and buy today are the result of many historical influences particularly the interaction between Navajo weavers and the traders who guided their production and controlled their sale John Lorenzo Hubbell and other late nineteenth century traders were convinced they knew which patterns and colors would appeal to Anglo American buyers and so they heavily encouraged those designs In *Patterns of Exchange* Teresa J Wilkins traces how the relationships between generations of Navajo weavers and traders affected Navajo weaving The Navajos valued their relationships with Hubbell and others who operated trading posts on their reservation As a result they did not always see themselves as exploited victims of a capitalist system Rather because of Navajo cultural traditions of gift giving and helping others the artists slowly adapted some of the patterns and colors the traders requested into their own designs By the 1890s Hubbell and others commissioned paintings depicting particular weaving styles and encouraged Navajo weavers to copy

them reinforcing public perceptions of traditional Navajo weaving Even the Navajos came to revere certain designs as the weaving of the ancestors Enhanced by numerous illustrations including eight color plates this volume traces the intricate play of cultural and economic pressures and personal relationships between artists and traders that guided Navajo weavers to produce textiles that are today emblems of the Native American Southwest Winner Multi cultural Subject New Mexico Book Awards

A Turning Point Ann Lane Hedlund, Heard Museum, 2011

Working the Navajo Way Colleen O'Neill, 2005-10-20 The Dine have been a pastoral people for as long as they can remember but when livestock reductions in the New Deal era forced many into the labor market some scholars felt that Navajo culture would inevitably decline Although they lost a great deal with the waning of their sheep centered economy Colleen O'Neill argues that Navajo culture persisted O'Neill s book challenges the conventional notion that the introduction of market capitalism necessarily leads to the destruction of native cultural values She shows instead that contact with new markets provided the Navajos with ways to diversify their household based survival strategies Through adapting to new kinds of work Navajos actually participated in the reworking of modernity in their region weaving an alternate culturally specific history of capitalist development O'Neill chronicles a history of Navajo labor that illuminates how cultural practices and values influenced what it meant to work for wages or to produce commodities for the

marketplace Through accounts of Navajo coal miners weavers and those who left the reservation in search of wage work she explores the tension between making a living the Navajo way and working elsewhere Focusing on the period between the 1930s and the early 1970s a time when Navajos saw a dramatic transformation of their economy O'Neill shows that Navajo cultural values were flexible enough to accommodate economic change She also examines the development of a Navajo working class after 1950 when corporate development of Navajo mineral resources created new sources of wage work and allowed former migrant workers to remain on the reservation Focusing on the household rather than the workplace O'Neill shows how the Navajo home serves as a site of cultural negotiation and a source for affirming identity Her depiction of weaving particularly demonstrates the role of women as cultural arbitrators providing mothers with cultural power that kept them at the center of what constituted Navajo-ness Ultimately *Working the Navajo Way* offers a new way to think about Navajo history shows the essential resilience of Navajo lifeways and argues for a more dynamic understanding of Native American culture overall

Interpreting Energy at Museums and Historic Sites Leah S. Glaser, 2022-12-13 Experts all agree that human beings can mitigate climate change by changing how we use energy for heat light movement and production Stewards of heritage sites and collections can engage the public at the grassroots level to raise awareness about the cultural and socioeconomic reasons for past choices that have contributed to climate change This book will help cultural institutions identify ways to interpret new stories through historic places and resources especially if staff have made the commitment to go green Without place-based context discussions about energy focus primarily on the science and not the human experience By reminding us of our past practices and values regarding energy production and use historic places can inspire different ways of thinking about transitioning to different energy sources and question the

doctrine that high energy use is necessary for progress Public interpretation can expose the vast energy infrastructure and the impact of energy extraction production and use on place Historic sites offer place based contexts for visitors to interact with and think critically about the processes and the impact of energy development in for example a maritime village This book synthesizes science with the humanities outside of popular media and other politicized spaces to identify different kinds of energy resources in many historic collections or sites It supplements current calls for economic and policy changes because as stewards of historic places we need to do what we can in this all hands on deck moment to prepare for shared stewardship of our future

Blanket Weaving in the Southwest Joe Ben Wheat, 2022-06-21 Exquisite blankets sarapes and ponchos handwoven by southwestern peoples are admired throughout the world Despite many popularized accounts serious gaps have existed in our understanding of these textiles gaps that one man devoted years of scholarly attention to address During much of his career anthropologist Joe Ben Wheat 1916 1997 earned a reputation as a preeminent authority on southwestern and plains prehistory Beginning in 1972 he turned his scientific methods and considerable talents to historical questions as well He visited dozens of museums to study thousands of nineteenth century textiles oversaw chemical tests of dyes from hundreds of yarns and sought out obscure archives to research the material and documentary basis for textile development His goal was to establish a key for southwestern textile identification based on the traits that distinguish the Pueblo Navajo and Spanish American blanket weaving traditions and thereby provide a better way of identifying and dating pieces of unknown origin Wheat s years of research resulted in a masterful classification scheme for southwestern textiles and a book that establishes an essential baseline for understanding craft production Nearly completed before Wheat s death *Blanket Weaving in the Southwest* describes the evolution of southwestern textiles from the early historic period to the late nineteenth century establishes a revised chronology for its development and traces significant changes in materials techniques and designs Wheat first relates what Spanish observers learned about the state of native weaving in the region a historical review that reveals the impact of new technologies and economies on a traditional craft Subsequent chapters deal with fibers yarns dyes and fabric structures including an unprecedented examination of the nature variety and origins of bayeta yarns and with tools weaves and finishing techniques A final chapter constructed by editor Ann Hedlund from Wheat s notes provides clues to his evolving ideas about the development of textile design Hedlund herself a respected textile scholar and a protégé of Wheat s is uniquely qualified to interpret the many notes he left behind and brings her own understanding of weaving to every facet of the text She has ensured that Wheat s research is applicable to the needs of scholars collectors and general readers alike Throughout the text Wheat discusses and evaluates the distinct traits of the three textile traditions More than 200 photos demonstrate these features including 191 color plates depicting a vast array of chief blankets shoulder blankets ponchos sarapes diyugi mantas and dresses from museum collections nationwide In addition dozens of line drawings demonstrate the fine points of technique concerning weaves edge finishes and corner tassels Through his groundbreaking

and painstaking research Wheat created a new view of southwestern textile history that goes beyond any other book on the subject Blanket Weaving in the Southwest addresses a host of unresolved issues in textile research and provides critical tools for resolving them It is an essential resource for anyone who appreciates the intricacy of these outstanding creations

Navajo Textiles Nancy J. for Craftsman Interiors Linda Parry, David Cathers, 2010 The rugs used in Craftsman interiors are arguably the most understudied of all the decorative arts of the Arts and Crafts movement These rugs were at once useful and beautiful and they added subdued color rugged texture and understated pattern to the rooms they graced playing a fundamental role in the visual harmony of the Craftsman domestic interior Though Stickley was primarily a furniture maker and a publisher and did not manufacture rugs he did choose them and his choices completed the elegant simplicity of the Craftsman house He often considered the art of rug making in The Craftsman and he also used the magazine to advertise the affordable well designed rugs that he sold in his retail stores and mail order catalogs for at least thirteen years Arts and Crafts Rugs for Craftsman Interiors considers both the rugs that The Craftsman recommended and designs by artists who influenced the work and philosophy of Stickley Among the rugs discussed are works by British Arts and Crafts luminaries William Morris Gavin Morton C F A Voysey and Evelyn Gleeson druggets imported from India Navajo blankets and rugs and rare Crex and Abnakee examples Presenting an engaging study of an overlooked aspect of the Arts and Crafts movement this essential publication includes more than 125 color and black and white illustrations many of them featuring rugs drawn primarily from the collection of Crab Tree Farm Book Jacket *Public Native America* Mary Lawlor, 2006 In Public Native America Mary Lawlor
