## **Perfect Women Hidden Fears Of Inadequacy And The Drive To Perform:**

**Perfect Women** Colette Dowling,1989 *The Myth of Maturity: What Teenagers Need from Parents to Become Adults*  
Terri Apter,2002-06-17 Parents and young adults alike should benefit from the advice in Apter s insightful book Washington Post What do young people at the threshold of adulthood really need and want Why do so many responsible and motivated teenagers become young adults who are still dependent financially and emotionally on their parents Why are many young people today so quick to leave childhood behind but so slow to become adults In this wise and compassionate book Terri Apter debunks outdated and misguided ideas about maturity Acting in the name of love many parents withdraw emotional or practical support thinking it best for a son or daughter to solve his or her own problems even to suffer alone the consequences of mistakes Apter shows us that young adults actually need a parent s guidance and support while also requiring respect and independence Based on carefully observed case studies and current research this book describes how we can support young people through a crucial stage in their development Lives Together/Worlds Apart Suzanna Danuta Walters,2023-11-15 In the 1940s film *Now Voyager* Bette Davis plays a daughter struggling against her mother s stifling repression Nearly fifty years later in the Hollywood saga *Postcards from the Edge* Shirley MacLaine as a neglectful and bossy mother inflicts untold psychological pain on her daughter played by Meryl Streep These dramas of conflict and the ambivalent struggle for separation have been central to popular images of mothers and daughters in the last half century in the U S Walters boldly challenges these dichotomies and proposes an innovative and multilayered understanding of the cultural construction of the mother daughter relationship In a discussion of popular media ranging from themes of maternal martyrdom to maternal malevolence Walters shows that since World War II mainstream culture has generally represented the mother daughter relationship as one of never ending conflict and thus promoted an ideology of separation as necessary to the daughter s emancipation and maturity This ideological move is placed in a social context of the anti woman backlash of the early post war period and the renewed anti feminism of the Reagan and Bush years Walters uses exceptions to mainstream imagery films such as *A Tree Grows in Brooklyn* television shows like *Maude* novels like *The Joy Luck Club* to offer evidence of alternative traditions and paradigms Timely and vividly argued *Lives Together Worlds Apart* makes a brilliant contribution to discussions of popular culture and feminism In the 1940s film *Now Voyager* Bette Davis plays a daughter struggling against her mother s stifling repression Nearly fifty years later in the Hollywood saga *Postcards from the Edge* Shirley MacLaine as a neglectful and bossy mother in Women's Lives, Man's Myths C. F. Thomas,2010-12-02 Temptations Women Face Mary Ellen Ashcroft,1993-06-02 Describing how several common temptations hook into particular needs and motivations of women Mary Ellen Ashcroft stresses that God s intention is not only that we avoid resist and overcome temptation but that we use it to fire our spiritual growth in areas of life we have neglected **Perfect Women** Colette Dowling,1988 Why are many women today so driven engaged in a relentless pursuit of perfection and

achievement Colette Dowling whose international bestseller *The Cinderella Complex* gave a name to the fear of independence that haunted millions of women now explores this phenomenon common to women everywhere *The Sister Knot* Terri Apter, 2015-05-27 The best book on sisters very important and beautifully written Carol Gilligan author of *In a Different Voice* This substantial contribution to the literature on sibling relationships *Library Journal* explores the intricacy friction and love in bonds between sisters Relationships between women are often freighted with a rocky mix of emotions devotion and disregard affection and loathing admiration and envy leading to anguish and confusion on the playground in the home and in the boardroom Negotiating her layered feelings toward a sister shapes a woman's psychology as forcefully as do her relationships with her parents Drawing on compelling interviews and new research Terri Apter considers the many aspects of the sister relationship from birth through adulthood The need to fight to differentiate oneself from a sister as well the protectiveness one feels for that same person is explained by reference to extensive psychological and biological evidence

**The Reality B(ey)ond** Antje Thiersch, 2002 [Confessing Excess](#) Carole Spitzack, 1990-01-01 Looking at the discourse on female weight reduction in American culture *Confessing Excess* analyzes contemporary dieting and the weight loss literature by taking up the themes of confession and surveillance Spitzack argues that dieting is characterized by confession of excess which women internalize and which necessitates ongoing surveillance or monitoring of the body Informal conversations and in depth interviews also juxtapose women's everyday dieting experiences with the discourse of dieting texts By evaluating the cultural construction of women in this manner the author illuminates the power strategies that offer self acceptance at the price of self condemnation [Encyclopedia of Social Problems](#) Vincent N. Parrillo, 2008-05-22 Social problems affect everyone Because so many actual and potential problems confront us it is often difficult to decide which ones affect us most severely Is it the threat of death or injury during a terrorist attack Is it the threat caused by industrial pollution that may poison us or destroy our physical environment Or does quiet but viciously damaging gender age class racial or ethnic discrimination have the most far reaching effect Do the problems of cities affect us if we live in the suburbs Do poorer nations problems with overpopulation affect our quality of life The *Encyclopedia of Social Problems* offers an interdisciplinary perspective into many social issues that are a continuing concern in our lives whether we confront them on a personal local regional national or global level With more than 600 entries these two volumes cover all of the major theories approaches and contemporary issues in social problems and also provide insight into how social conditions get defined as social problems and the ways different people and organizations view and try to solve them Key Features Provides as comprehensive an approach as possible to this multifaceted field by using experts and scholars from 19 disciplines anthropology biology business chemistry communications criminal justice demography economics education environmental studies geography health history languages political science psychology social work sociology and women's studies Presents a truly international effort with contributors from 17 countries Argentina Australia Canada England France Germany Greece
