Hitler's RAF Collaborators M.S. Morgan, 2024-06-30 This book delves into the controversial actions of British prisoners of war during World War II exploring cases of alleged betrayal collaboration and espionage During the Second World War over 200 000 British prisoners of war were detained by the Third Reich A large proportion of these PoWs were members of the Royal Air Force or airmen who served in it A number of them have been immortalised in the many books and movies that have portrayed their valiant exploits and escapes none more so than the events surrounding the Great Escape in 1944 The names of camps such as Stalag Luft III at Sagan and Colditz Castle are well known to the general public the prisoners incarcerated there often being held in high regard But there were a few PoWs whose loyalty to the cause and their

fellow prisoners might not have been as strong The names of Pilot Officer Railton Freeman Sergeant Jack Alcock and Sergeant Raymond Hughes are among those found in that inglorious group of alleged traitors for all three men betrayed their colleagues and the nation The trio assisted the Nazi regime in making radio broadcasts or even joining the British Frei Korps a unit of the dreaded SS One gave information about the Monica radar system to the Luftwaffe and others got fellow prisoners to divulge information on fake Red Cross forms Other prisoners such as Flight Lieutenant Julius Zuromski and Squadron Leader Robert George Carpenter also came under suspicion when reports began to arrive at MI9 in London Enquiries were subsequently undertaken by the RAF Special Investigation Branch and MI5 investigations that would ultimately lead to the imprisonment of some and the release of others What these men did and why some were prosecuted and others were released without charge is examined by the author Why one man in particular an ardent Nazi and traitor was not sentenced to death having liaised with the likes of the infamous William Joyce also known as Lord Haw Haw and even Josef Goebbels is a mystery to this day Sadly not all our aviators were heroes But there has long been debate that some of them might have actually been working for the Security Services So were these men traitors who collaborated with Hitler s Third Reich or agents working for the British State

Delusions of Intelligence R. A. Ratcliff, 2006-08-14 Publisher Description *The Great Rat Race for Europe* Joey Maddox, 2011 The Great Rat Race for Europe Stories of the 357th Fighter Group Sortie One tells the true stories of the Yoxford Boys of the 357th Fighter Group arguably the best Army Air Force fighter group in the European Theater during World War Two Aces Kit Carson Bud Anderson Johnny England Pete Peterson Chuck Yeager and others from this elite group of tigers eventually became famous after the war while other Yoxford Boys just melted back into the scenery that was the American post war years Those were the lucky ones as scores of these brave young American lads flying their P 51 Mustangs into combat against the Luftwaffe never saw home again as the result of this epic air war over Europe Their stories are all here including Leonard Kit Carson s account of The Great Rat Race which helped to break the back of the Luftwaffe from his fantastic book Pursue and Destroy the strange and sad end of decorated fighter ace Dittie Jenkins who safely returned from his last mission against the Nazis only to be killed while celebrating with an impromptu air show over Station 373 at Leiston and the first hand account of life in a Stalag Luft prisoner of war camp with Colonel Henry Spicer the irascible commanding officer of the American section of the POW camp and one time 357th Fighter Group Commanding Officer who drove the German officers to the brink with his rock solid spirit of rebellion and the love and admiration of his men Fly into weather so thick that the ducks are walking with Pete Peterson one of the leading aces of the Group as he walks you through a hair raising landing on Leiston Field with zero visibility and three inexperienced pilots on his wing Then 357th fighter pilot Joe Shea recaptures the common boredom ridden hours and terror stricken moments faced by replacement pilots of the Group during their first combat missions including Shea s account of his last encounter eyeball to eyeball with a German pilot in an Me 262 jet fighter as it slid over his wing and lined

up perfectly in his gun sight Relive the greatest as well as the worst days of the 8th Air Force's first long range Mustang fighter outfit in short stories written by the pilots of the 357th Fighter Group their families and this author in this collection of memories and tall tales of the famous Yoxford Boys The Colditz Myth S. P. Mackenzie, 2006 Though only one among hundreds of prison camps in which British servicemen were held between 1939 and 1945 Colditz enjoys unparalleled name recognition both in Britain and in other parts of the English speaking world Colditz remains a potent symbol of key virtues including ingenuity and perseverance against apparently overwhelming odds that form part of the popular mythology surrounding the British war effort in World War II Colditz has played a major role in shaping perceptions of the POW experience in Nazi Germany an experience in which escaping is assumed to be paramount and Outwitting the Hun a universal sport The story of Colditz has been told in a variety of forms but in this book MacKenzie chronicles the development of the Colditz myth and puts what happened inside the castle in the context of British and Commonwealth POW life in Germany as a whole Being a captive of the Third Reich from the moment of surrender down to the day of liberation and repatriation was more complicated and a good deal tougher than the popular myth would suggest The physical and mental demands of survival far outweighed escaping activity in order of importance in most camps almost all of the time and even in Colditz the reality was in some respects very different from the almost Boy's Own caricature that developed during the post war decades In The Colditz Myth MacKenzie seeks for the first time to place Colditz both the camp and the legend in a wider historical context Japan's Empire of Birds Annika A. Culver, 2022-03-24 As a transnational history of science Japan's Empire of Birds Aristocrats Anglo Americans and Transwar Ornithology focuses on the political aspects of highly mobile Japanese explorer scientists or cosmopolitan gentlemen of science circulating between Japanese and British American spaces in the transwar period from the 1920s to 1950s Annika A Culver examines a network of zoologists united by their practice of ornithology and aristocratic status She goes on to explore issues of masculinity and race related to this amidst the backdrop of imperial Japan's interwar period of peaceful internationalism the rise of fascism the Japanese takeover of Manchuria and war in China and the Pacific Culver concludes by investigating how these scientists repurposed their aims during Japan's Allied Occupation and the Cold War Inspired by geographer Doreen Massey themes covered in the volume include social space and place in these specific locations and how identities transform to garner social capital and scientific credibility in transnational associations and travel for non white scientists **The Moral Dilemmas of Fighting Terrorism and Guerrilla Groups** Jean-François Caron, 2023-01-30 **The Moral Dilemmas of Fighting Terrorism and Guerrilla Groups** discusses the most important ethical dilemmas associated with the fight against terrorist organizations and guerilla groups by providing readers with a rigorous yet accessible analysis of how these forms of violence can be justified and how they ought to be fought by entities targeted by groups resorting to these strategies It will be valuable to anyone interested in understanding the main ethical questions associated with these forms of political violence and the way they can be addressed

After providing conceptual clarifications that will allow the reader to distinguish between terrorism and guerrilla warfare it explains and discusses what the criteria are that can justify resorting to lethal violence on the part of the latter group as well as the criteria that can determine the identity of those who can legitimately be targeted by these groups The book analyzes when terrorists ought to be targeted and how this can be done focusing on the inherent problems associated with the solutions that are normally used against state actors in order to prevent attacks on their part namely what can be coined as non violent alternatives to war such as economic or diplomatic sanctions arm embargoes and non violent resistance and on the other hand preemptive attacks
