

THE
NAVAL HISTORY
OF
GREAT BRITAIN.

From the earliest Account of Time, to the
Beginning of the Reign of Queen Elizabeth.

THOUGH the navy of England has, as it were, by imperceptible degrees, advanced to its present power and grandeur; yet Great-Britain, even before the time that Cæsar invaded it, was not destitute of a naval force, which, in Mr. Selden's opinion, had been weakened, if not totally destroyed, when the Venetii, their allies, were defeated.

The Romans were too wise a people, not to be convinced of the necessity of maintaining a fleet to defend this island from being invaded by the nations on the continent, and therefore were careful to put the navy on a respectable footing; tho' we hear of few expeditions undertaken at this early period. Caius Carausius, commander of the British fleet in the year 288, cleared the coast of pirates, who had taken advantage of the distractions of the Roman empire to enrich themselves, at the expence of their country. Carausius, after destroying those pests of society, made himself master of Bouloigne, and several other adjacent places on the coast of France, having received information that Maximian, emperor of Rome, had given orders for taking away his life privately; a sufficient reason for him to provide for his own safety. Nor was this a task of any great difficulty; his prudent conduct, and engaging behaviour, had acquired the love of his sailors, and the Roman

Naval History Of Britain:

The Price of Victory: A Naval History of Britain: 1815-1945 N. A. M. Rodger, 2025-05-13 The final installment of N A M Rodger's definitive authoritative trilogy on Britain's naval history Across two acclaimed volumes preeminent naval historian N A M Rodger has traced the progress of naval warfare in Britain from the seventh century through to Trafalgar combining decades of scholarship with original insights and analysis In this final volume N A M Rodger delivers a magisterial history of the Royal Navy beginning after its defeat of Napoleon and concluding in 1945 with the Second World War At the end of the French and Napoleonic Wars British sea power was at its apogee But by 1840 as one contemporary commentator put it the Admiralty was full of intellects becalmed in the smoke of Trafalgar How the Royal Navy reformed and reinvigorated itself in the course of the nineteenth century is just one thread in this magnificent book which refuses to accept standard assumptions and analyses Rodger's comprehensive narrative goes beyond the conduct of war at sea to tell a sprawling story of naval warfare as a national endeavor As in previous volumes the social history of officers and men and now also women has a prominent place Along the way he describes the development and strategic significance of submarine and navy air forces and the rapid evolution of weapons and ships from classic Nelsonian type to hybrid steam sail ships then armor clad and the fully armored Dreadnoughts and beyond He assesses the character and importance of leading admirals Beatty Fisher Cunningham together with the roles of other less famous but no less consequential figures Rodger sets all this in the essential context of politics and geo strategy Based on a lifetime's learning *The Price of Victory* is a masterful culmination of one of the most significant British historical works in recent decades Naval specialists will find much that is new and will be invigorated by the originality of Rodger's judgments but everyone who is interested in one of the central threads in British history will find it rewarding

The Command of the Ocean N. A. M. Rodger, 2005 N A M Rodger provides reassessments of such famous figures as Pepys Hawke Howe and St Vincent The particular and distinct qualities of Nelson and Collingwood are contrasted and the world of the officers and men who made up the originals of Jack Aubrey and Horatio Hornblower is brought to life Rodger's comparative view of other navies French Dutch Spanish and American allows him to make a fresh assessment of the qualities of the British **BOOK JACKET** **The naval history of Great Britain, from ... 1793, to ...**

1820, with an account of the origin and increase of the British navy William James, 1826 *The Naval History of Great Britain* William James, 1902 *The Naval History of Great Britain, From ... 1793, to ... 1820, With an Account of the Origin and Increase of the British Navy.* Chamier William James, 2023-07-18 William James's classic work of naval history is a fascinating account of one of the most important periods in British naval history From the wars with France and Spain to the rise of British naval power in the 19th century James covers it all The book is filled with vivid descriptions of battles at sea portraits of great naval commanders and insights into the workings of the Royal Navy This is a must read for anyone interested in naval history or British history in general This work has been selected by scholars as being culturally important
