Navigating Sovereignty World Politics Lost In China:

Navigating Sovereignty C. Shih, 2016-02-16 In this book the author undertakes a postcolonial analysis of identities the Chinese state uses to confront world politics and globalization Because these identities are created at the confluence of Western modernity and Confucian tradition two elements that are continually reinterpreted themselves the result is an ambiguity regarding the identities best suited to explain Chinese behavior The author argues that this uncertainty is not a new condition but one that reaches back to end of the nineteenth century It is by understanding this ambiguity surrounding identities that will in turn help present day authorities predict the future course of Chinese behavior in world politics

Sovereignty in China Maria Adele Carrai, 2019-08 This book provides a comprehensive history of the emergence and the formation of the concept of sovereignty in China from the year 1840 to the present It contributes to broadening the history of modern China by looking at the way the notion of sovereignty was gradually articulated by key Chinese intellectuals diplomats and political figures in the unfolding of the history of international law in China rehabilitates Chinese agency and shows how China challenged Western Eurocentric assumptions about the progress of international law It puts the history of international law in a global perspective interrogating the widely held belief of international law as universal order and exploring the ways in which its history is closely anchored to a European experience that fails to take into account how the encounter with other non European realities has influenced its formation

Navigating Sovereignty Chih-yu Shih, 2004-01-03 In this book the author undertakes a postcolonial analysis of identities the Chinese state uses to confront world politics and globalization Because these identities are created at the confluence of Western modernity and Confucian tradition two elements that are continually reinterpreted themselves the result is an ambiguity regarding the identities best suited to explain Chinese behavior The author argues that this uncertainty is not a new condition but one that reaches back to end of the nineteenth century It is by understanding this ambiguity surrounding identities that will in turn help present day authorities predict the future course of Chinese behavior in world politics

Managing China's Sovereignty in Hong Kong and Taiwan S. Tok, 2013-04-30 Is China always defensive about its sovereignty issues Does China see sovereignty essentially as absolute Victorian or Westphalian Sow Keat Tok suggests that Beijing has a more nuanced and flexible policy towards sovereignty than previously assumed By comparing China's changing policy towards Taiwan and Hong Kong the author relates the role of previous conceptions of the world order in China's conception of modern sovereignty thereby uncovers Beijing's deepest concern when dealing with its sovereignty issues

China, State Sovereignty and International Legal Order Phil C.W. Chan, 2015-05-19 China's rise has aroused apprehension that it will revise the current rules of international order to pursue and reflect its power and that in its exercise of State sovereignty it is unlikely to comply with international law This book explores the extent to which China's exercise of State sovereignty since the Opium War has shaped and contributed to the legitimacy and development of international law and the direction in which international legal

order in its current form may proceed It examines how international law within a normative institutional framework has moderated China's exercise of State sovereignty and helps mediate differences between China's and other States' approaches to State sovereignty such that State sovereignty and international law may be better understood *The Rise of China and Chinese International Relations Scholarship* Hung-jen Wang, 2013-08-23 This book looks at the relationship between Chinese international relations IR scholarship and China's rise as a world power Specifically it addresses how China's rising international status since the early 1990s has shaped the country's IR studies and the different ways that Chinese IR scholars are interpreting that rise The author argues that the development of IR studies in China has been influenced by China's past historical experiences its recent change in status in world politics and indigenous scholarly interpretations of both factors Instead of treating Chinese IR scholars as value free social scientists the author shows how Chinese scholars as purposive strategic and emotional actors tend to manipulate existing mostly Western IR theories to support their policy propositions and identity statements This book represents one of few efforts to determine how local Chinese scholars are constructing IR knowledge how they are dealing with intersections between indigenous Chinese and imported IR theory and concepts and how Chinese scholars are analyzing their China in terms of its current rise to power **China and the United Nations** Janka Oertel, 2015-03-26 This comprehensive and innovative book examines and explains the development of the relationship between China and the United Nations in the first decade of the twenty first century Using historical research and contemporary case studies the book stresses the importance of domestic determinants of UN policy and concludes that the chances for international actors to significantly influence Chinese UN policy making remain very limited **Unifying China, Integrating with the World** Allen Carlson, 2008 This book contends that sovereignty and more directly the extent to which it creates walls between any given state and other actors in the international system lies at the core of China's foreign relations during the reform era Geopolitical Exotica Dibyesh Anand, *Geopolitical Exotica* examines exoticized Western representations of Tibet and Tibetans and the debate over that land's status with regard to China Concentrating on specific cultural images of the twentieth century promulgated by novels popular films travelogues and memoirs Dibyesh Anand lays bare the strategies by which Exotica Tibet and Tibetanness have been constructed and he investigates the impact these constructions have had on those who are being represented Although images of Tibet have excited the popular imagination in the West for many years *Geopolitical Exotica* is the first book to explore representational practices within the study of international relations Anand challenges the parochial practices of current mainstream international relations theory and practice claiming that the discipline remains mostly Western in its orientation His analysis of Tibet's status with regard to China scrutinizes the vocabulary afforded by conventional international relations theory and considers issues that until now have been undertheorized in relation to Tibet including imperialism history diaspora representation and identity In this masterfully synthetic work Anand establishes that postcoloniality provides new insights into themes of representation and

identity and demonstrates how IR as a discipline can meaningfully expand its focus beyond the West Dibyesh Anand is a reader in international relations at the University of Westminster London Tibetan Studies in Comparative Perspective Chih-yu Shih, Yu-Wen Chen, 2018-10-24 Politics history and religion have long lent Tibet a glamorous air particularly in the West But Tibet can be understood in an astonishingly wide variety of other ways including linguistic ecological environmental and climatological geographical geological economic biologic sociologic medicinal Tibetan Studies in Comparative Perspective touches on all the elements of the Tibet issue offering invaluable insight to a wide variety of readers from specialists to those with a general interest in the topic By putting readers into the shoes of all the stakeholders from the Dalai Lama in his home in exile and the various Tibetan exile communities to decision makers in Beijing New Delhi Washington and London the issues at stake come into bold relief Furthermore the book examines the potential opportunities that lay ahead documents where and how Tibetans have been dispersed and offers a glimpse into the social and political undercurrents sending shudders through this exiled nation With the chasm between exiles and indigenous Tibetans growing ever larger what challenges do Tibetans confront just to remain Tibetan And how will this shape the future of their political movement The book provides a timely re examination of the contemporary predicament of Tibetans both in and out of Tibet This book was published as two special issues of Asian Ethnicity **Central Asia and the Rise of Normative Powers** Emilian Kavalski, 2012-10-15 This book offers a unique analytical investigation of the international politics of the EU China and India in the context of their security strategies in Central Asia It shows how the interaction between these three actors is likely to change the frameworks and practices of international relations This is studied through their interactions with central Asia using the framework of normative powers and the concept of regional security governance Briefly a normative power shapes a target state s attitudes and perceptions as it internalizes and adopts the perspectives of the normative power as the norm The work comparatively studies the dynamics that have allowed Beijing Brussels and New Delhi to articulate security mechanisms in Central Asia and become rising normative powers This innovative study does not aim to catalog foreign policies but to uncover the dominant perceptions cognitive structures and practices that guide these actors regional agency as exemplified through the context of Central Asia It will be an essential resource for anyone studying international relations international relations theory and foreign policy analysis The Mind of Empire Christopher A. Ford, 2010-05-28 Ford s reading of Confucius is both shrewd and instructive with implications for contemporary policymakers a scholarly analysis of Chinese history The Weekly Standard China s prosperity has increased dramatically in the last two decades propelling the nation to a prominent position in the international community Yet China s ancient history still informs and shapes its understanding of itself in relation to the world As a highly developed and modern nation China is something of a paradox In The Mind of Empire China s History and Modern Foreign Relations Christopher A Ford demonstrates how China s historical awareness shapes its objectives and how the resulting national consciousness continues to influence the country s

policymaking Despite its increasing prominence among modern developed nations China continues to seek guidance from a past characterized by Confucian notions of hierarchical political order and a moral geography that places China at the center of the civilized world The Mind of Empire describes how these attitudes have clashed with traditional Western ideals of sovereignty and international law Ford speculates about how China's legacy may continue to shape its foreign relations and offers a warning about the potential global consequences He examines major themes in China's conception of domestic and global political order describes key historical precedents and outlines the remarkable continuity of China's Sinocentric stance Expertly synthesizing historical philosophical religious and cultural analysis into a cohesive study of the Chinese worldview Ford offers revealing insights into modern China A much needed and an erudite contextualization this book will benefit immensely those interested in the history and strategic culture of China's foreign policy The China Quarterly

Emerging China Sudhir T. Devare, Swaran Singh, Reena Marwah, 2014-03-21 This volume seeks to examine the evolving contours of Asian multilateralism through emerging China and how it is likely to impact on the growth trajectories of Asian countries From this perspective it explores the prospects for partnership in Asia especially in terms of China's engagement with its principal Asian neighbours especially India A substantial part of the volume is devoted to debating China India relations highlighting their mutual stakes through their economic and security cooperation as well as their engagement with other countries and regional forums The book furthers the understanding of the rise of China from an Indian perspective while simultaneously locating China's rise in the economic dynamics of an emerging Asia The volume offers illuminating viewpoints analyses and insights from multiple perspectives mixed with academic rigour and up to date information It will be of interest to those engaged in economics politics trade relations Indo China relations foreign policy area studies public policy and strategic studies

China and International Relations Zheng Yongnian, 2010-09-13 Focussing on one of the most influential scholars writing on international relations Wang Gungwu this book explores the limitations of Western international relations approaches to China and explains China's IR from a non Western perspective and demonstrates how the study of Chinese experiences can enrich the IR field

Taiwan and China Lowell Dittmer, 2017-10-03 A free ebook version of this title will be available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more China's relation to Taiwan has been in constant contention since the founding of the People's Republic of China in October 1949 and the creation of the defeated Kuomintang KMT exile regime on the island two months later The island's autonomous sovereignty has continually been challenged initially because of the KMT's insistence that it continue to represent not just Taiwan but all of China and later because Taiwan refused to cede sovereignty to the then dominant power that had arisen on the other side of the Taiwan Strait One thing that makes Taiwan so politically difficult and yet so intellectually fascinating is that it is not merely a security problem but a ganglion of interrelated puzzles The optimistic hope of the Ma Ying jeou administration for a new era of peace and cooperation foundered on a landslide

victory by the Democratic Progressive Party which has made clear its intent to distance Taiwan from China's political embrace. The Taiwanese are now waiting with bated breath as the relationship tautens. Why did it fail and what chance does Taiwan have without it? Contributors to this volume focus on three aspects of the evolving quandary: nationalistic identity, social economy and political strategy.

China and Iran Edward Burman, 2009-08-03 China and Iran have featured heavily in the news in recent years. China is both a military and an economic superpower with 20% of the world's population. Iran is suspected of developing nuclear weapons and arming terrorists and sits on the world's second largest oil and gas reserves. They are also surprisingly close geographically. Iran is only 700 miles across Afghanistan from China's extreme western border. A 25 year 100 billion deal to supply China with oil and gas and the large number of Chinese companies operating in Iran shows that the two are moving increasingly close in both political and economic terms. But what does this mean for the rest of the world and especially for the West? Edward Burman examines how the strikingly similar histories of these two ancient civilisations can inform what the likely consequences for the world of an alliance between them might be.

Knowledge, Desire and Power in Global Politics Chengxin Pan, 2012-01-01 China threat or China opportunity like beauty is in the eyes of the beholder. Western imaginations of China come under close scrutiny in this book in a new philosophical depth seldom attempted before. Dr Pan displays in full force his analytical skills and his mastery of knowledge both East and West. Contrary to conventional approaches he takes a step back to exercise a powerful reflective process to watch the China watchers with illuminating results. Dr Pan's book deserves wide and careful reading.

Professor Gerald Chan, University of Auckland, New Zealand. The rise of China is largely seen as either a threat or an opportunity. Chengxin Pan exposes both of these representations as expressions of Western fears and desires for certainty and predictability. His call for a more reflective and culturally sensitive understanding of China offers an important contribution to one of the big political debates of our time.

Professor Roland Bleiker, University of Queensland, Australia. This is a brilliant and insightful treatment of Western representations of China with a theoretical framework suggesting they come not only from China itself but also the West. Although it is not the first treatment of this topic it is innovative in considering the China threat and China opportunity both aspects of the rise of China are of crucial importance for our times. With provocative conclusions it is a truly path breaking contribution to the literature. I recommend it highly.

Emeritus Professor Colin Mackerras, Griffith University, Australia. Pan has produced a book which not only challenges some basic assumptions about the nature of China's rise but more importantly forces us to rethink the very basic starting points of how we know what we know about China.

Professor Shaun Breslin, University of Warwick, UK. How is the rise of China perceived in the West? Why is it often labelled as threat and or opportunity? What are the implications of these China imageries for global politics? Taking up these important questions this groundbreaking book argues that the dominant Western perceptions of China's rise tell us less about China and more about Western self imagination and its desire for certainty. Chengxin Pan expertly illustrates how this desire masked as China

knowledge is bound up with the political economy of fears and fantasies thereby both informing and complicating foreign policy practice in Sino Western relations Insofar as this vital relationship is shaped not only by China's rise but also by the way we conceptualise its rise this book makes a compelling case for critical reflection on China watching Knowledge Desire and Power in Global Politics is the first systematic and deconstructive analysis of contemporary Western representation of China's rise Setting itself apart from the mainstream empiricist literature its critical interpretative approach and unconventional and innovative perspective will not only strongly appeal to academics students and the broader reading public but also likely spark debate in the field of Chinese international relations

Democracy (Made in Taiwan) Chih-Yu Shih, 2008-01-17 Democracy Made in Taiwan argues that post colonialism and Confucianism met at the historical moment when democratization and liberalization occurred in Taiwan The familiar political science standards take little note of either Confucianism or postcolonialism In fact these standards are unbalanced wishful and Washington centric and result in a misunderstanding of Taiwan's performance The liberal bias blinds international observers to the hybrid characteristics embedded in Taiwan's postcolonial history Although this book is not about failing states per se its criticism of the standards of success alludes to the problematic nature of the mainstream view of failing states In many aspects Taiwan is a disguised failure or even a fake in the sense that its democratization adopts a populist identity strategy rather than a liberal one In addition its foreign policy compliance to hegemonic leadership is characterized by anti China determination instead of a realist approach involving the calculation of power Having said this the book does not criticize Taiwan for failing liberalism in order to prevent the liberal teleology from lingering on Instead Taiwan serves as an arena of polemics on political science in this book By rewriting domestic liberalism and external realism into meanings unknown to the hegemonic power Democracy Made in Taiwan celebrates Taiwan's postcolonial fluidity Embedded in a kind of ontological anomaly beyond the scope of mainstream political science which takes for granted the ontology informed by individualism in domestic politics and statism in international relations Taiwan's case appears subversive not because of the subversive nature of postcoloniality but due to the inability of political science's liberalism to make sense of postcoloniality Through decoupling the idea of political science from the entity known as Taiwan this book attempts to achieve two goals to re present Taiwan and to call for reflexive political science

Smokeless Sugar Emily M. Hill, 2010-10-20 Part history part biography and part mystery story Smokeless Sugar reveals how the concept of a national economy took shape in China by investigating the 1936 execution of Feng Rui a provincial official who introduced modern sugar milling in Guangdong Examining the circumstances of Feng Rui's arrest on charges of corruption Emily Hill traces the construction of a Chinese national economy through cross border interactions between industry and agriculture and between China and Japan She makes the case that Feng was in fact a scapegoat in a multi sided power struggle in which political leaders vied with commercial players for access to China's markets and tax revenues This illuminating study challenges conventional wisdom about the effectiveness of the Republican state in

promoting national unity during the Nanjing decade and highlights continuities in official economic policies from the 1930s to the Communist era **China: The Stealth Empire** Edward Burman, 2008-06-08 China The Stealth Empire asks why it is that China despite its size and once advanced culture and technology did not become a world power centuries ago Burman traces the answer through Chinese innate sense of superiority which made foreign conquest and trade an irrelevance This is about to change with the evolution of what is termed the Stealth Empire characterised by world dominance in the production of consumer goods a growing share of world manufacturing and a strong sense of nationalism The Chinese believe that they need to do nothing as they evolve by the middle of the century into the dominant world power Burman s book opens a window onto this history and growing sense of national destiny It will be essential reading for anyone wanting to understand what is going on in the Stealth Empire

Reviewing **Navigating Sovereignty World Politics Lost In China**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is actually astonishing. Within the pages of "**Navigating Sovereignty World Politics Lost In China**," an enthralling opus penned by a very acclaimed wordsmith, readers attempt an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve into the book's central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.

Navigating Sovereignty World Politics Lost In China Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Navigating Sovereignty World Politics Lost In China free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Navigating Sovereignty World Politics Lost In China free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading

Navigating Sovereignty World Politics Lost In China free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Navigating Sovereignty World Politics Lost In China. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Navigating Sovereignty World Politics Lost In China any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Navigating Sovereignty World Politics Lost In China Books

1. Where can I buy Navigating Sovereignty World Politics Lost In China books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
