Perfect Madness:

Perfect Madness Judith Warner, 2006-02-07 A lively and provocative look at the modern culture of motherhood and at the social economic and political forces that shaped current ideas about parenting What is wrong with this picture That s the question Judith Warner asks in this national bestseller after taking a good hard look at the world of modern parenting at anxious women at work and at home and in bed with unhappy husbands When Warner had her first child she was living in Paris where parents routinely left their children home with state subsidized nannies to join friends in the evening for dinner or to go on dates with their husbands When she returned to the States she was stunned by the cultural differences she found toward how people think about effective parenting in particular assumptions about motherhood None of the mothers she met seemed happy instead they worried about the possibility of not having the perfect child panicking as each developmental benchmark approached Combining close readings of mainstream magazines TV shows and pop culture with a thorough command of dominant ideas in recent psychological social and economic theory Perfect Madness addresses our cultural assumptions and examines the forces that have shaped them Working in the tradition of classics like Betty Friedan s The Feminine Mystique and Christopher Lasch s The Culture of Narcissism and with an awareness of a readership that turned recent hits like The Bitch in the House and Allison Pearson s I Don t Know How She Does It into bestsellers Warner offers a context in which to understand parenting culture and the way we live as well as ways of imagining alternatives actual concrete changes that might better our lives

We've Got Issues Judith Warner, 2011-02-01 A bold brilliant and provocative look at childhood medication by New York Times bestselling author Judith Warner In Perfect Madness Motherhood in the Age of Anxiety the bestselling author and former New York Times columnist Judith Warner explained what s gone wrong with the culture of parenting and her conclusions sparked a national debate on how women and society view motherhood Her new book We ve Got Issues Children and Parents in the Age of Medication will generate the same kind of controversy as she tackles a subject that s just as contentious and important Are parents and physicians too quick to prescribe medication to control our children s behavior Are we using drugs to excuse inept parents who can t raise their children properly What Warner discovered from the extensive research and interviewing she did for this book is that passion on both sides of the issue is ideological and only tangentially about real children and she cuts through the jargon and hysteria to delve into a topic that for millions of parents involves one of the most important decisions they ll ever make for their child Insightful compelling and deeply moving We ve Got Issues is for parents doctors and teachers anyone who cares about the welfare of today s children

Motherload Ana Villalobos, 2014-09-05 Motherload s core arguments are that security seeking is the driving force of intensive mothering and that high expectation of security in the mother child relationship i e the motherload is what makes mothering so difficult today It further argues that the motherload carried with every good

intention to produce security through this one uniquely powerful relationship can unintentionally undermine families security Strategies of producing security vary fundamentally along two dimensions First some strategies use mother child connection as the primary security producing tool whereas others use independence Second some strategies are intended to provide security to the child while others are aimed primarily at the mother s security So for example one mother may use independence to create security for her child and another may use connection to create security for herself Motherload explores this variety of security strategies and argues against a one size fits all understanding of intensive mothering For each of these different strategies I include a chapter to explore the various factors that predispose women toward mothering in that particular way the family dynamics that security strategy tends to foster and the early outcomes associated with that strategy including how the mother child relationship itself tends to fare when a woman uses that strategy as versus another Provided by publisher

The Dream of the Perfect Child Joan Rothschild,2005 A feminist critique of bioethics and attitudes toward reproductive technologies Giving Offense J. M. Coetzee,1996-04-15 In Giving Offense South African writer J M Coetzee presents a coherent unorthodox analysis of censorship from the perspective of a writer who has lived and worked under its shadow Widely acclaimed for his many novels Coetzee is also a brilliant literary critic and essayist The essays collected here attempt to understand the passion that plays itself out in acts of silencing and censoring Subscribing neither to the myth of the writer as a moral giant nor to that of the writer as persecuted innocent Coetzee argues that a destructive dynamic of belligerence and escalation tends to overtake the rivals in any field ruled by censorship From Osip Mandelstam commanded to compose an ode in praise of Stalin to Breyten Breytenbach writing poems under and for the eyes of his prison guards to Aleksandr Solzhenitsyn engaging in a trial of wits with the organs of the Soviet state Giving Offense focuses on the ways authors have historically responded to censorship It also analyzes the arguments of Catharine MacKinnon for the suppression of pornography and traces the operations of the old South African censorship system Finally Coetzee delves into the early history of apartheid and criticizes the blankness of contemporary political science in its efforts to address the deeper motives behind apartheid
