## **Perestroika Annual:**

*Perestroika Annual* Abel G. Abanbegyan, 1989 Fifteen Soviet experts explain the significance of perestroika and what it means to them Topics include democratization foreign policy the role of the media the economy science theater sports the environment and church state relations      **Perestroika Annual** Abel Aganbegyan, 1991 Presents a compilation of essays on the political social and cultural conditions in the Soviet Union under President Gorbachev      **Perestroika Annual** Abel Gezevich Aganbegiān, 1989      **Perestroika Annual** Abel Gezevič Aganbegân, 1988      **Beyond Capital** István Mészáros, 2018-11-01 Not only profound in its analysis but also so passionately inspired by sympathy for the downtrodden and their struggle for liberation Daniel Singer The Nation This is an important book heavy in size and tone It belongs in every serious library Choice      **State** , 1991      *Social Structure and Forms of Consciousness, Volume 1* István Mészáros, 2010-02 This new work the first in a two volume series by the leading Marxian philosopher of our day is a milestone in human self understanding It focuses on the location where action emerges from freedom and necessity the foundation of all social science Today as never before the investigation of the close relationship between social structure defined by Marx as arising from the life process of definite individuals and the various forms of consciousness is particularly important We can only perceive what is possible by first identifying the historical process that constrains consciousness itself and therefore social action The relationship between social structure and forms of consciousness discussed in this volume is multifaceted and profoundly dialectical It requires the presentation of a great wealth of historical material and the assessment of the relevant philosophical literature from Descartes through Hegel and the Liberal tradition to the present together with their connections with political economy and political theory István Mészáros moves beyond both abstract solutions to the surveyed methodological questions and one sided structuralist evaluation of the important substantive issues bringing the process of our understanding of social structure and consciousness to a level not previously attained Above all in the spirit of the Marxian approach even the most complicated problems are always analyzed in relation to the major practical concerns of our time The primary aim of this work is to outline the dialectical intelligibility of historical development toward a viable societal reproductive order *Social Structures and Forms of Consciousness* is of the highest importance as both a political and philosophical work illuminating the place from where we must act today      *The Soviet Transition* Ottorino Cappelli, Rita di Leo, Stephen White, 2014-04-08 Of course we watched it all on television day by day as the Evil Empire transmuted into the Circus Bear but seeing it and knowing what to think about it are not the same Scholars from eastern and western Europe and North America help out in 14 papers from an April 1992 conference in Naples      *Conscience, Dissent and Reform in Soviet Russia* Philip Boobbyer, 2008-08-05 Embracing the political intellectual social and cultural history of Soviet Russia this book provides a useful perspective of Putin's Russia Focusing on the ethics in Soviet Russia it explores the history of moral thinking amongst dissidents and examines the ethical assumptions of the perestroika era      **Perestroika Annual** Abel

Gezevich Aganbegan,1989      The Oligarchs David E Hoffman,2011-09-13 In this saga of brilliant triumphs and magnificent failures David E Hoffman the former Moscow bureau chief for the Washington Post sheds light on the hidden lives of Russia's most feared power brokers the oligarchs Focusing on six of these ruthless men Alexander Smolensky Yuri Luzhkov Anatoly Chubais Mikhail Khodorkovsky Boris Berezovsky and Vladimir Gusinsky Hoffman shows how a rapacious unruly capitalism was born out of the ashes of Soviet communism      End of Millennium Manuel Castells,2010-03-29 END OF MILLENNIUM This final volume in Manuel Castells trilogy studies the key defining processes taking place in the last decade of the twentieth century as an expression of the crises resulting from the transition between the old industrial society and the emerging global network society Every now and then one reads a book of social science that is uplifting and mind expanding These books are ambitious and lustrous teaching us much about our world Such is this work from the brilliant sociologist Manuel Castells There is no other sociological work today that brings together in one panoramic expanse so many of the changes now occurring This is a story not simply of global economic change but of cultural upheavals It is a tale not simply of the decline of sovereign states but of the emergence of the new bases of power And it is a narrative not merely about computer technology or the media but of the very terms in which those agents work Anthony M Orum Contemporary Sociology A magnum opus if ever there was one In my view the finest piece of contemporary social analysis for at least a generation Frank Webster British Journal of Sociology A truly stunning achievement A scholar who with remarkable mastery has brought his experience over a lifetime to bear on astonishingly diversified data set pulling them together into a compelling account of the complex relationship between the progressive and the reactionary the globalizing and particularizing forces that are transforming our perplexing world Benjamin Barber The Los Angeles Times Sunday Book Reviews      **Routledge Handbook of Major Events in Economic History** Randall E. Parker,Robert Whaples,2013 This book aims to introduce readers to the important macroeconomic events of the past two hundred years It explains what went on and why during the most significant economic epochs of the nineteenth twentieth and early twenty first centuries and how where we are today fits in this historical timeline      *Russia: From Revolution To Counter-Revolution* Ted Grant,

Ideologies in Conflict Chris S. Adams, Jr.,2001-07 The author characterizes this book as a docu story As such it is an exceptionally well researched and skillfully written chronology of the history of Russia the Soviet Union and the cold War The work is unusual and unique It is unusual because unlike most books of an historical nature it is free flowing and not tightly structured It is unique because it is written with considerable input from the author's personal experiences interwoven with perceptions and anecdotal observations The work is Assertive I have no doubt that there was Cold War I fought in it The Author Candid Stalin is an unconscionable dictator but I liked the little son of a bitch Truman Provocative Truman is worthless Stalin and Challenging Why not set a goal just between the two of us let's find a practical way to solve our critical issues Reagan and we can set a specific agenda for how to straighten out Soviet American relations Gorbachev Finally it is

Cautionary The world has become in many respects a safer place Unfortunately it is also still a dangerous place fraught with uncertainty Commander in Chief US Strategic Command and The missile force is in the same state of readiness as ten years ago My men and my missiles are always ready General of the Army Igor Sergeyev Republic of Russia      **Gorbachev and his Revolution** Mark Galeotti,1997-01-29 By turns radical uncertain ambitious and autocratic Mikhail Gorbachev and his bid to reform the Soviet Union have shaped the contemporary world This concise and lively book provides an introduction to the man and his times setting them in the context of a decaying and ramshackle empire and an ideology long since betrayed by its professed followers Drawing on the latest memoirs and scholarship this book follows Gorbachev s increasingly desperate attempts to control the forces he unleashed and hold together a state whose days were over      **Détente in Europe** John Van Oudenaren,1991 The monumental events in Eastern Europe and the Soviet Union must be understood Jan Van Oudenaren argues in the context of a process of East West détente begun in 1953 in the aftermath of Stalin s death Van Oudenaren s comprehensive and timely study examines the development of Soviet Western détente from the death of Stalin to the unification of Germany In redefining détente as a process rather than a code of conduct Van Oudenaren looks to its origins in Soviet policy earlier than previously identified and analyzes both its history and character His study explores the restoration of four power negotiations in Germany and Austria in the mid 1950s their subsequent breakdown in the Berlin crisis their unexpected revival in 1990 in the form of two plus four talks on German unity and the future of the Soviet Union as a European power Among the key elements of détente discussed are diplomacy particularly the role of summit conferences cooperation among parliaments political parties and trade unions arms control economic relations and links among cultural institutions churches and peace movements      **Inside the Cold War a cold warrior's reflections** ,      *Eastern Europe Since 1970* Bulent Gokay,2015-12-22 From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region
