challenges the conventional notion that the introduction of market capitalism necessarily leads to the destruction of native cultural values. She shows instead that contact with new markets provided the Navajos with ways to diversify their household based survival strategies. Through adapting to new kinds of work, Navajos actually participated in the reworking of modernity in their region, weaving an alternate culturally specific history of capitalist development. O'Neill chronicles a history of Navajo labor that illuminates how cultural practices and values influenced what it meant to work for wages or to produce commodities for the marketplace. Through accounts of Navajo coal miners, weavers, and those who left the reservation in search of wage work, she explores the tension between making a living the Navajo way and working elsewhere. Focusing on the period between the 1930s and the early 1970s, a time when Navajos saw a dramatic transformation of their economy, O'Neill shows that Navajo cultural values were flexible enough to accommodate economic change. She also examines the development of a Navajo working class after 1950 when corporate development of Navajo mineral resources created new sources of wage work and allowed former migrant workers to remain on the reservation. Focusing on the household rather than the workplace, O'Neill shows how the Navajo home serves as a site of cultural negotiation and a source for affirming identity. Her depiction of weaving particularly demonstrates the role of women as cultural arbitrators, providing mothers with cultural power that kept them at the center of what constituted Navajo-ness. Ultimately, *Working the Navajo Way* offers a new way to think about Navajo history, shows the essential resilience of Navajo lifeways, and argues for a more dynamic understanding of Native American culture overall.

Patterns of Exchange Teresa J. Wilkins, 2013-03-15. The Navajo rugs and textiles that people admire and buy today are the result of many historical influences, particularly the interaction between Navajo weavers and the traders who guided their production and controlled their sale. John Lorenzo Hubbell and other late nineteenth century traders were convinced they knew which patterns and colors would appeal to Anglo-American buyers, and so they heavily encouraged those designs. In *Patterns of Exchange*, Teresa J. Wilkins traces how the relationships between generations of Navajo weavers and traders affected Navajo weaving. The Navajos valued their relationships with Hubbell and others who operated trading posts on their reservation. As a result, they did not always see themselves as exploited victims of a capitalist system. Rather, because of Navajo cultural traditions of gift giving and helping others, the artists slowly adapted some of the patterns and colors the traders requested into their own designs. By the 1890s, Hubbell and others commissioned paintings depicting particular weaving styles and encouraged Navajo weavers to copy them, reinforcing public perceptions of traditional Navajo weaving. Even the Navajos came to revere certain designs as the weaving of the ancestors. Enhanced by numerous illustrations, including eight color plates, this volume traces the intricate play of cultural and economic pressures and personal relationships between artists and traders that guided Navajo weavers to produce textiles that are today emblems of the Native American Southwest. Winner, Multi-cultural Subject, New Mexico Book Awards.
