Sir Edward BAINES

Perfect Freedom:

The Law of Perfect Freedom Michael Horton, 2004-01-01 The Ten Commandments are not Moses bright ideas or simply God's suggestions they are God's categorical requirements In The Law of Perfect Freedom Michael Horton weaves theological truth with practical application to help believers live out the Ten Commandments Understanding how to live out these commandments brings vitality and victory to our walk with God

Education best promoted by Perfect Freedom, not by State endowments, etc Sir Edward BAINES, 1854 Religion, perfect freedom. A sermon [on John viii. 32] ... on ... the death of A. Evans, etc Rev. Daniel NOBLE, 1767 *The Discipline of Freedom* Phillip Olson, 1993-01-01 Seyyed Hossein Nasr is University Professor of Islamic Studies at George Washington University He is the author of *Islamic Art and Spirituality* *Islamic Life and Thought and Knowledge and the Sacred* and the co editor of *Expectation of the Millennium Shiism in History and Shiism Doctrines Thought and Spirituality* all published by SUNY Press He is also the General Editor of the SUNY series in Islam Nasr was educated at MIT and Harvard and has taught throughout America Europe the Middle East Pakistan India Japan and Australia The author shows that both Shunryu Suzuki and Kant posit a reciprocally supportive relationship between the development of personal autonomy and the respectful observance of moral rules or precepts and that both see the practice of a discipline restricting the speculative activity of reason as essential to the attainment of true freedom and moral worth By cultivating consciousness of freedom through insight into emptiness the discipline of zazen acts as what Kant calls a moral ascetic cultivating a mind and body responsive to universal moral concerns Olson concludes by showing how Kant's notion of the ultimate end of moral behavior the highest good is manifested in the Bodhisattva's vow to work for the salvation of all sentient beings

Kant and the Creation of Freedom Christopher J. Insole, 2013-05-30 Kant is a key thinker in the emergence of our contemporary sense of what human freedom is and why it is important This book shows that important features of Kant's philosophy were forged out of difficulties he had in reconciling his belief in God as creator with the concept of human freedom
