Perestroika A Marxist Critique:

Perestroika Sam Marcy, 1990 **The Road to Disillusion: From Critical Marxism to Post-communism in Eastern Europe** Raymond C. Taras, 2015-02-24 The history of reform movements in postwar Eastern Europe is ultimately ironic inasmuch as the reformers successes and defeats alike served to discredit and demoralize the regimes they sought to redeem The essays in this volume examine the historic and present day role of the internal critics who whatever their intentions used Marxism as critique to demolish Marxism as ideocracy but did not succeed in replacing it Included here are essays by James P Scanlan on the USSR Ferenc Feher on Hungary Leslie Holmes on the German Democratic Republic Raymond Taras on Poland James Satterwhite on Czechoslovakia Vladimir Tismaneanu on Romania Mark Baskin on Bulgaria and Oskar Gruenwald on Yugoslavia In concert the contributors provide a comprehensive intellectual history and a veritable Who's Who of revisionist Marxism in Eastern Europe *Stalinism and the Dialectics of Saturn* Douglas Greene, 2023-03-20 This study examines the complicated legacy of Stalinism in the twentieth century The descent of the Russian Revolution into Stalinism has given rise to an oft accepted truism that revolutions are like Saturn and will devour their own children For anticommunists Stalinism is condemned as a bolt from blue whether an insidious contagion Big Brother or totalitarian reason that socialism cannot escape from On the other end Communists and their fellow travelers have seen Stalinism as a force of historical necessity and the only way for the working class to reach a communist society Both these twin camps accept a Dialectic of Saturn where Stalinism whether for evil or good is the preordained fate of all socialist revolutions However there is another position that views Stalinism as the product of material circumstance and class struggle This position was represented by Leon Trotsky in his seminal work *The Revolution Betrayed* In contrast to those who accept a mystical dialectic of Saturn Trotsky argued that Stalinism can be rationally explained and was not inevitable outcome of socialism

On Your Marx Randy Martin, 2002 Reclaims Marx for today through a fundamental reconsideration of how his works should be read Why and how does Marx speak to our day Seeking to reestablish the link between Marx socialism and the Left this book negotiates the common ground between orthodox marxism and postmarxism to show how Marx can elaborate the present More than a claim for his relevance this book is also a forceful statement about how theory relates to political project and organization What Randy Martin asks does Marx have to say to the discourses of radical democracy postmodernism and globalization all of which purport to solve problems that emerge in Marx's writings A reading of Marx can in fact disclose the limitations of the contemporary modes of criticism identifying the difficult conceptual problems that cannot be avoided or overcome Using readings of Marx to restage contemporary political discussions *On Your Marx* reengages orthodox and postmarxist understandings in a critical and constructive conversation In doing so the book points to powerful new alliances between cultural and political theorists and activists opening new possibilities for mobilization and social justice **The Contradictions of "Real Socialism"** Michael A. Lebowitz, 2012-08-01 What was real socialism the term which originated in

twentieth century socialist societies for the purpose of distinguishing them from abstract theoretical socialism In this volume Michael A Lebowitz considers the nature tendencies and contradictions of those societies Beginning with the constant presence of shortages within real socialism Lebowitz searches for the inner relations which generate these patterns He finds these in particular in what he calls vanguard relations of production a relation which takes the apparent form of a social contract where workers obtain benefits not available to their counterparts in capitalism but lack the power to decide within the workplace and society While these societies were able to claim major achievements in areas from health care to education to popular culture the separation of thinking and doing prevented workers from developing their capacities as fully developed human beings The relationship within real socialism between the vanguard as conductor and a conducted working class however did not only lead to the deformation of workers and those elements necessary for the building of socialism it also created the conditions in which enterprise managers emerged as an incipient capitalist class which was an immediate source of the crises of real socialism As he argued in *The Socialist Alternative Real Human Development* Lebowitz stresses the necessity to go beyond the hierarchy inherent in the relation of conductor and conducted and beyond the vanguard Marxism which supports this to create the conditions in which people can transform themselves through their conscious cooperation and practice i e a society of free and associated producers 1978-1989 Heinz-Dietrich Fischer,2020-01-20 No detailed description available for 1978 1989 The postsocialist contemporary Octavian Esanu,2021-11-23 The postsocialist contemporary joins a growing body of scholarship debating the definition and nature of contemporary art It comes to these debates from a historicist perspective taking as its point of departure one particular art programme initiated in Eastern Europe by the Hungarian American billionaire George Soros First implemented in Hungary the Soros Center for Contemporary Art SCCA expanded to another eighteen ex socialist countries throughout the 1990s Its mission was to build a western open society by means of art This book discusses how network managers and artists participated in the construction of this new social order by studying the programme s rise evolution impact and broader ideological and political consequences Rather than recounting a history its engages critically with contemporary art as the aesthetic paradigm of late capitalist market democracy **World Marxist Review** ,1989 *Marx Worldwide* Jan Hoff,2016-11-21 In his study Jan Hoff charts the unprecedented global boost that has been experienced by critical Marxism since the mid 1960s In particular Hoff shows the development of interpretations of Marx s method of critical social theory oriented towards Marx s critique of political economy and of significant disputes concerning the different versions and iterations of the critical project that ultimately culminated in Capital His book investigates the globalisation of Marx debates the complex network of international theoretical approaches that have been devised between the poles of science and politics the transfer of theory and the historical development of schools of thought beyond national and linguistic borders Marx Worldwide provides an overview of Marx reception in various regions of the world in which the extra European process of theory formation receives particular

attention and it shows how despite the supersession of Marxism in the sense of an all encompassing worldview the Marxian aim of providing an explication of the internal connection of economic categories and relations and thereby of accomplishing the de mystification of the deranged world of the economy is as relevant and as theoretically important as it has ever been First published in German by Akademie Verlag as Marx Global Zur Entwicklung des internationalen Marx Diskurses seit 1965 Berlin 2009

The Literate Communist Donald Clark Hodges, 1999 Hodges philosophy and political science Florida State U contends that the immensely influential political tract is not as it claims a forthright and faithful expression of what communists believed in 1848 He explores its conspiratorial past in the French Revolution Marx and Engel s informal amendments and the adaptations and interpretations that have pulled it in different directions for the past century and a half He shows how it played a key ideological role in both the rise and fall of the Soviet Union Annotation copyrighted by Book News Inc Portland OR

Marxism in Dark Times Sobhanlal Datta Gupta, 2013-10-15 Offering an alternative exploration of the subject Marxism in Dark Times anchors its investigation of Marxism in the conceptual spheres of humanism democracy and pluralism Its essays question the stereotyped positivist notion of the theory as practised by the exponents of official Marxism highlight the legacy of the suppressed voices in the Marxist tradition and provide new insights into reading Marxism in the twenty first century affording new perspectives on Antonio Gramsci Rosa Luxemburg Nikolai Bukharin David Ryazanov and the Frankfurt School They seek to review the phenomenon of Perestroika explore the new historiography on Comintern and examine the relation between Marxism and postmodernism With its wide ranging provision of materials some translated here into English from German and Russian for the first time this collection offers a pioneering English assessment of some of the most debatable issues in contemporary Marxism

The Soviet Colossus Michael G. Kort, 2019-04-17 The Soviet Colossus revisits the turning points in Russia s modern history from the fall of the tsarist regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism the reforms and counter reforms of Khrushchev and Brezhnev to the reform program of Mikhail Gorbachev and the resultant collapse of the Soviet Union and from the effort to build a democratic and free market Russia under Boris Yeltsin to the political authoritarianism and the establishment of a state capitalist economy under Vladimir Putin This eighth edition has been revised and updated to cover the latest developments from the Putin administration These revisions include added emphasis on the increasing authoritarian nature of Russia s political system the serious challenges posed by the country s unsolved economic and social problems and the growing tensions between Russia on the one hand and the United States and the European Union on the other as a result of Moscow s aggression against Ukraine Kort combines this updated account with a broad exploration of Russia s political history examining how the Soviet past has been woven into the fabric of the modern Russian state a state which plays such a major assertive role in global affairs but which simultaneously remains an allusive secretive entity With Russia s increasing influence on the global stage and the controversies that often accompany this The Soviet Colossus is an
