Naval Review 1962 1963

**United States. Congress. Joint Senate-
House Armed Services Subcommittee
on CVAN-70 Aircraft Carrier**

Naval Review 1962 1963:

Naval Review 1962-1963 Frank Uhlig,1963 **Naval Review** ,1962 **Naval Review, 1962-1963** United States Naval Institute,Frank Uhlig,1962 A Concise History of the United States Marine Corps, 1775-1969 William D. Parker,1971

A Concise History of the United States Marine Corps, 1775-1969 United States. Marine Corps,1970 **Monthly Catalog of United States Government Publications** ,1961 Monthly Catalog of United States Government Publications United States. Superintendent of Documents,1961 *The Royal Navy and Nuclear Weapons* Richard Moore,2018-12-07 This work examines British thinking about nuclear weapons in the period up to about 1970 looking at the subject through the eyes of the Royal Navy in the belief that this can offer new insights in this field The author argues that the Navy was always sceptical about nuclear weapons both on practical grounds and because of wartime and pre war experiences He suggests that this scepticism can teach us a good deal about military technological innovation in general **Monthly Catalog of United States Government Publications, Cumulative Index** United States. Superintendent of Documents,1980 The National Union Catalogs, 1963- ,1964 **Applied Mechanics Reviews** ,1969 Air University Library Index to Military Periodicals ,1965 **New Serial Titles** ,1990 A union list of serials commencing publication after Dec 31 1949 **A Guide to the Sources of British Military History** Robin Hlgham,2015-10-05 Designed to fill an overlooked gap this book originally published in 1972 provides a single unified introduction to bibliographical sources of British military history Moreover it includes guidance in a number of fields in which no similar source is available at all giving information on how to obtain access to special collections and private archives and links military history especially during peacetime with the development of science and technology **Tactical Nuclear Weapons** Stockholm International Peace Research Institute,2020-11-19 In the 1970s tactical nuclear warfare was a topical issue The introduction of the new generation of tactical nuclear weapons into Europe could have had disastrous consequences These new weapons had already been developed by nuclear weapon laboratories and pressures were growing for their deployment On first sight smaller and more accurate nuclear weapons may seem more humane and militarily preferable to the relatively high yield tactical nuclear weapons currently deployed But some of these new types of weapons would blur the distinction between nuclear and conventional weapons and their use would make escalation to strategic nuclear war extremely likely Indeed the argument for these new weapons is that their use in wartime is more credible and therefore acceptable than current types of tactical nuclear weapons This perception could easily lead to the exceedingly dangerous idea that some types of tactical nuclear war were winnable The fact has to be faced that any use of nuclear weapons is almost certain to escalate until all available weapons are used To believe otherwise is to believe that one side will surrender before it has used all the weapons in its arsenal History shows that this is most unlikely to happen Because of its importance SIPRI organized a meeting to discuss the whole question Originally published in 1978 this book is the outcome of that meeting *Writing guide* Marine Corps

Historical Center (U.S.),2004 *The Space Station Decision* Howard E. McCurdy,2008-01-16 Selected by Choice Magazine as an Outstanding Academic Title Outstanding Academic Title 1991 Choice Magazine Although building a space station has been an extraordinary challenge for America s scientists and engineers the securing and sustaining of presidential approval congressional support and long term funding for the project was an enormous task for bureaucrats The Space Station Decision examines the history of this controversial initiative and illustrates how bureaucracy shapes public policy Using primary documents and interviews Howard E McCurdy describes the events that led up to the 1984 decision to build a permanently occupied international space station in low Earth orbit As he follows the trail of the space station proposal through the labyrinth of White House policy review McCurdy explains the evolution of the presidential budget review process the breakup of the cabinet system the proliferation of subcabinets and Executive Office interagency the involvement of White House staff in framing issues for presidential review and the role of bureaucracy in advancing administration legislation on Capitol Hill Comparing the space station decision to earlier decisions to go to the moon and to build the space shuttle McCurdy shows how public officials responsible for long term science and technology policy maneuvered in a political system that demanded short term flexibility **The New Economics of National Defense** John J. Clark,1966 Chapter 3 includes a history of war gaming **CVAN-70 Aircraft Carrier, Joint Hearings with the House Armed Services Committee Before the Joint Senate-House Armed Services Subcommittee ... 91-2, April 7, 8, 10, 13, 15, and 16, 1970** United States. Congress. Senate. Armed Services,1970 CVAN-70 Aircraft Carrier United States. Congress. Joint Senate-House Armed Services Subcommittee on CVAN-70 Aircraft Carrier,1970 Joint hearing to study the need for the CVAN 70 attack aircraft carrier and the need to incorporate funds for the carrier into the FY71 budget to preserve lead time continuity Witness panel includes John H Chafee Secretary of the Navy Admiral Thomas H Moorer Chief of Naval Operations Rear Admiral James L Holloway III Nuclear Propelled Attack Program Coordinator Office of the Chief of Naval Operations Senator Walter F Mondale Representative Williams S Moorhead Desmond P Wilson Jr Center for Naval Analyses General Earle G Wheeler Chairman Joint Chiefs of Staff Vice Admiral Hyman G Rickover Director Naval Reactors Division Atomic Energy Commission and William W Kaufmann Professor of Political Science Massachusetts Institute of Technology
