My Life and Other Stories Bob Elles, 2013-05-14 Intelligence comes from ignorance as wisdom comes from naivet and there is nothing like gathering both from people who represent a diverse swath of nations throughout the world As cultures require contact with each other in order to grow and remain viable and not succumb to atrophy man too requires contact with men of different beliefs and practices No one nation or culture or religion has a hold on logic or is immune to extremism I feel blessed that Ive had the opportunity to absorb and learn about aspects of life that Im sure I wouldnt have learned otherwise In fact my whole belief system was changed over the past forty five years through this contact I began to do some research on my family and what I learned coupled with what I had experienced in my life literally brought me to tears in gratitude and admiration and hopefully in wisdom If you like to sit down and listen to stories told by say an old friend an uncle or a person with wrinkles on his face grey in his hair and a sparkle of wisdom in his eyes coupled with a smile on his face then you should so bother If you dont then stop right here and go pick up and read a book on vampires or loves lost or whatever turns your fancy My life has been tragic and wondrous and I have what I call life lessons that I believe you will find helpful in your life Ill even go so far as to say that given even a fraction of introspection in you your life will be significantly altered after youve read this book I know that doesnt sound humble but I also know this to be true I have learned forgot and made up many a good story Keep this in mind when you read these chapters stories compiled within this book Are they all true Mostly with only the most embarrassing events removed An old retired Air Force fighter pilot once told me I have secrets only God and I know and thats the way it will remain

**Turbo's Very Life and Other Stories** Carroll Dale Short, 2005-01-01 In the eighteen stories in this retrospective of his best short fiction Dale Short shows why he is one of the best prose stylists of his generation and why he deserves a break out success Short s writing has been hailed by Wally Lamb as simultaneously mythical and modern a wild ride and Dennis Covington has called him wise and compassionate a major Southern writer He writes here from many perspectives male female first person third person grieving widow newly divorced dad jailed redneck riverman laid up with heart trouble conjure woman and in every story the voice is as true as that of a child and as clear as fresh ice The marvel of Short s prose is that the writing is so good it disappears leaving the reader surrounded only by the story which resonates long after the last word is absorbed The other remarkable thing is how Short can go from comedy to tragedy within a single paragraph sometimes within a single sentence and then back again His timelines here range from the Civil War to the near future and the locales vary from a Kentucky mining town to the Gulf Coast of Mexico to the constellation Orion all in all a rare feast for the imagination Stories that have appeared before only in magazines this
