Navy Times Of Submarines:

The Navy Times Book of Submarines Brayton Harris, 1997 Shattering long held myths and misunderstandings author Brayton Harris traces the development of the submarine through an era in which writers of fiction saw the merits better than most professionals until the Germans almost won World War I He covers the professional and political arrogance that delayed antisubmarine development for so long that German submarines almost won World War II as well and examines post war progress toward the truly awesome submarine of today Along the way Harris explores the shifting moral issues of unrestricted naval warfare outlines the hundred year search for an effective underwater power plant that culminated in the nuclear reactor and raises important questions about the future A fascinating exploration of the steps and stumbles during development a rousing tribute to those who fought and died and a powerful study of the submarine's impact on America The Navy Times Book of Submarines is an unparalleled source for understanding the great hunters of the deep *Air University Library Index to Military Periodicals*, 1999

In Oceans Deep Bill Streever, 2019-07-02 In this masterful account in the spirit of Bill Bryson and Ian Frazier a longtime deep sea diver masterfully weaves together the science and history of Earth's last remaining frontier the sea In an age of unprecedented exploration and innovation our oceans remain largely unknown and endlessly fascinating full of mystery danger beauty and inspiration In Oceans Deep celebrates the daring pioneers who tested the limits of what the human body can endure under water free divers able to reach 300 feet on a single breath engineers and scientists who uncovered the secrets of decompression teenagers who built their own diving gear from discarded boilers and garden hoses in the 1930s saturation divers who lived under water for weeks at a time in the 1960s and the trailblazing men who voluntarily breathed experimental gases at pressures sufficient to trigger insanity Tracing both the little known history and exciting future of how we travel and study the depths Streever's captivating journey includes seventeenth century leather hulled submarines their nuclear powered descendants a workshop where luxury submersibles are built for billionaire clients and robots capable of roving unsupervised between continents revolutionizing access to the ocean In this far flung trip to the wild night dark place of shipwrecks trapped submariners oil wells innovative technologies and people willing to risk their lives while challenging the deep we discover all the adventures our seas have to offer and why they are in such dire need of conservation

Cold War Submarines Norman Polmar, Kenneth J. Moore, 2004 Submarines had a vital if often unheralded role in the superpower navies during the Cold War Their crews carried out intelligence collection operations sought out and stood ready to destroy opposing submarines and from the early 1960s threatened missile attacks on their adversary's homeland providing in many respects the most survivable nuclear deterrent of the Cold War For both East and West the modern submarine originated in German U boat designs obtained at the end of World War II Although enjoying a similar technology base by the 1990s the superpowers had created submarine

fleets of radically different designs and capabilities Written in collaboration with the former Soviet submarine design bureaus Norman Polmar and K J Moore authoritatively demonstrate in this landmark study how differing submarine missions antisubmarine priorities levels of technical competence and approaches to submarine design organizations and management caused the divergence *Submarine Force Structure and Acquisition Policy* United States. Arkin,1990 *Naval War College Review* Naval War College (U.S.),1983 **Russia, the Asymmetric Threat to the United States** John Wood,2009-06-22 Exploring themes critical to understanding the current world order this book lays bare the reality of the new Russia that emerged under Vladimir Putin Russia holds the world s largest natural gas reserves the second largest coal and uranium reserves and the eighth largest oil reserves Europe is dependent on Russia for 25 percent of its oil and gas Russia is also positioning itself to play a similar role with respect to China The key to this strategy is a network of new oil and natural gas pipelines that Russia is in the process of constructing which will by pass the problematic Ukraine Georgia Poland and the Baltic States in the West and lock in the enormous potential of China in the East Further as the Western economies including the USA begin themselves to recover their growing energy dependence will come back into the forefront and therefore the need to ensure that Russia does not fail in its opening up of new energy resources in the Arctic and Eastern Siberia Russia is no longer a superpower in the Cold War sense of the word because its military is significantly weaker and as such is incapable of conducting a regional let alone global war against either the United States or NATO It is precisely because of its military weakness that Putin has been forced to adopt an asymmetric approach Thus the pipeline spigot and the proliferation of missiles and aircraft have become Russia s weapons of choice along with an ever growing reliance on its strategic nuclear forces to provide it with the necessary deterrent to foreign aggression In addition Putin and Medvedev have no interest in an arms race with the United States it is too costly and detracts from their priority which is economic reform From Putin s perspective America is in the process of imposing absolute security or as Joint Vision 2020 put it full spectrum dominance over the world As the sole remaining superpower the United States enjoys a massive strategic imbalance in its favor which it has used first to contain but now with the intent to control the world How NATO expansion lays the groundwork for a U S global missile defense system to contain perceived adversaries such as Russia which in turn secures the dominance of America through its Prompt Global Strike PGS capability the ability to strike anywhere on the planet with impunity within 90 minutes of the order being given by The President Thus PGS will be to the 21st Century what British Gun Boat Diplomacy was to the 19th Century In such a context Russia is forced to respond asymmetrically *They Fought Under the Sea* Navy Times,1962 Department of Defense Appropriations for ...
