be the key to unlocking the fourth phase or the mistake that unleashes humanity's extinction across the stars Her Perspective: Gaia Speaks About Her True Story Alloya Huckfield, 2012-04-26 Whilst traveling with friends to a crystal dig Alloya finds herself in an altered state Suddenly Mother Earth Gaia appears to her as a beautiful goddess I want to tell you my story she says Words and images flood over her like a continuous movie film for three days as Alloya is barely able to speak drink or eat Afterwards she wonders how she will remember this amazing tale The Goddess tells her Do not worry This story you already know it is coded into the cells of your living body When you come to write my story all of this will come flooding back Journey with Alloya to the beginning of time as Gaia tells her true past If you've ever wondered about your soul's many incarnations into various life forms created by Gaia or what really happened in the herstory of our planet Her Perspective will answer your questions This compelling work will fill in the missing gaps empowering readers as they discover our ancient origins and the glorious beings that lie dormant within us *Tabula Raza* Duana Fullwiley, 2024-04-23 Duana Fullwiley has penned an intimate chronicle of laboratory life in the genomic age She presents many of the influential scientists at the forefront of genetics who have redefined how we practice medicine and law and understand ancestry in an era of big data and waning privacy Exceedingly relatable and human the scientists in these pages often struggle for visibility teeter on the tightrope of inclusion and work tirelessly to imprint the future As they actively imagine a more equal and just world they often find themselves ensnared in reproducing timeworn conceits of race and racism that can seed the same health disparities they hope to resolve Nothing dynamic can live for long as a blank slate an innocent tabula rasa But how the blank slate of the once raceless human genome became one of racial differences in various forms of what Fullwiley calls the tabula raza has a very specific and familiar history one that has cycled through the ages in unexpected ways **Save the People!** Stacy McAnulty, 2022-05-10 Save the People is engaging funny affecting and delightful You'll never have more fun learning science Stuart Gibbs bestselling author of the Spy School series Serious science and great gags with a bit of hope thrown in Steven Sheinkin bestselling author of Bomb and Fallout An action packed look at past present and future threats to humanity's survival with an ultimately reassuring message that humans probably have a few more millennia in us Scientists estimate that 99% of all species that have ever existed are now extinct Whoa So it's not unreasonable to predict humans are doomed to become fossil records as well But what could lead to our demise Supervolcanos Asteroids The sun going dark Climate change All the above Humans with our big brains opposable thumbs and speedy Wi-Fi may be capable of avoiding most of these nightmares The T rex would be super jealous of our satellites But we're also capable of triggering world ending events Learning from past catastrophes may be the best way to avoid future disasters Packed with science jokes and black and white illustrations Save the People examines the worst case scenarios that could but hopefully won't cause the greatest mass extinction our own **Fire in the Stone** Nicholas Ruddick, 2012-01-01 The genre of prehistoric fiction contains a surprisingly large and diverse group of fictional works by American British and French writers from the late nineteenth

century to the present that describe prehistoric humans Nicholas Ruddick explains why prehistoric fiction could not come into being until after the acceptance of Charles Darwin's theories and argues that many early prehistoric fiction works are still worth reading even though the science upon which they are based is now outdated Exploring the history and evolution of the genre Ruddick shows how prehistoric fiction can offer fascinating insights into the possible origins of human nature sexuality racial distinctions language religion and art The book includes discussions of well known prehistoric fiction by H G Wells Jules Verne J H Rosny A n Jack London William Golding Arthur C Clarke and Jean M Auel and reminds us of some unjustly forgotten landmarks of prehistoric fiction It also briefly covers such topics as the recent boom in prehistoric romance notable prehistoric fiction for children and young adults and the most entertaining movies featuring prehistoric humans The book includes illustrations that trace the changing popular images of cave men and women over the past 150 years *The Divine Light* Sorin Cerin, 2010-11-10 Everything have started by some few dreams which not just that I would never forget my entire life but more than that I don't think it was just dreams in the right sense of the notion dream I was conscious during the rest that I was sleeping What it could be said that I was dreaming is nothing else than a real experience in a space from where I can come back anytime in the world where I am sleeping I was at the beginning somewhere on the fringe of an unknown town in the night While I have looked at the multicolored lights from any distance I started to become easier so easy that I felt in a moment I could fly Sorin Cerin
